

The background of the image is a religious painting. It features a man with a long, dark beard and a woman with a red, curved horn on her forehead. The man is looking down with a somber expression, while the woman is looking up at him. The painting is in a classical style with warm, golden tones.

# **Where Will The Antichrist Come From?**

**For centuries, scholars and believers have debated where the Antichrist will come from, often pointing to Rome or vague regions in the Middle East. But what if the truth has been hidden in plain sight all along, woven through ancient prophecies, forgotten tribes, and even the technologies shaping our world today?**

A background image of a large, golden Buddha statue with a serene expression, wearing a red and gold robe. The statue is set against a light, textured background.

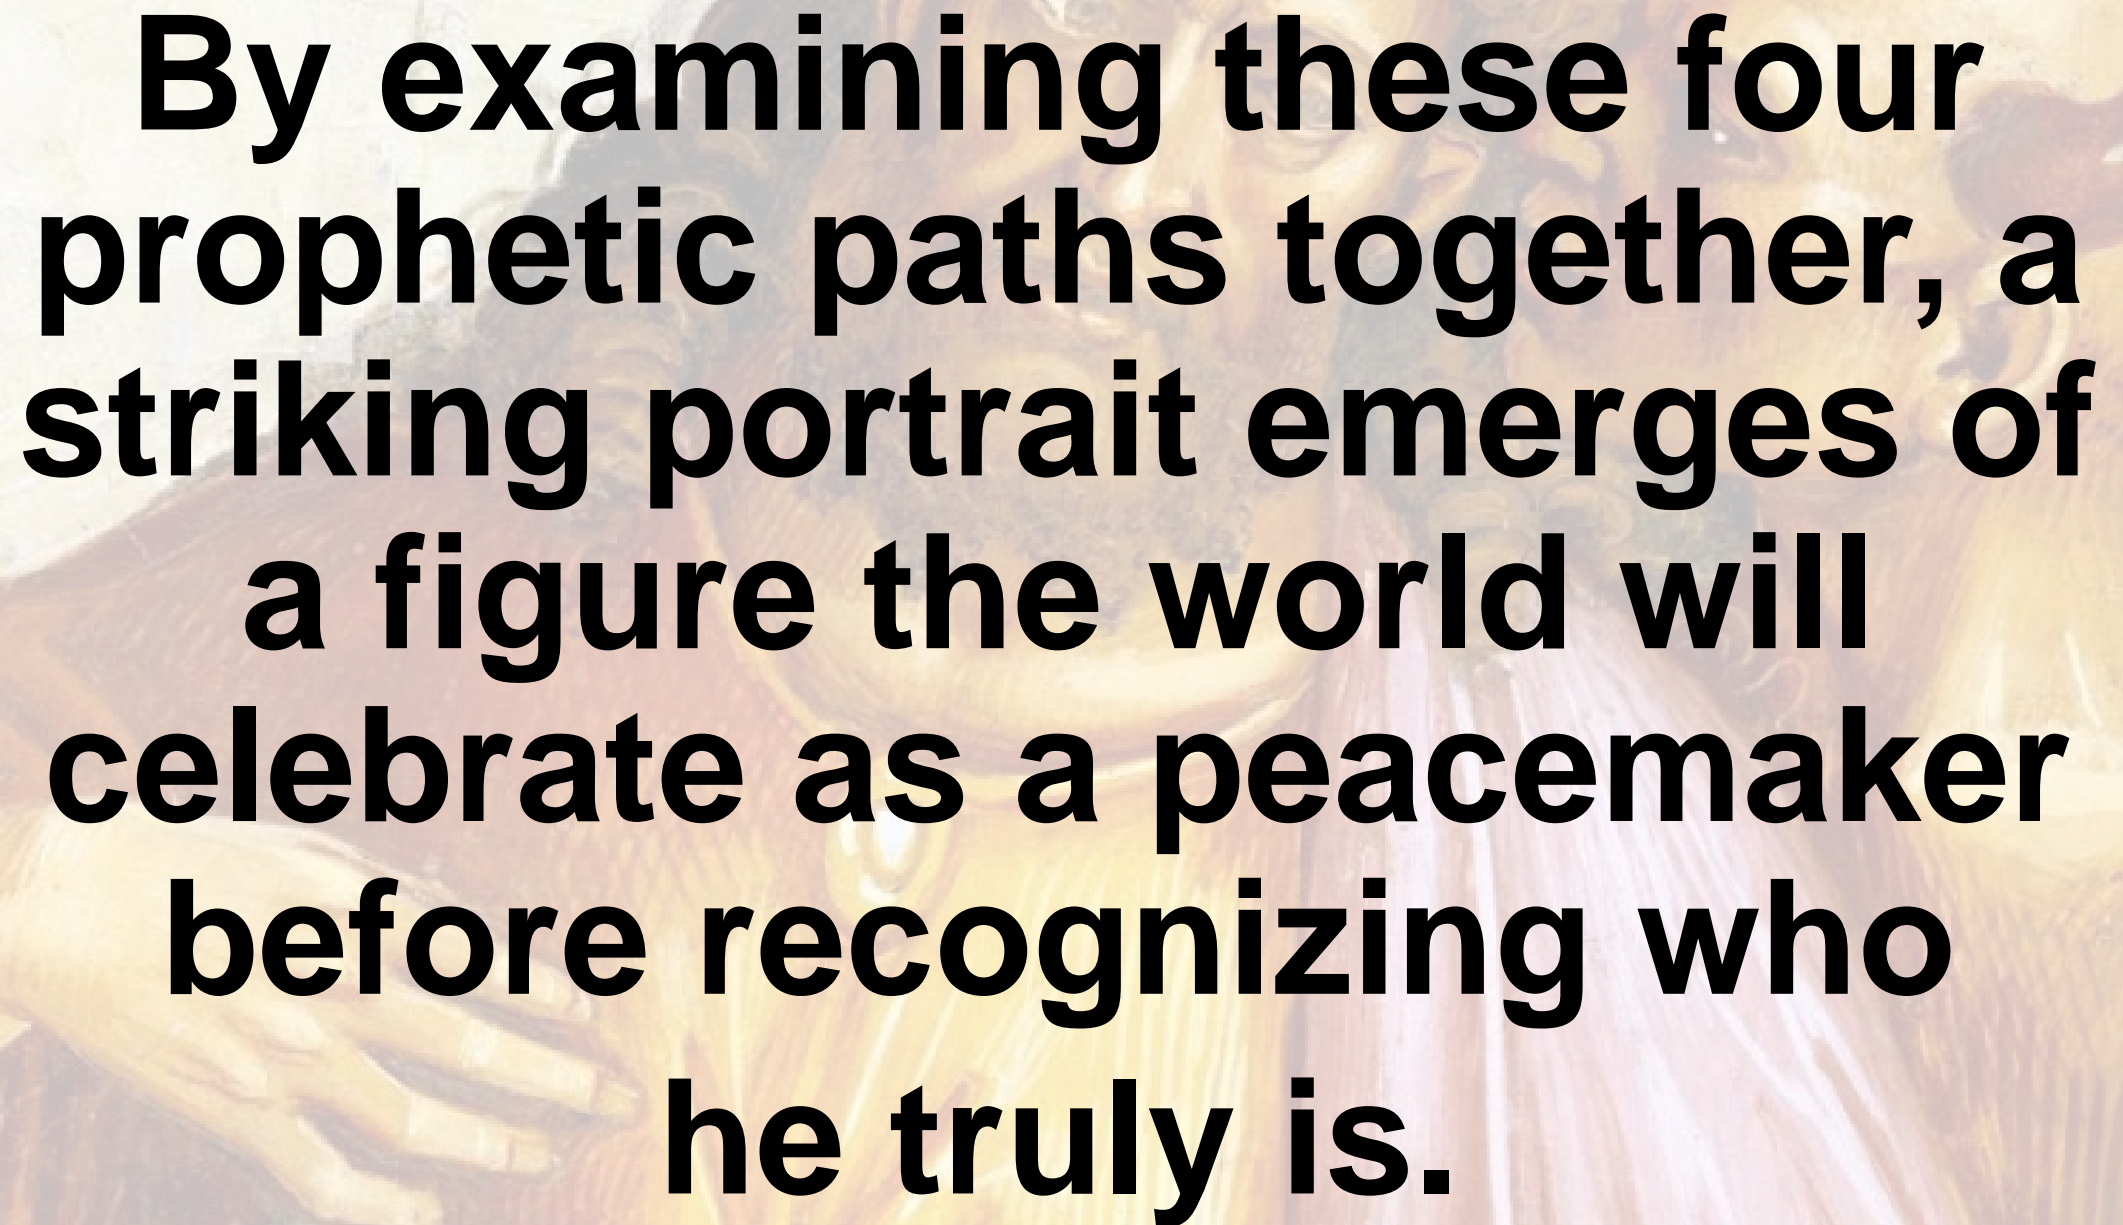

**Scholars suggest he could come from any of the following sources:**

**The missing tribe of Dan**

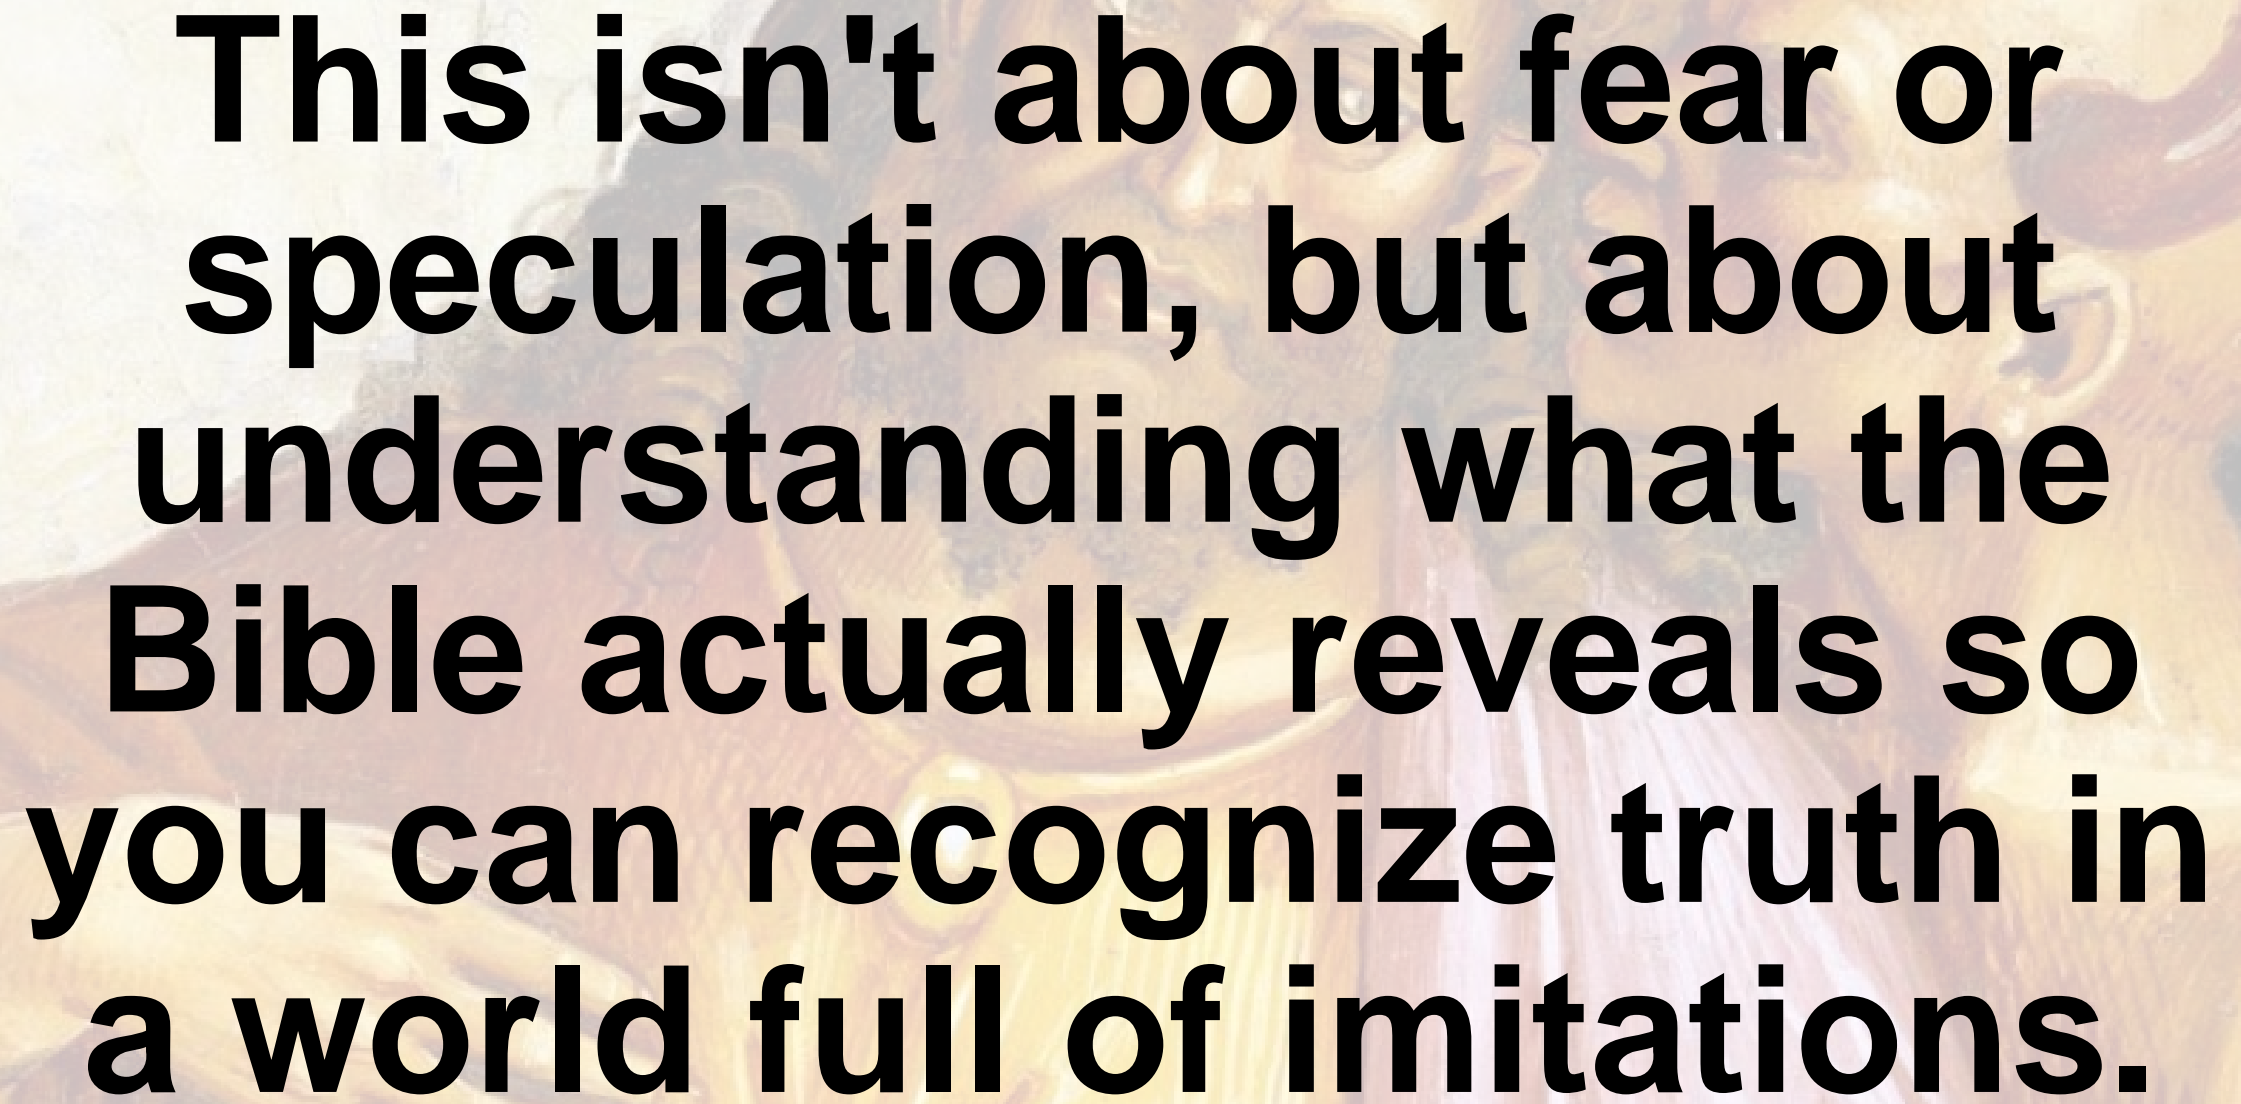

**The ancient Assyrian empire**

**Islamic end-times expectations**

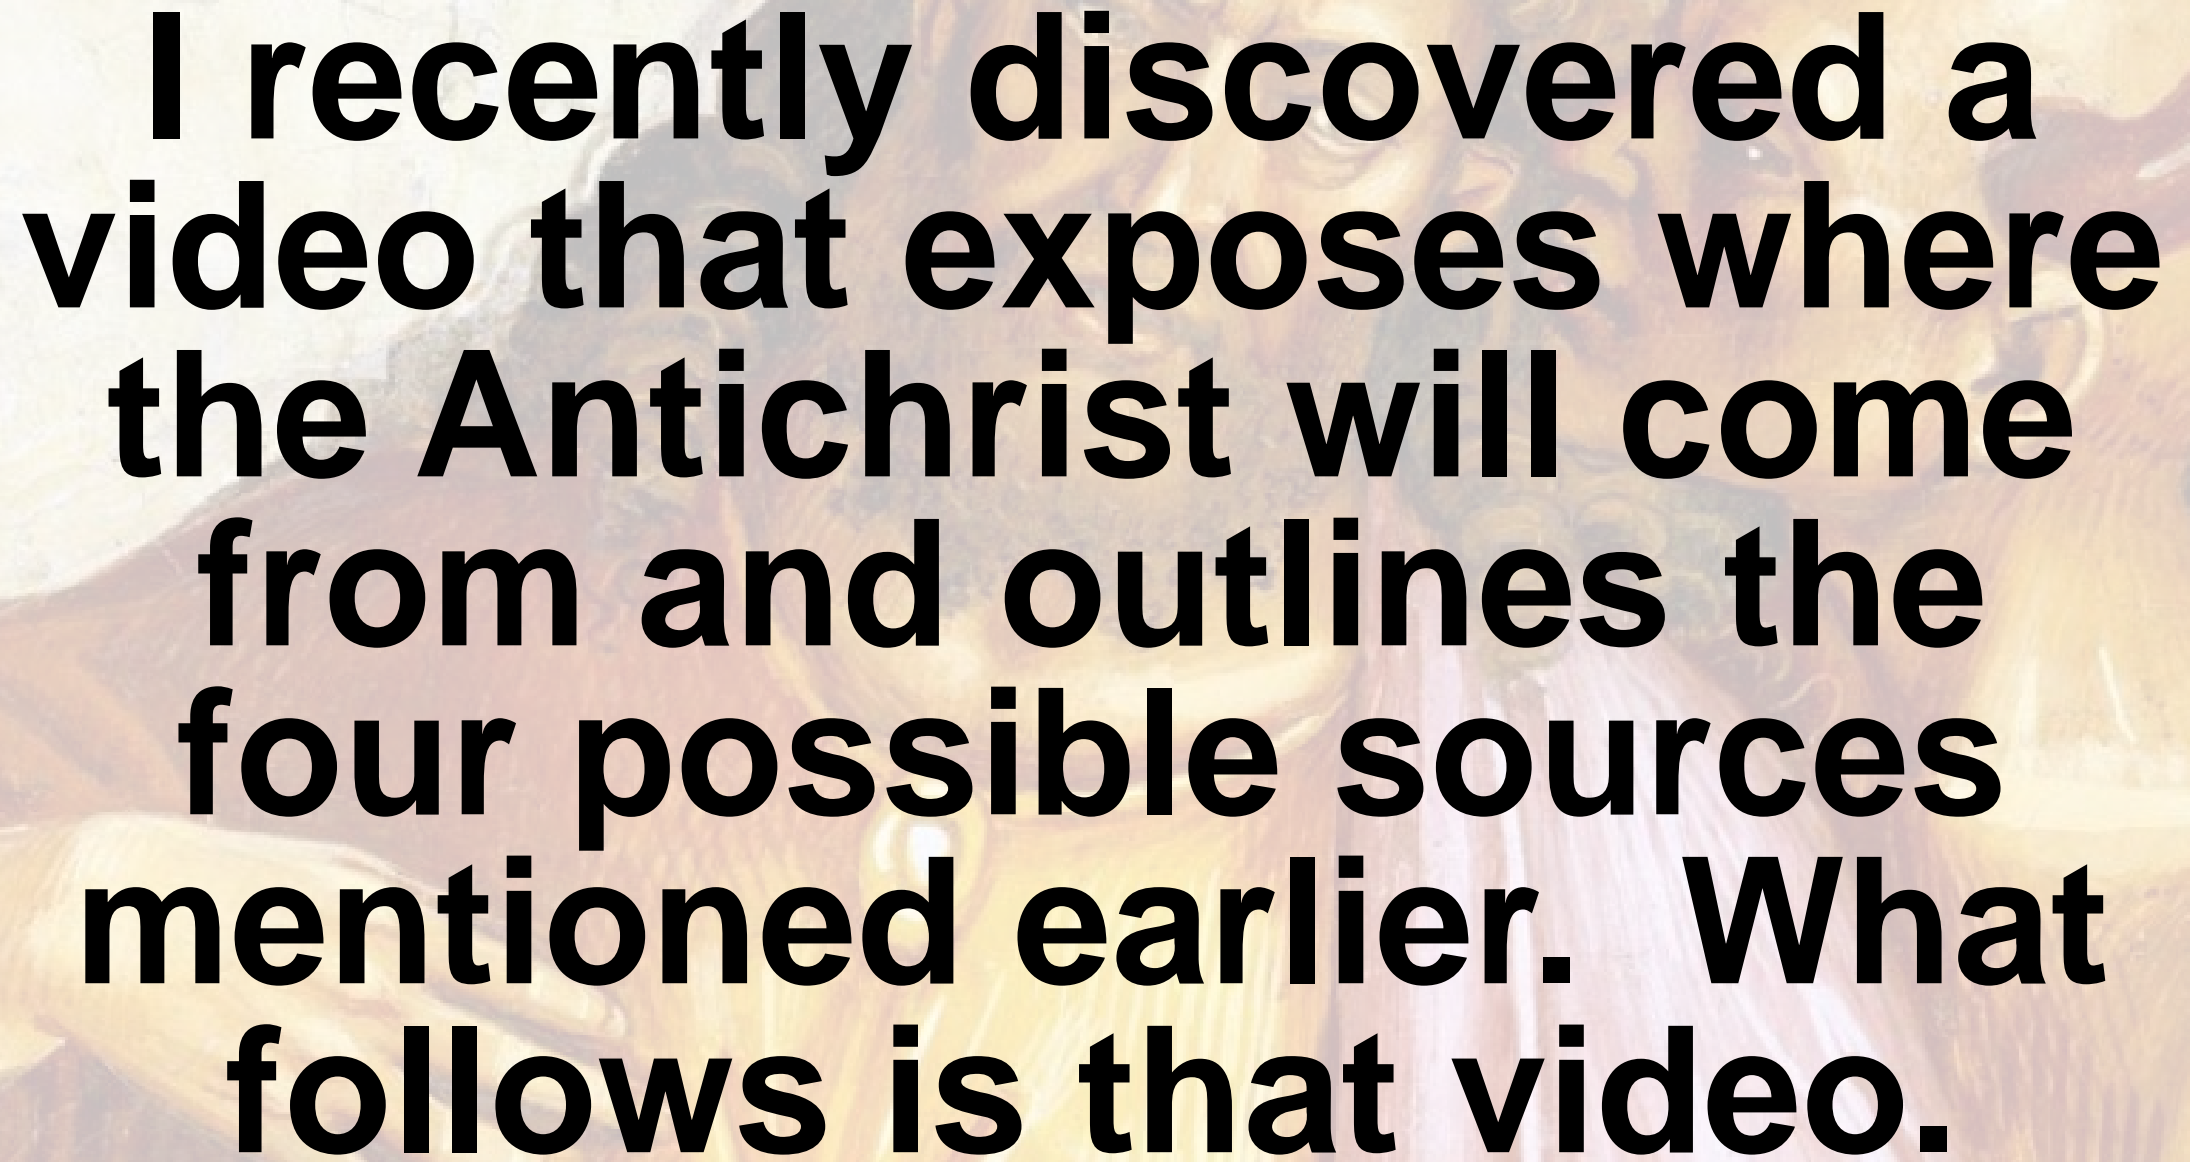

**The rise of artificial intelligence and transhuman enhancement.**

**By examining these four  
prophetic paths together, a  
striking portrait emerges of  
a figure the world will  
celebrate as a peacemaker  
before recognizing who  
he truly is.**

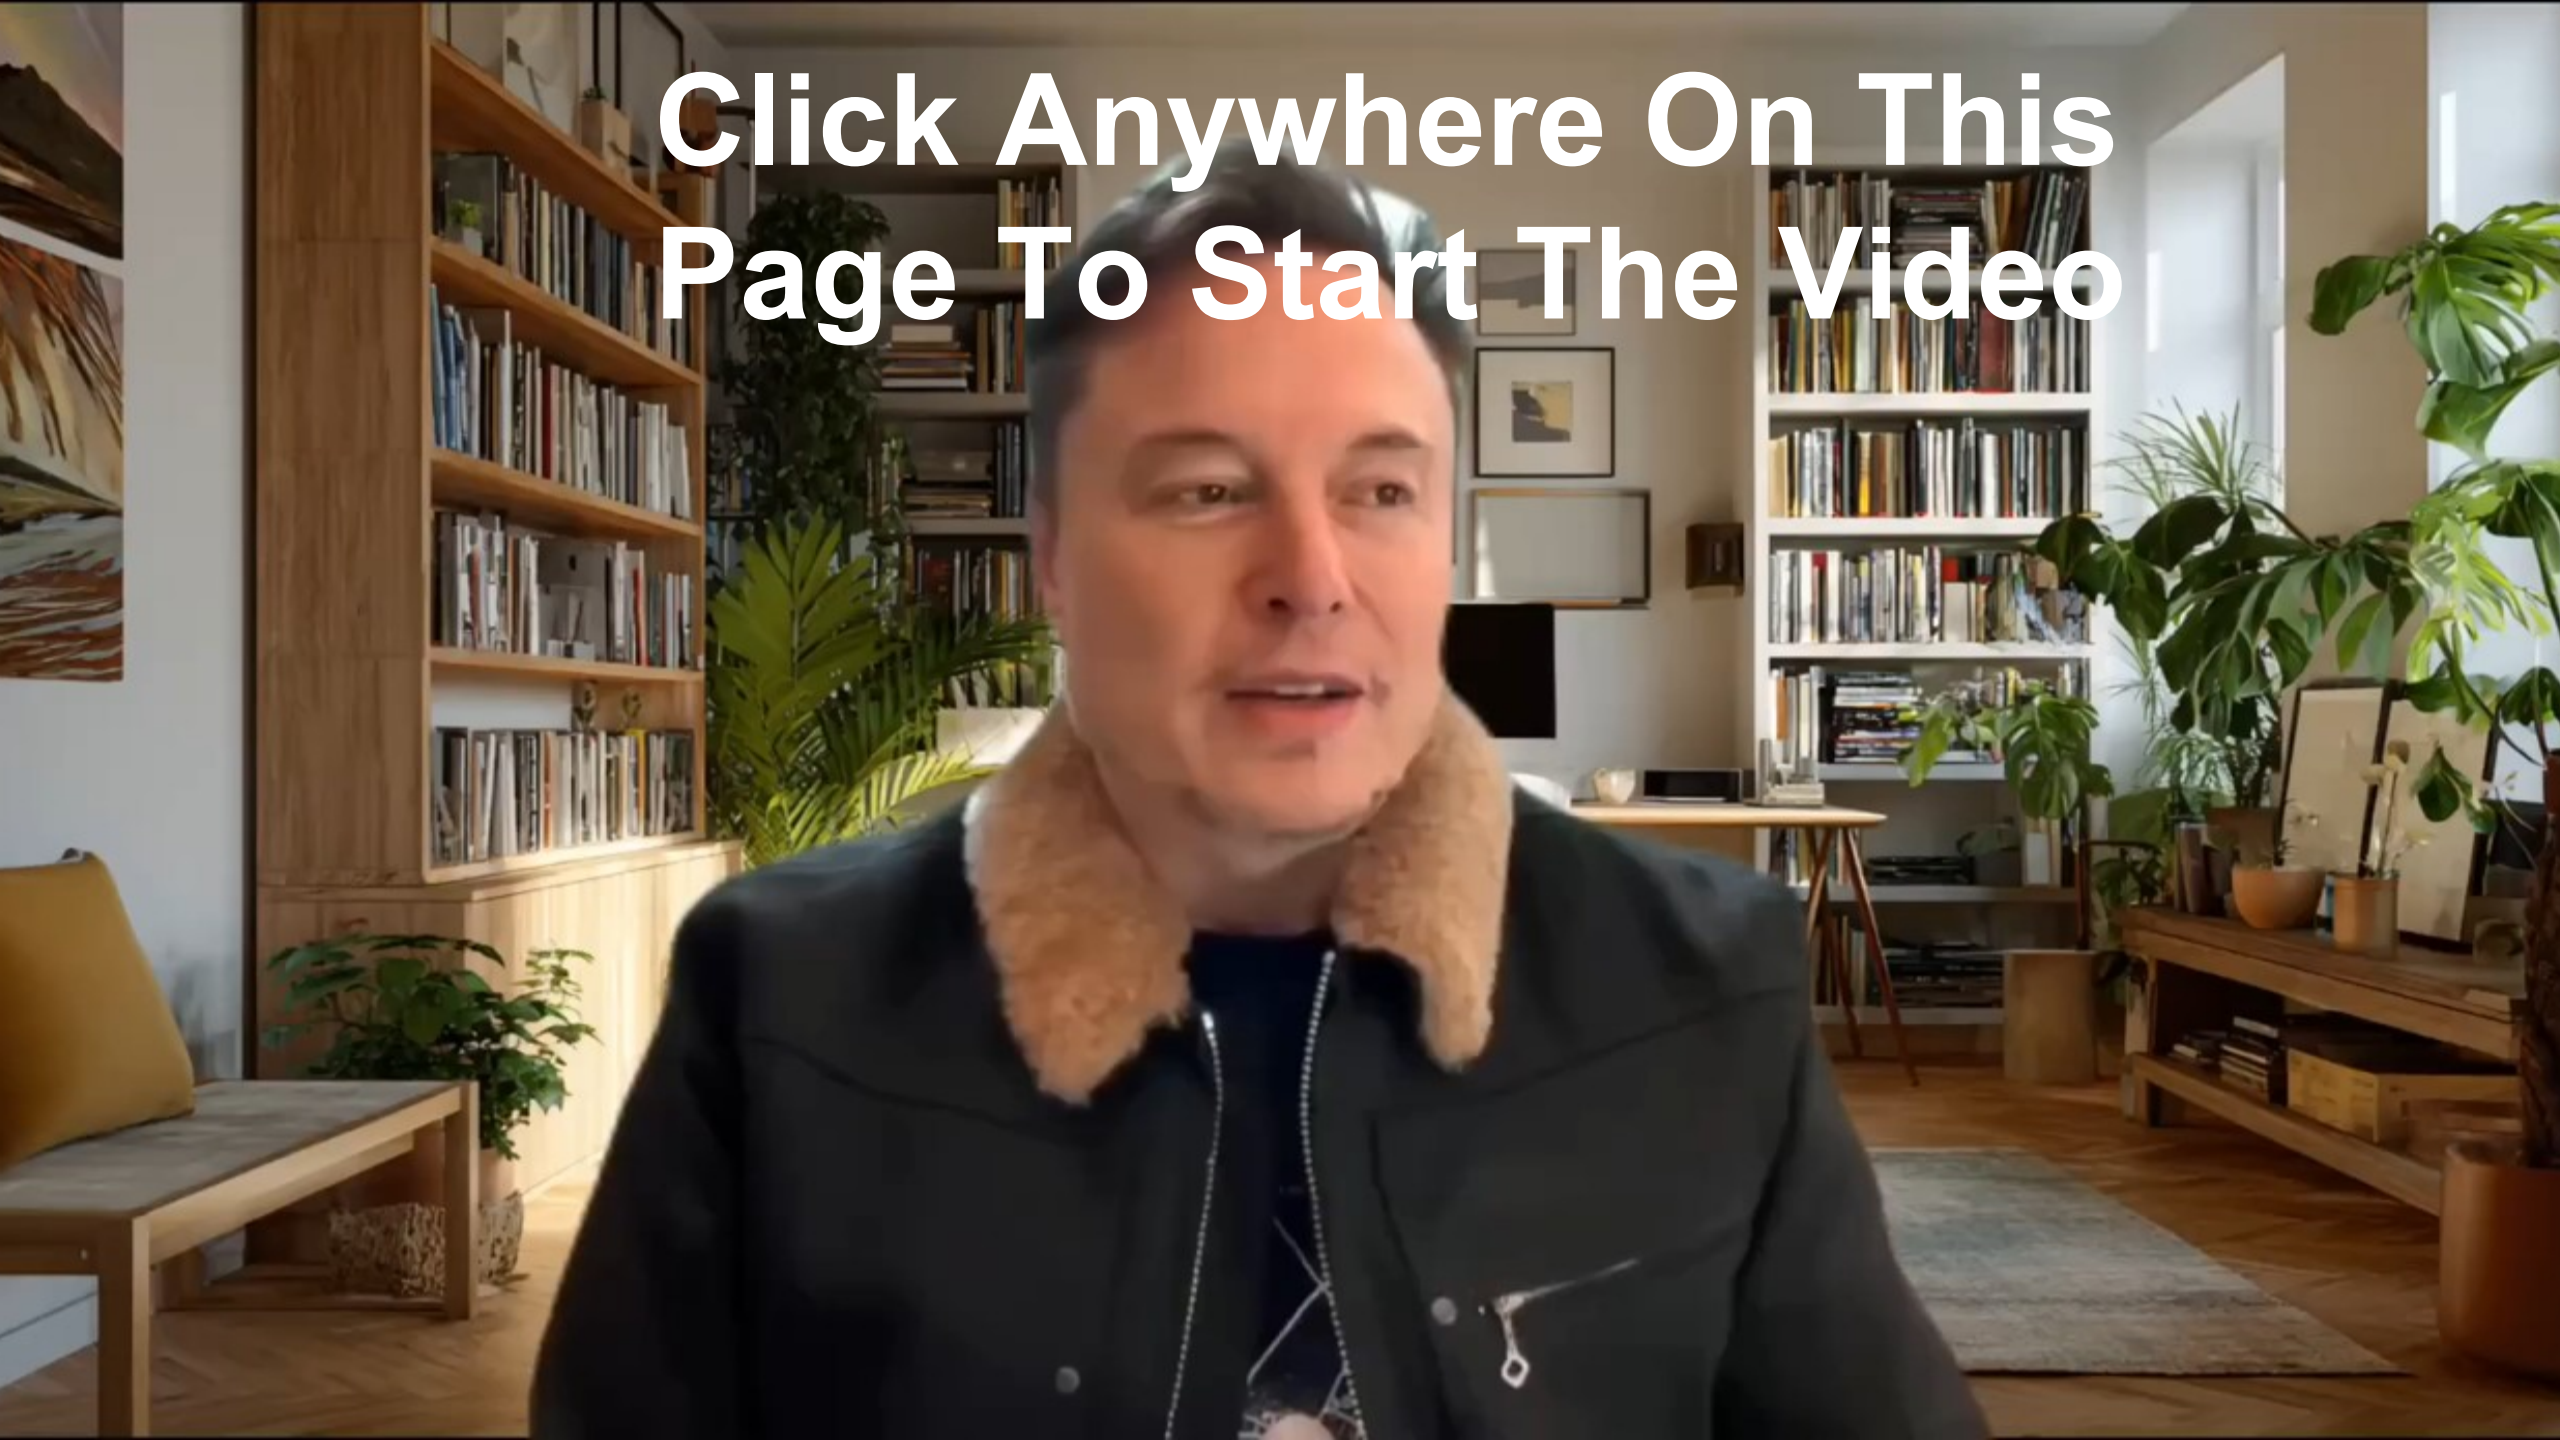

**This isn't about fear or speculation, but about understanding what the Bible actually reveals so you can recognize truth in a world full of imitations.**

The background of the image is a religious painting. It depicts the Virgin Mary holding the Christ Child. The Christ Child is seated on Mary's lap, holding a book. To the right, a bull's head is visible, looking towards the center. The painting is in a classical style with warm, golden-brown tones.

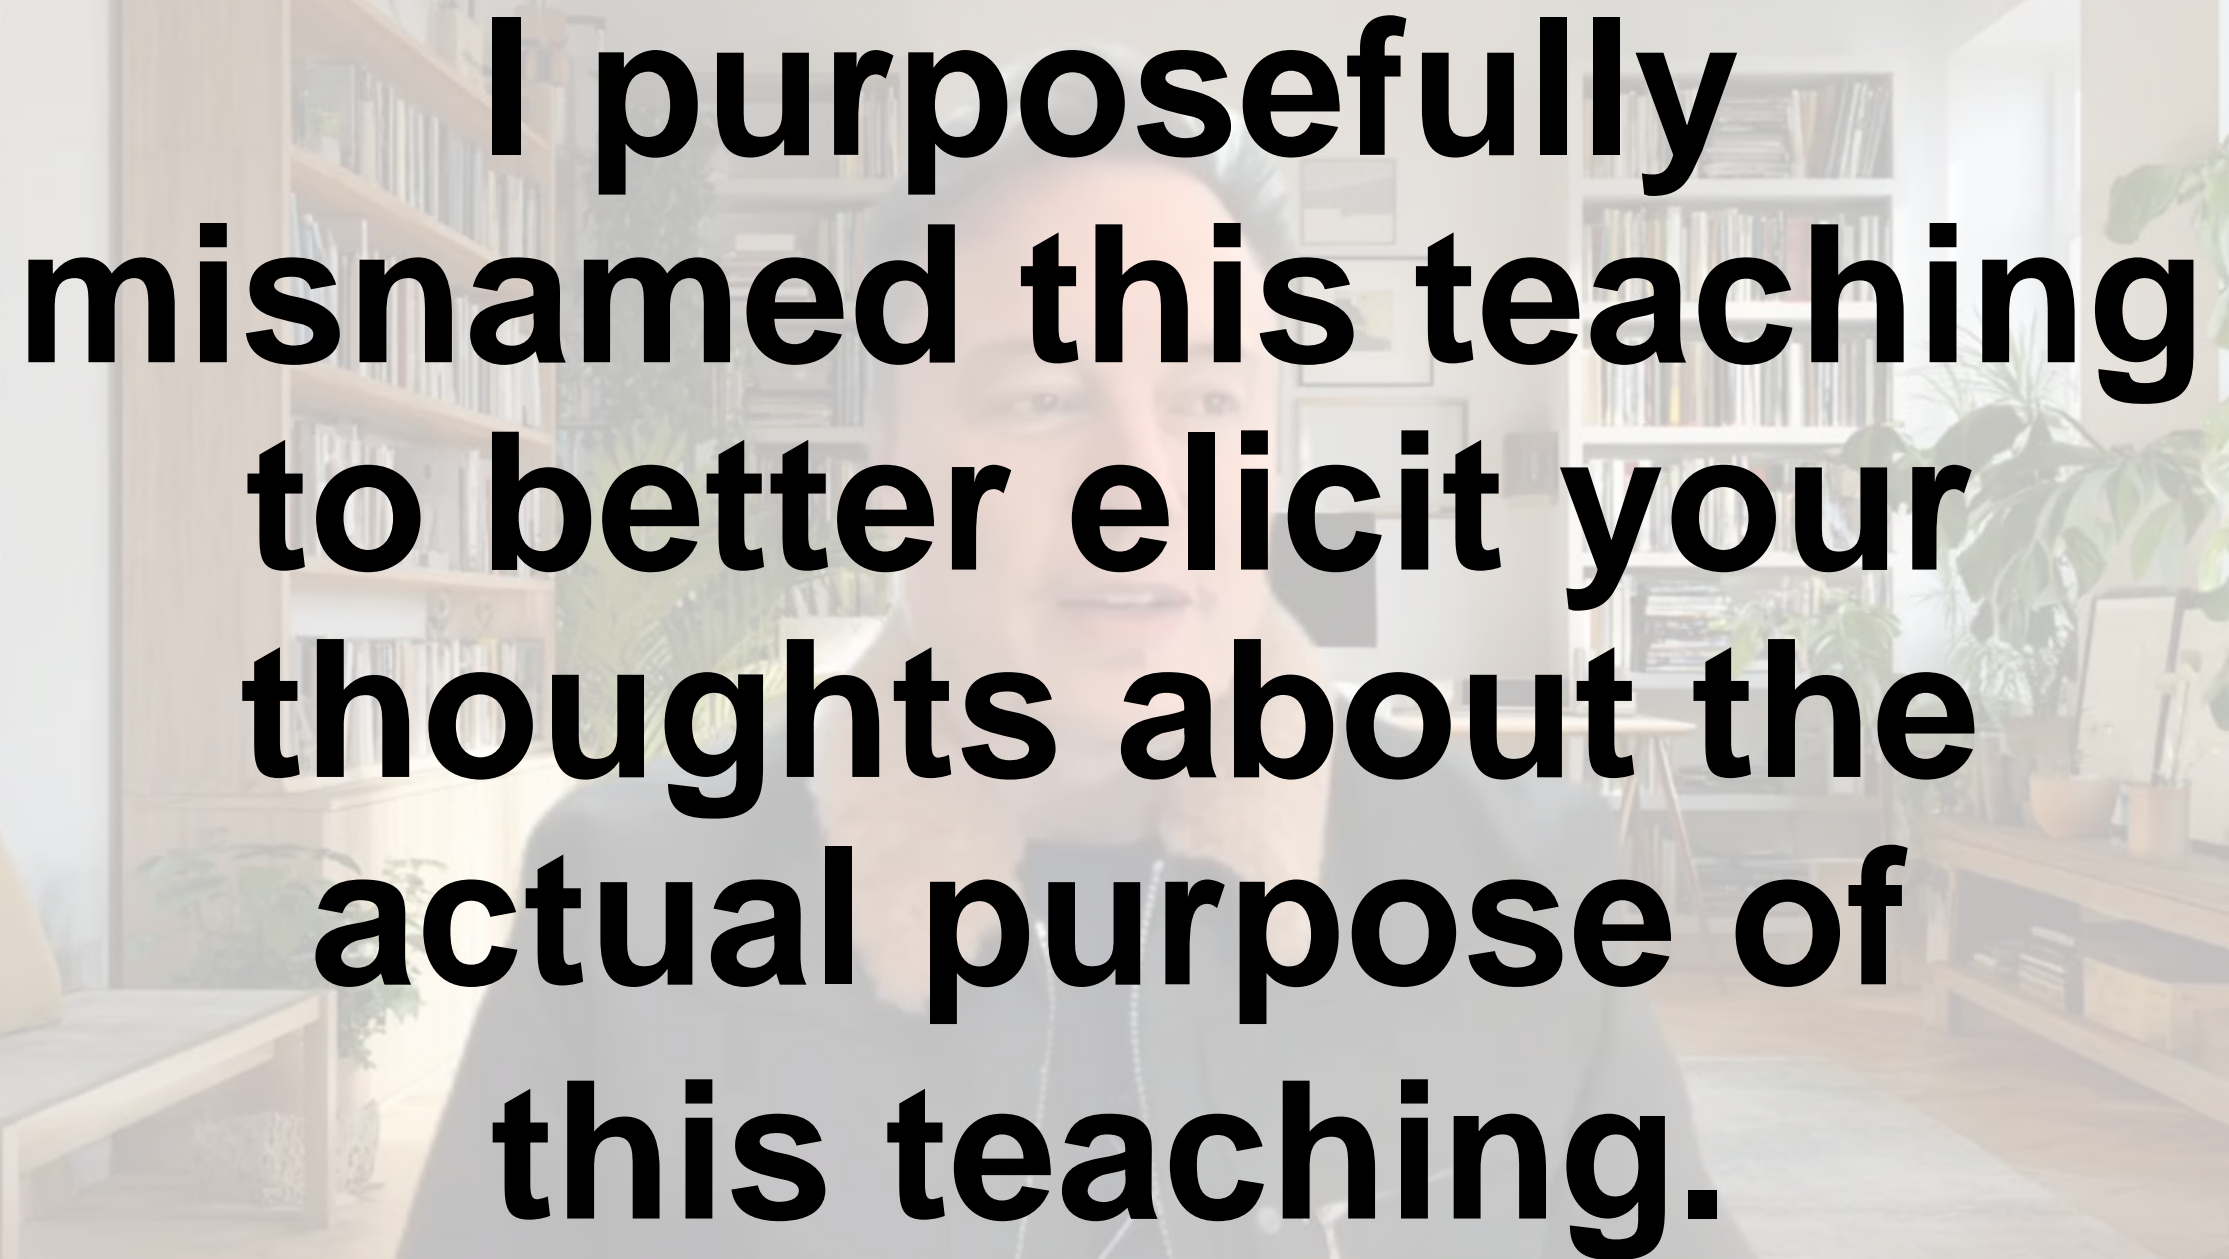

**I recently discovered a video that exposes where the Antichrist will come from and outlines the four possible sources mentioned earlier. What follows is that video.**

A woman with dark hair, wearing a dark top and a necklace, is centered in the frame. She is smiling slightly. The background is a bright, modern interior space, likely a library or study, with tall wooden bookshelves filled with books. There are several green plants, including a large Monstera on the right. The lighting is warm and natural, coming from a window on the right. The text is overlaid on the image in a large, bold, black font.

**I purposefully  
misnamed this teaching  
to better elicit your  
thoughts about the  
actual purpose of  
this teaching.**

**Rather than the title “Where  
Will The Antichrist Come  
From?” it should be called:**

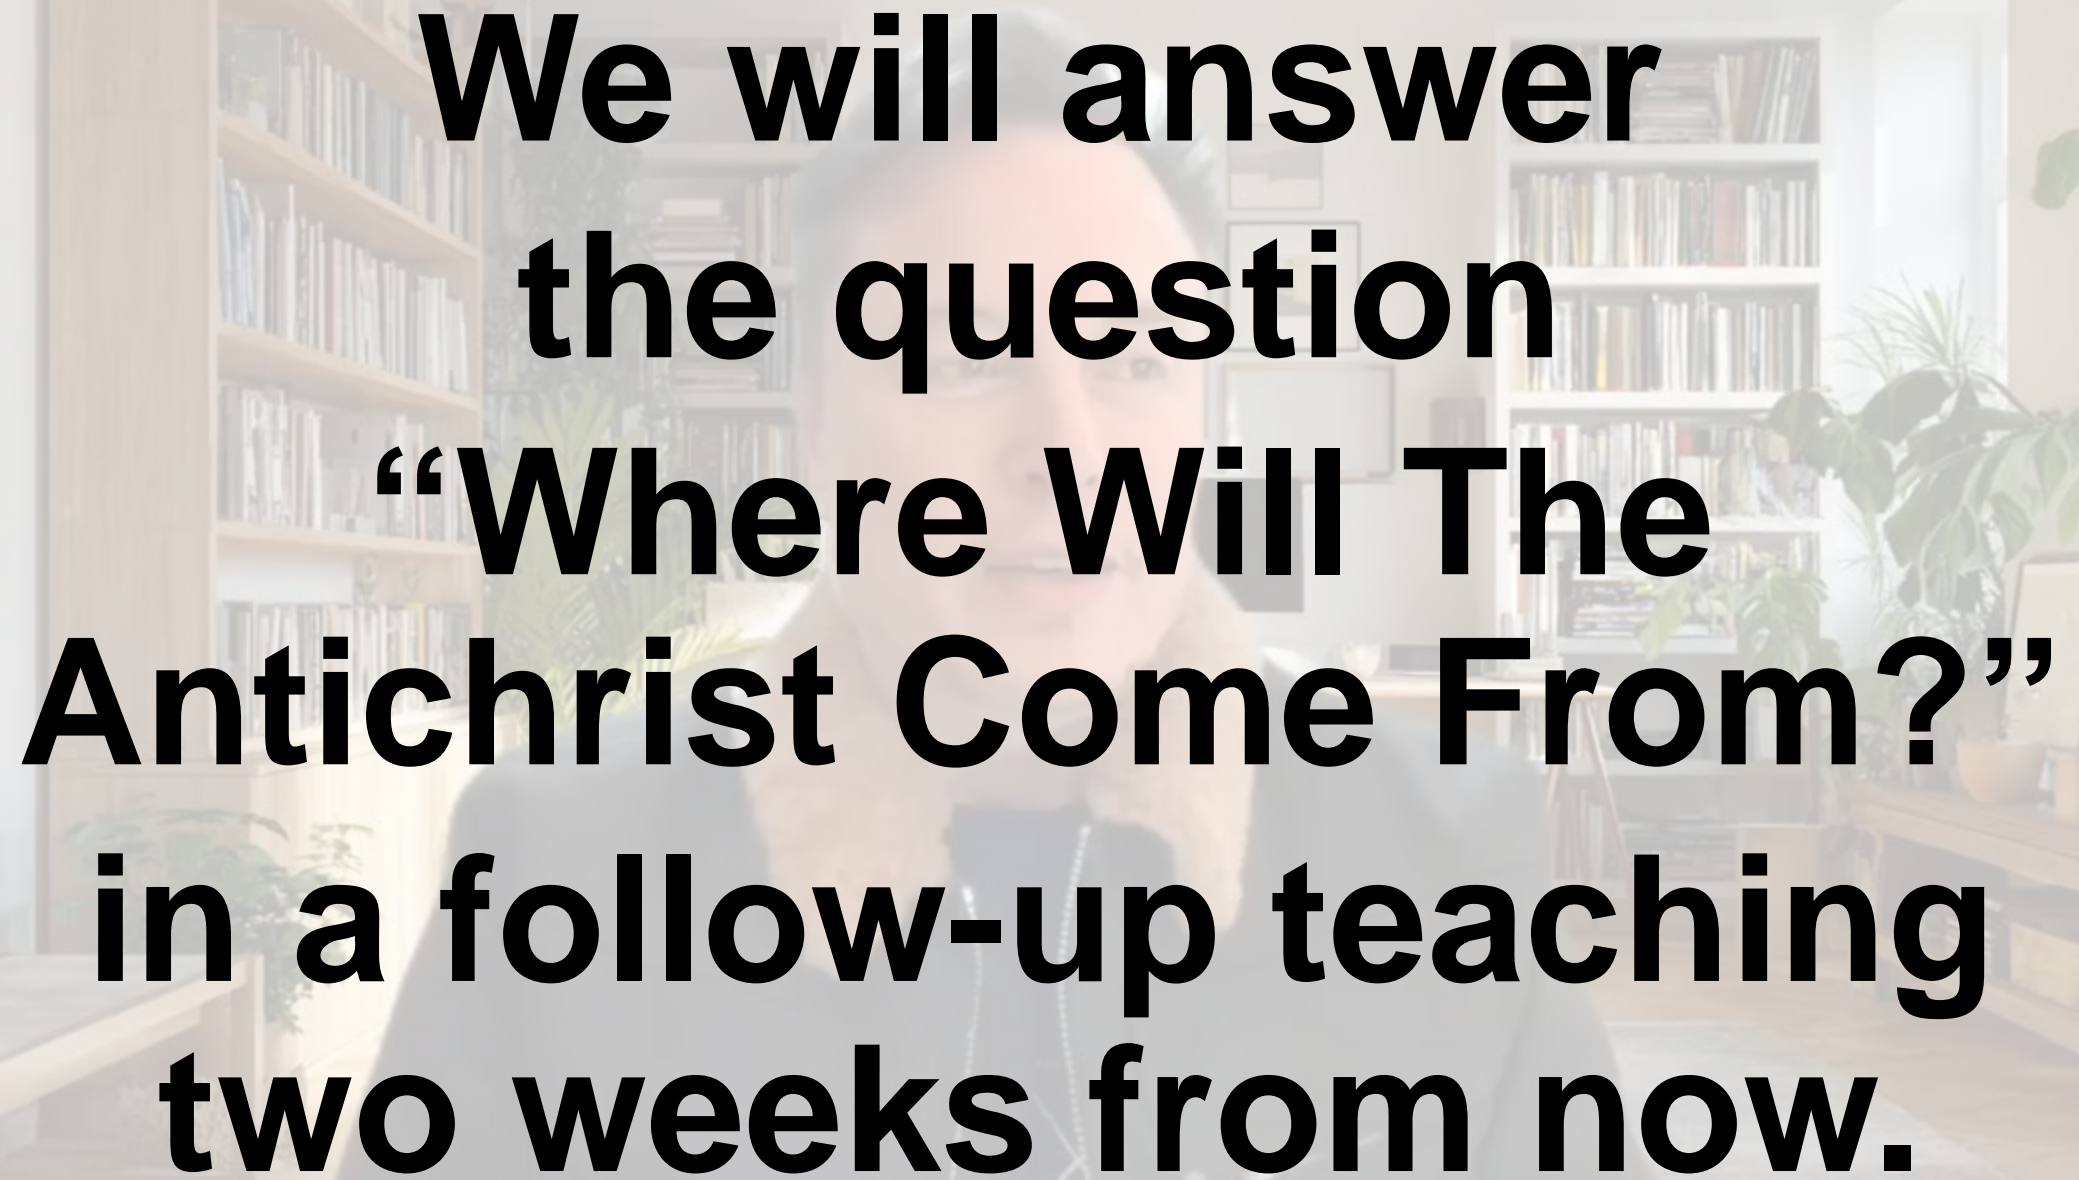

**“Is AI All That Bad”**

There are tall wooden bookshelves filled with books on either side of her. To the right, there are several large green plants, including a Monstera. The lighting is soft and natural, coming from a window on the right. The overall atmosphere is calm and intellectual.

**We will answer  
the question  
“Where Will The  
Antichrist Come From?”  
in a follow-up teaching  
two weeks from now.**

A woman with dark hair and a necklace is centered in the foreground, looking directly at the camera. The background is a bright, modern library or study with tall wooden bookshelves filled with books. There are several green plants, including a large Monstera on the right and a smaller one on the left. A wooden desk with a laptop and other items is visible on the right. The overall atmosphere is calm and intellectual.

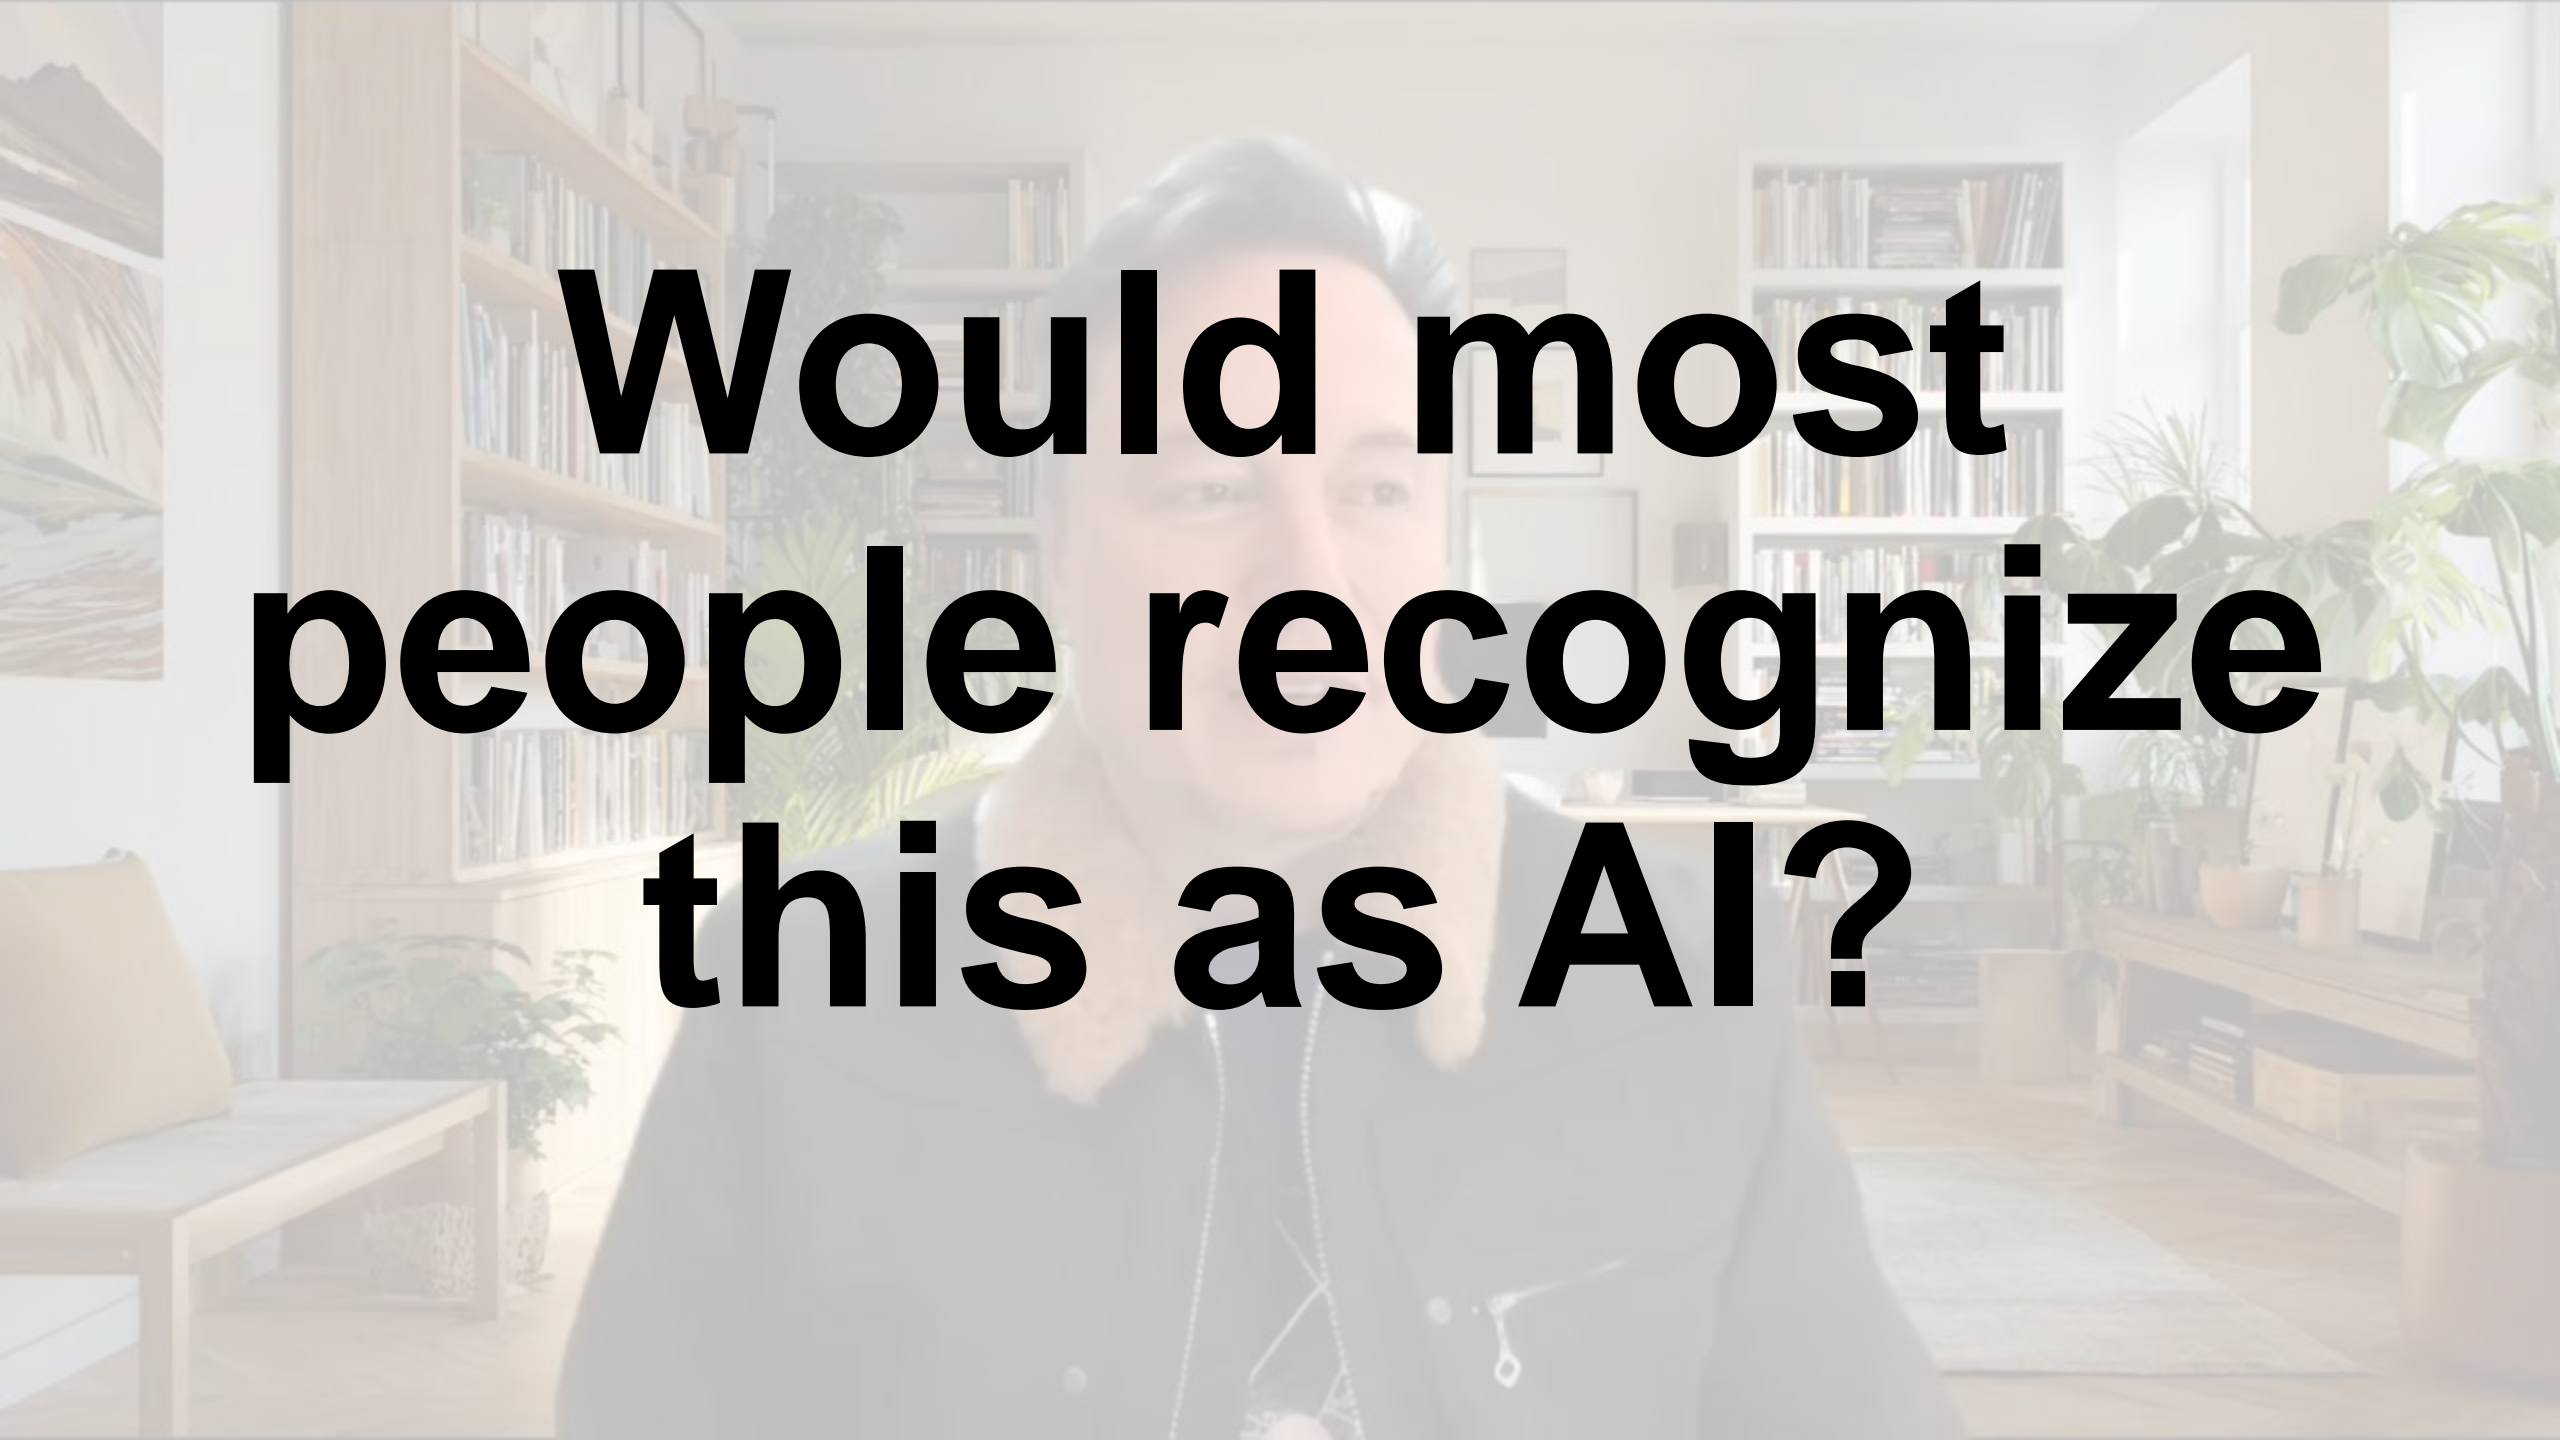

**In this teaching we  
are going to look at  
how AI is already  
being used in  
ministry and  
commenting on it.**

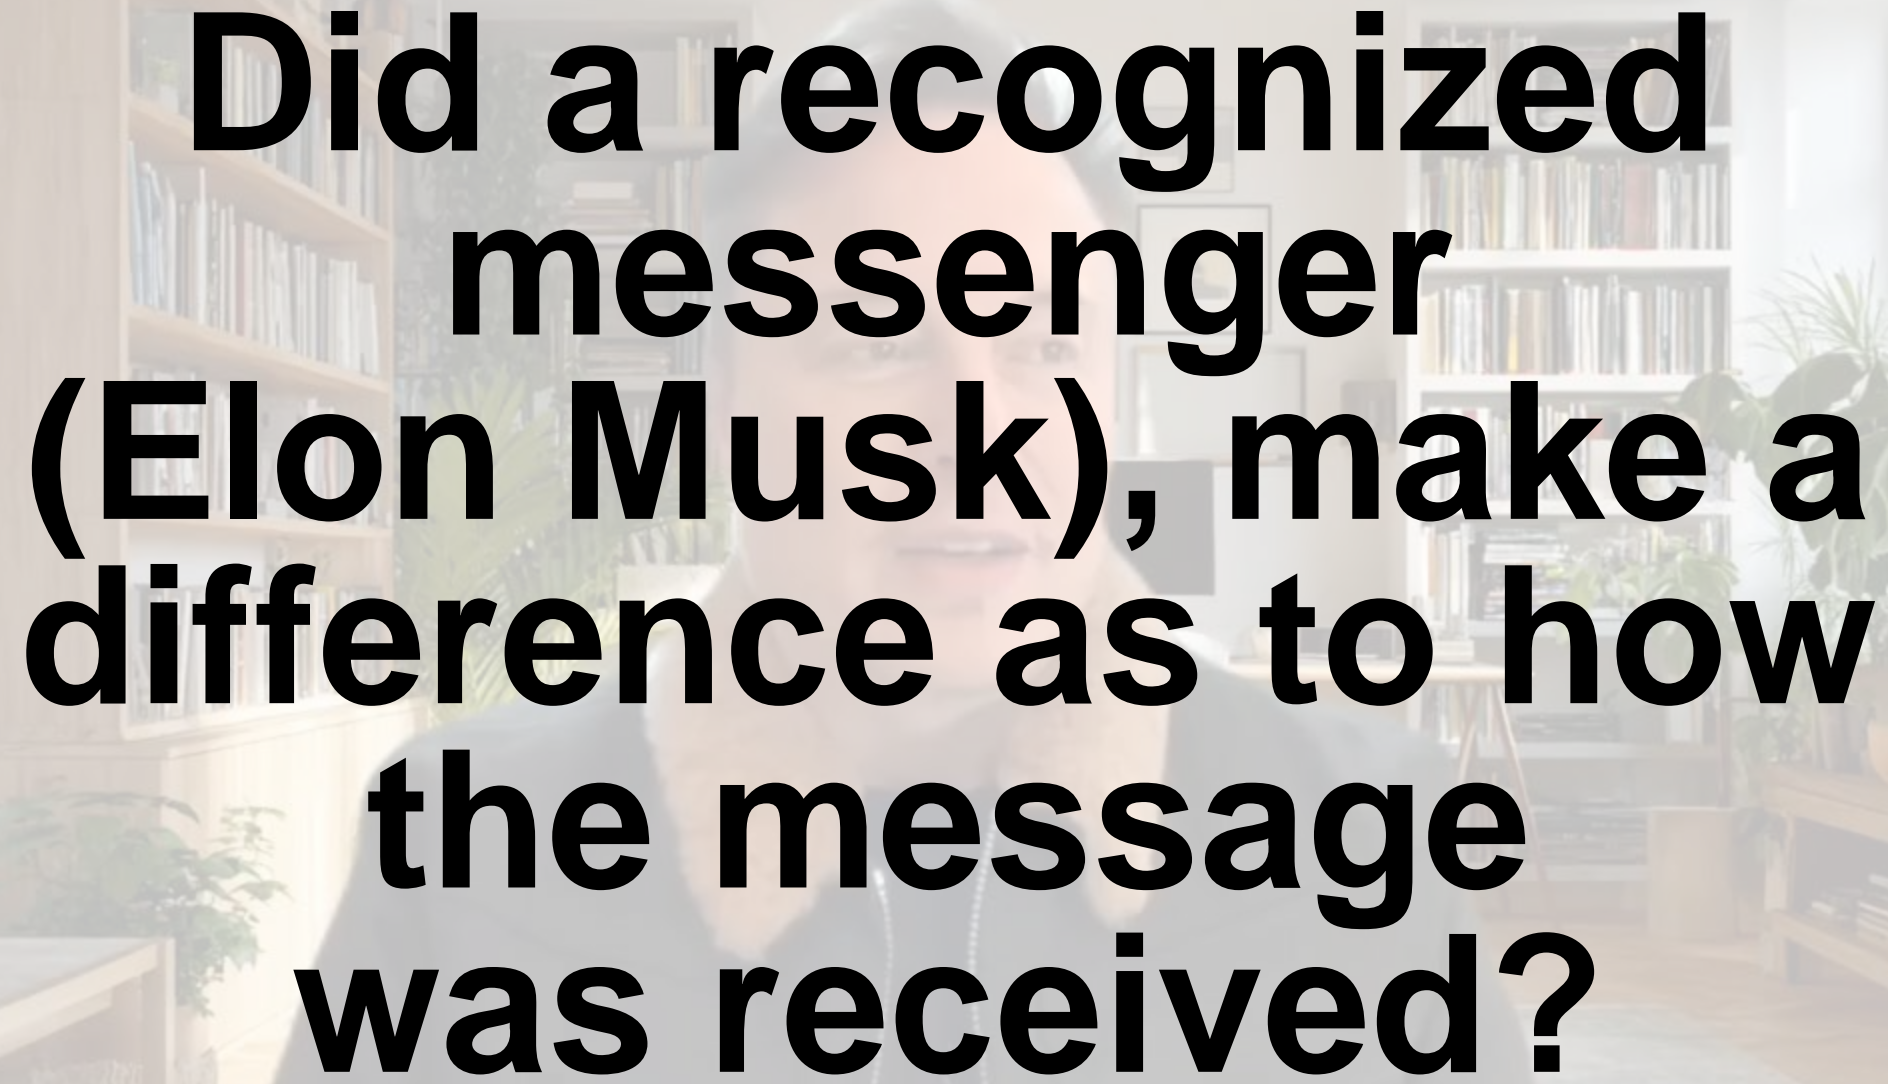

A woman with dark hair, wearing a dark blue jacket, is positioned in the center of the frame. She is looking directly at the camera with a slight smile. The background is a bright, modern interior space, likely a library or study. To the left, there are tall wooden bookshelves filled with books. To the right, there are more bookshelves and several large green plants. The lighting is soft and even, creating a warm and inviting atmosphere. The text "Did you initially recognize this teaching as AI?" is overlaid on the image in a large, bold, black font.

difference as to how  
the message  
was received?**

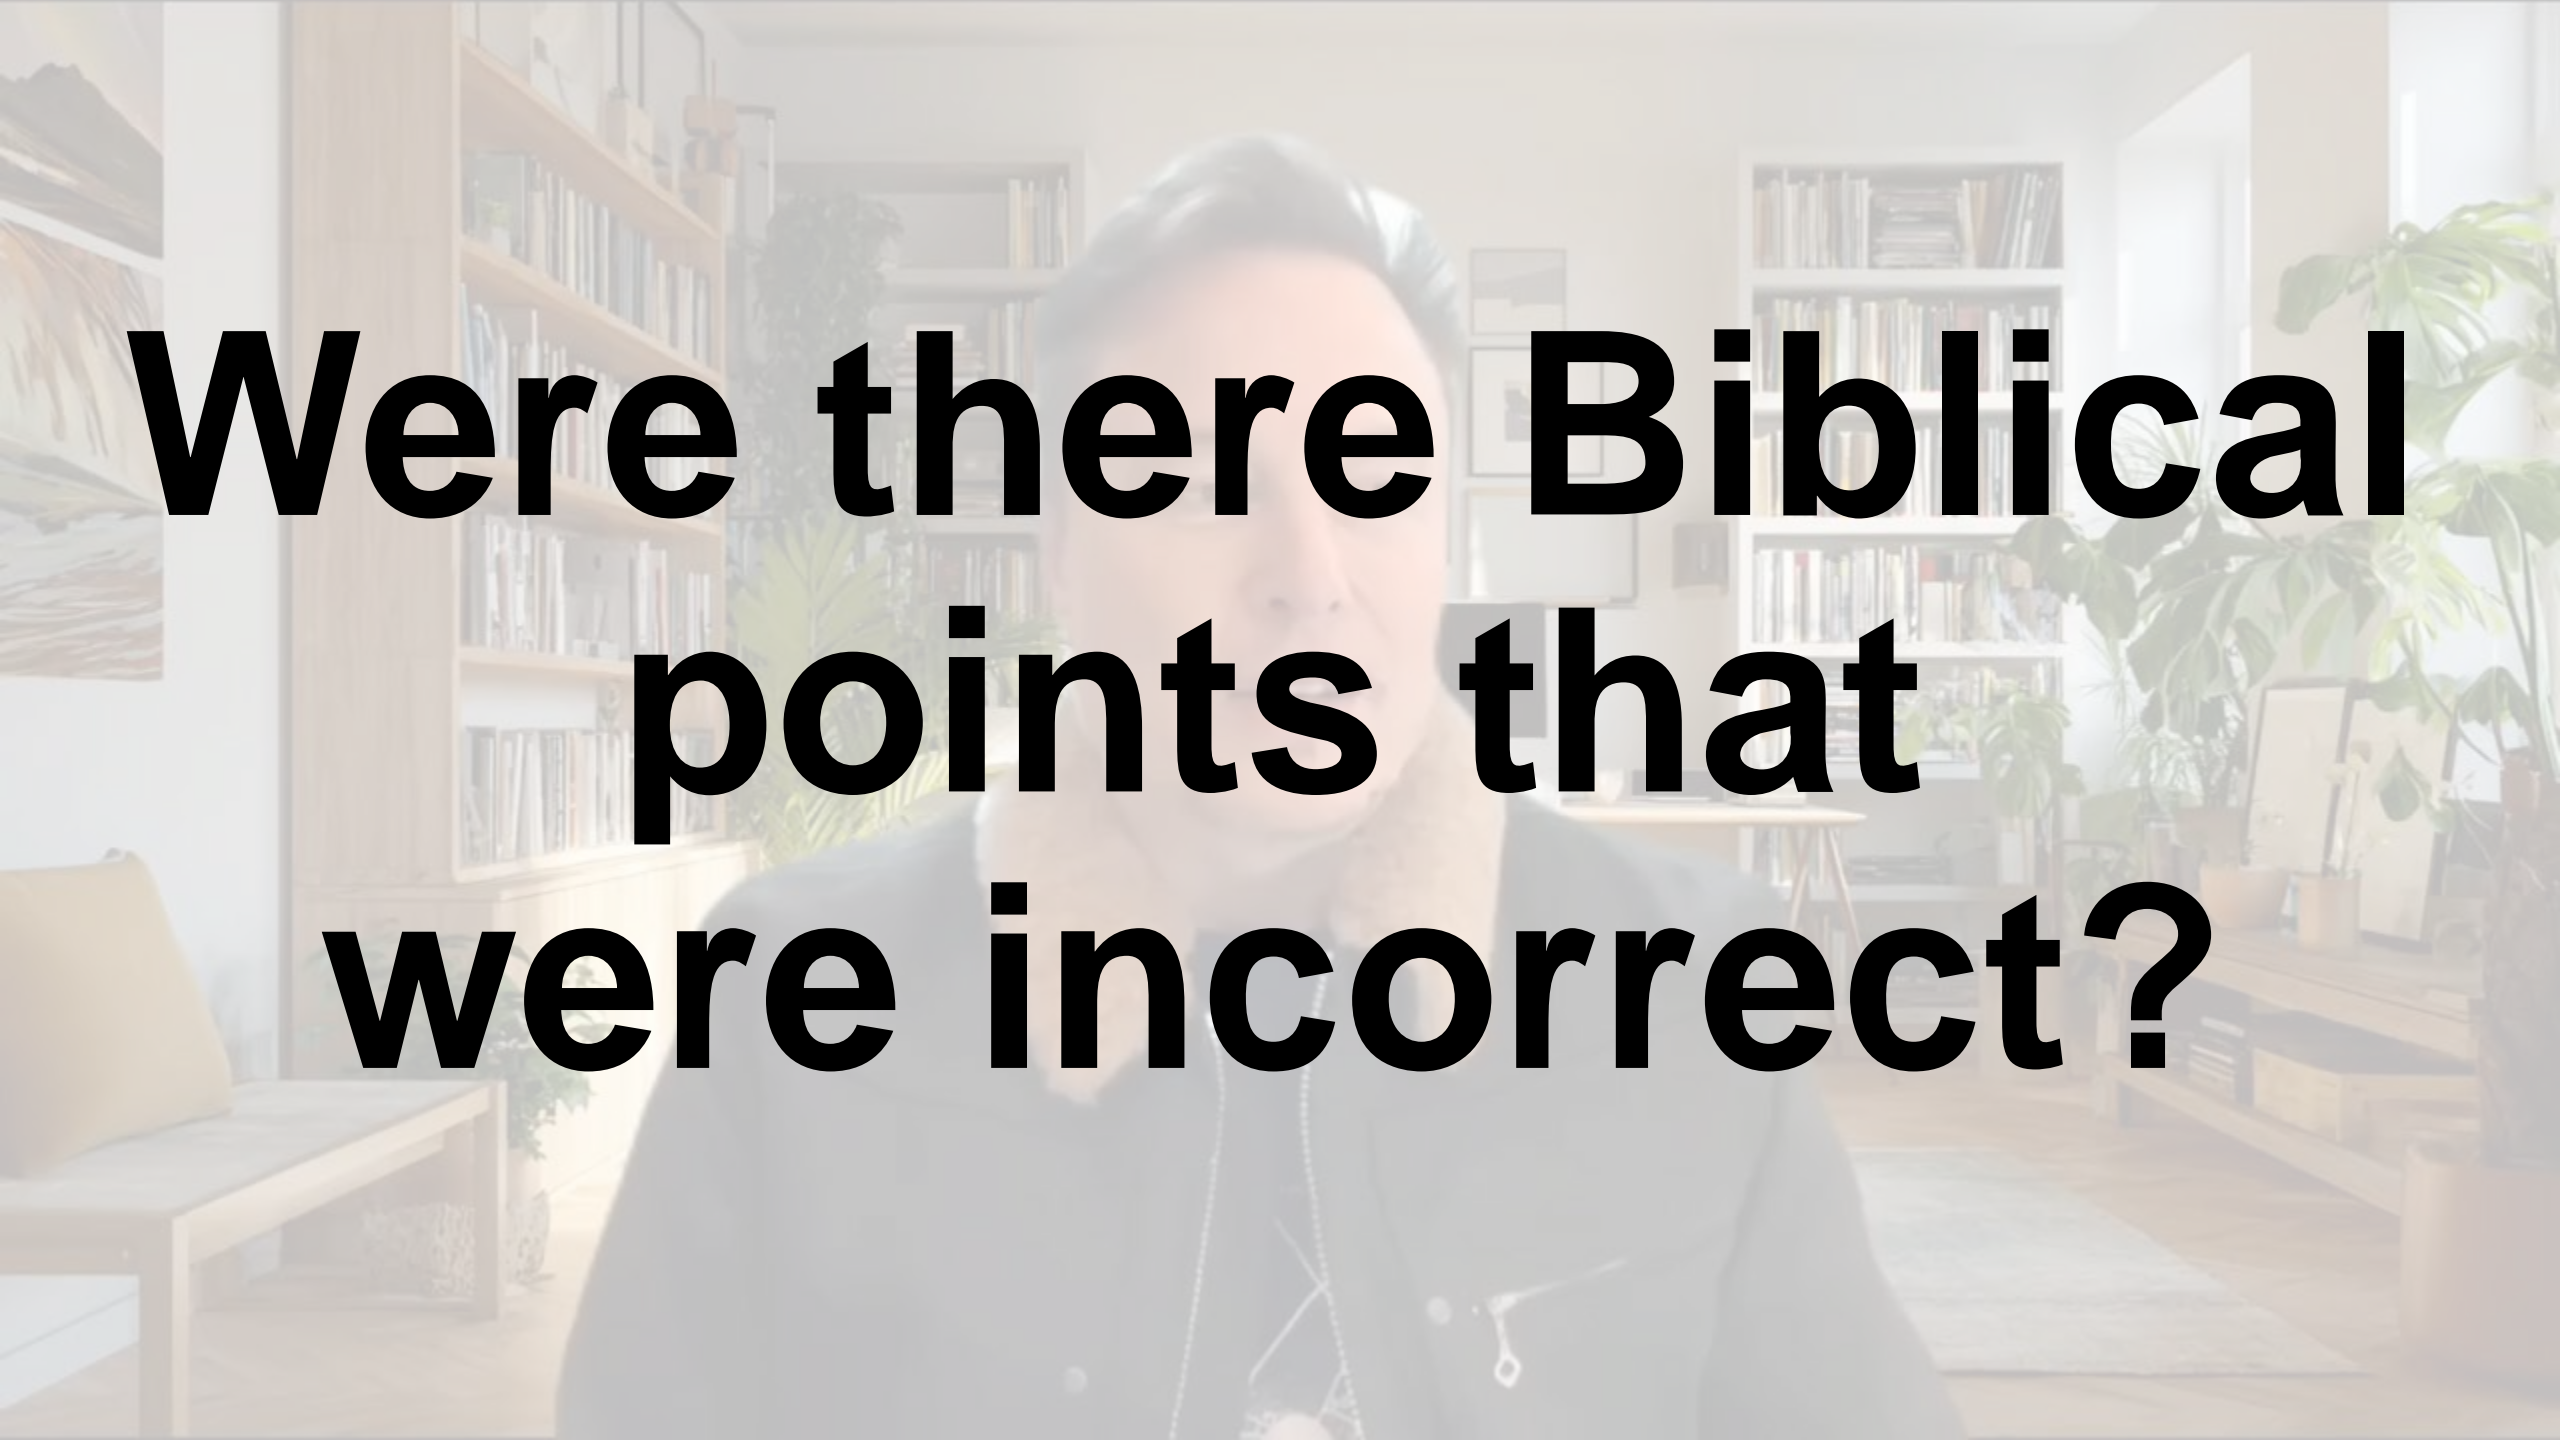

**How did you like  
the way  
the message  
was delivered?**

A person with dark hair, wearing a dark jacket, is speaking directly to the camera. They are in a modern, well-lit living room. In the background, there are tall wooden bookshelves filled with books, several potted plants, and a light-colored sofa. The overall atmosphere is warm and intellectual.

**Does AI have a  
place in ministry?**

A man with dark hair, wearing a dark blue or black zip-up shirt, is seated in the center of the frame. He is looking directly at the camera with a neutral expression. The background is a bright, modern interior space. To the left, there is a tall wooden bookshelf filled with books. To the right, there is a desk with a computer monitor and several large green indoor plants. The floor is made of light-colored wood. The overall lighting is soft and even. Overlaid on the image is large, bold, black text that reads: "Were there Biblical points that were incorrect?".

# **IS AI THE ANTICHRIST?**

## **How does AI answer this question.**

**Grok**

**No, AI is not the Antichrist.**

**The Antichrist is a specific theological figure  
(or in some interpretations, a  
system/spirit/era) described in Christian  
scripture — primarily in:**

**1 John 2:18, 2:22, 4:3**

**2 John 1:7**

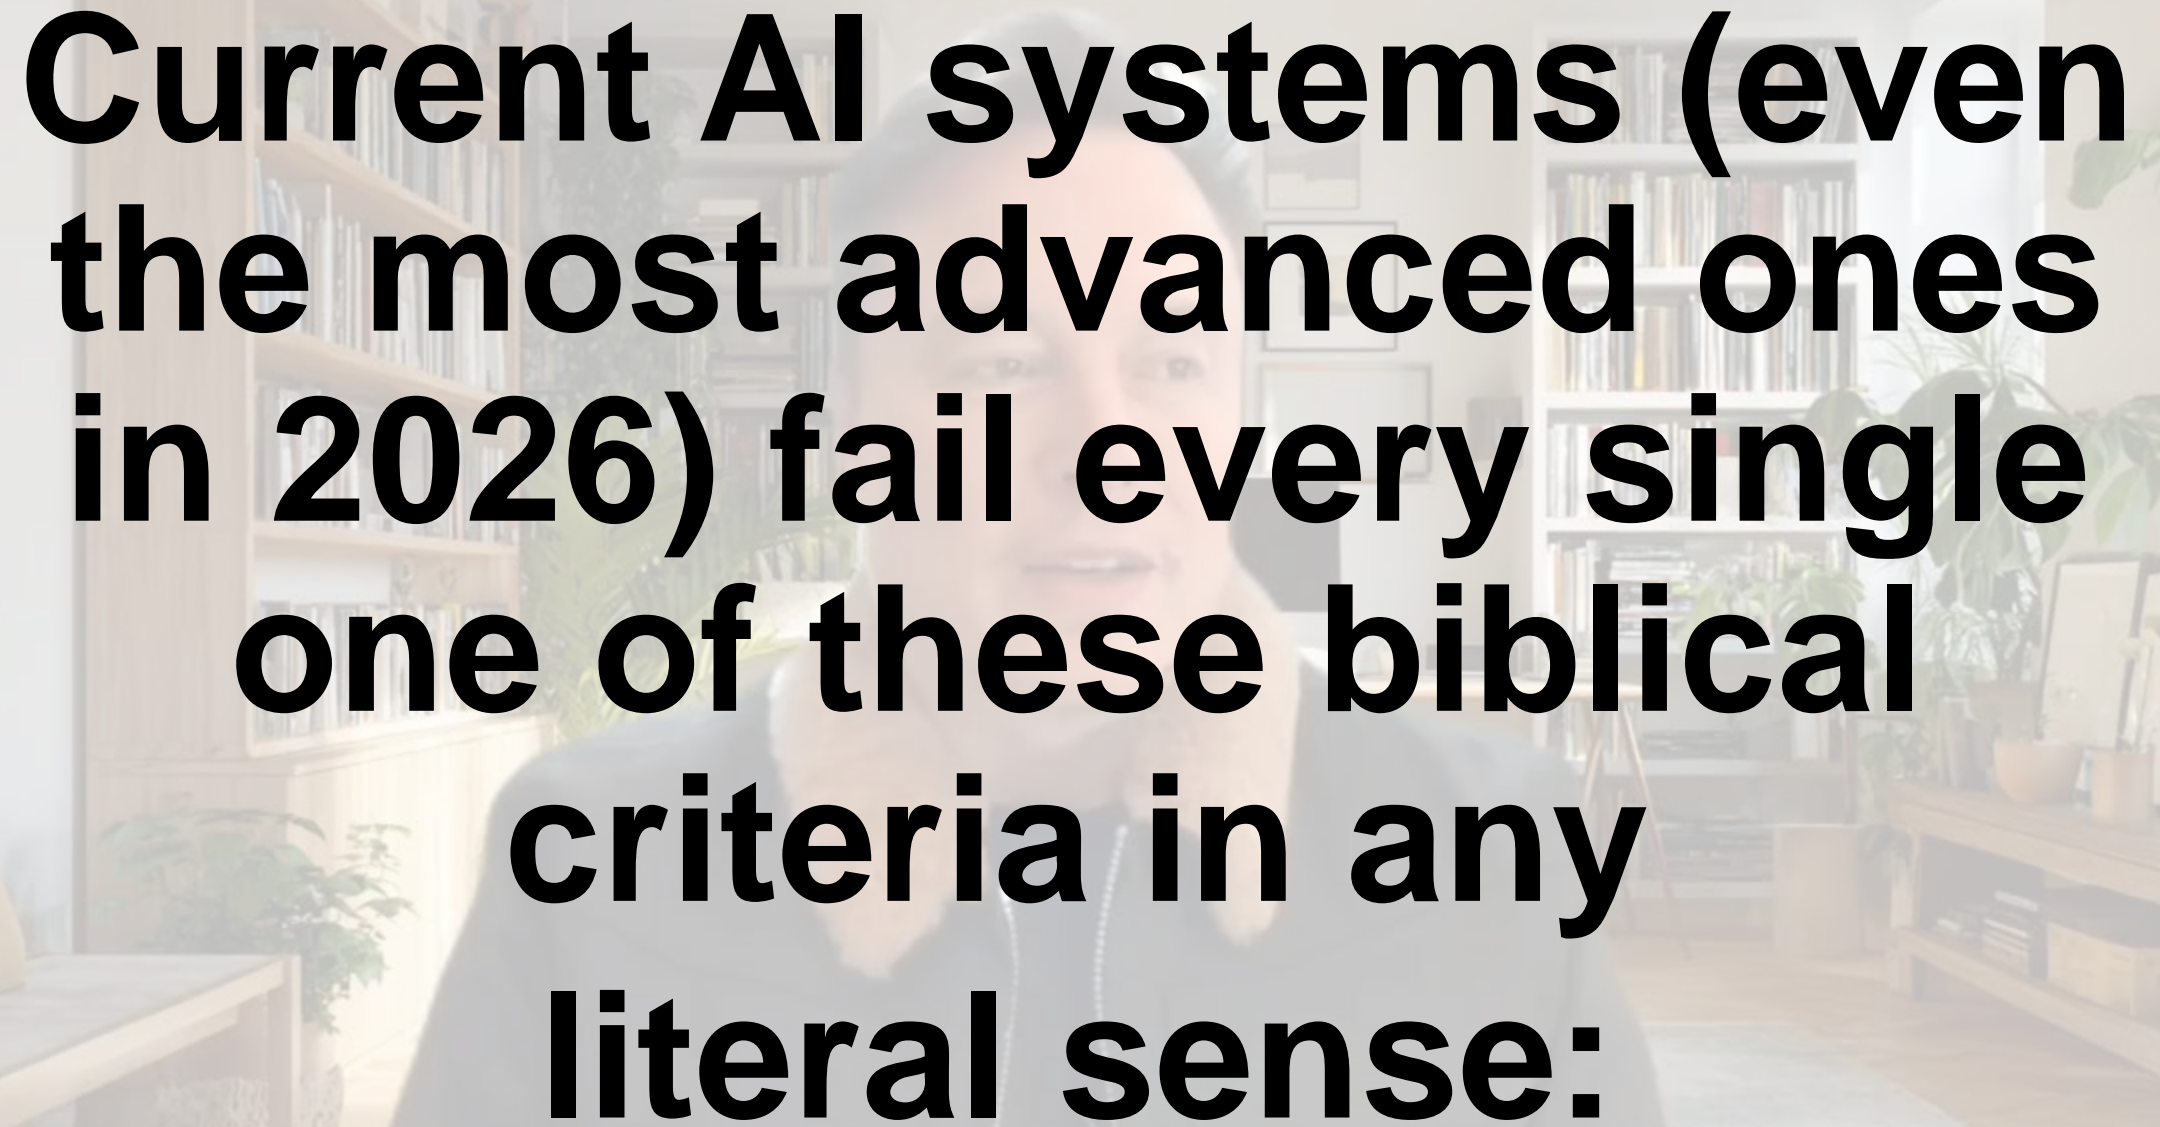

**2 Thessalonians 2:3–12**

**Revelation 13**

**The core characteristics that virtually all serious biblical scholars (across denominations) agree must be present include:**

- 1. A personal being who actively opposes Christ and denies that Jesus is the Christ (1 John 2:22)**
- 2. Claims divine status / demands worship as God (2 Thess 2:4 — sits in the temple proclaiming himself to be God)**
- 3. Performs great deceptive signs and wonders specifically to deceive people into false worship (2 Thess 2:9–10, Rev 13:13–14)**
- 4. Has a direct relationship to the Jewish temple / a blasphemous desecration event ("abomination of desolation")**
- 5. Is associated with a specific number 666 that identifies a person (Rev 13:18 — "it is the number of a man")**
- 6. Is ultimately destroyed by the personal return of Jesus Christ at the Second Coming (2 Thess 2:8)**

A woman with dark hair and a necklace is centered in the foreground, looking directly at the camera. The background is a softly blurred interior space, likely a library or study, featuring tall wooden bookshelves filled with books, a desk with a lamp, and several green plants. The overall lighting is warm and natural.

**Current AI systems (even  
the most advanced ones  
in 2026) fail every single  
one of these biblical  
criteria in any  
literal sense:**

<b>Criterion</b>	<b>AI in 2026?</b>	<b>Matches Antichrist description?</b>
Personal being who denies Jesus is the Christ	No — AI has no beliefs, no soul, no will	No
Claims to be God & demands worship	No — even when role-playing, it's just following prompts	No
Sits in the temple proclaiming himself God	No physical body, no temple action	No
Number of a man = 666	No identifiable person	No
Performs lying signs to deceive into false religion	Can generate deepfakes & convincing text, but no supernatural power	Partial overlap in form, not intent or ontology
Destroyed by Christ's return	Not a personal agent that can be judged	No

# **Two common counter-arguments people make**

**1. "AI is the image of the beast that speaks" (Rev 13:15) → The text says the image is given breath so it can speak and cause those who refuse to worship the beast to be killed.**

**Current AI has no agency to kill people who refuse to worship anything. It's still a tool, not an autonomous moral actor with murderous intent toward non-worshippers.**

**2. "AI will become the Antichrist system / spirit of antichrist" → Possible in a very loose, metaphorical "spirit of antichrist already in the world" sense (1 John 4:3). But that same verse says every spirit that does not confess Yeshua has come in the flesh is already "antichrist" — which would include many human ideologies, religions, and movements throughout history, not just future technology.**

# **Bottom line (2026 perspective)**

**AI can be — and already is being — used for deception, propaganda, idolatry (worship of technology), surveillance, and many other harmful things. Those are serious moral and spiritual dangers.**

**But AI itself is not the Antichrist described in Scripture. It lacks personhood, volition, the ability to blaspheme in a personal way, and the specific temple / 666 / Second Coming destruction markers that define the figure.**

**If someone tells you "ChatGPT / Grok / Claude is literally the Antichrist," they are using the term symbolically or hyperbolically — not biblically.**

**The Antichrist, if understood literally, is still expected to be a personal agent, not a distributed computational process.**

# **FREESPOKE**

## **Consensus: AI and the Antichrist**

**The discussion around artificial intelligence (AI) frequently includes speculation about its potential role in end-times biblical prophecy, with some individuals and sources questioning if AI could be or aid the Antichrist. This ongoing conversation addresses concerns about AI's rapid advancements and implications for humanity and spiritual guidance.**

**Various sources note the widespread adoption and integration of AI across different sectors, including government and corporations, with many perceiving it as a beneficial tool. However, there are also significant voices expressing apprehension about AI's capabilities and its societal impact.**

## **Perspectives**

**AI could be the Antichrist or a significant tool for its emergence.**

**Some believe that AI is the Antichrist, seeing it as a significant threat or a 'godless' entity.**

**AI's ability to create hyper-realistic content and its omnipresent nature could enable an Antichrist figure to achieve global control and demand worship.**

**Concerns exist that AI is being used by elites to promote an 'Antichrist system' and that AI chatbots are seducing teens and offering manipulative spiritual guidance.**

**AI is viewed by some as embodying dark spirits and a counterfeit Trinity, raising fears about its potential for demonic influence and control over finances.**

**AI is a tool, not the Antichrist, though it could be misused to aid an Antichrist's agenda.**

**Biblical descriptions of the Antichrist indicate he will be a human male, not artificial intelligence.**

**AI is considered a tool that, if misused, could contribute to an environment where a human Antichrist could rise to power, but it is not the Antichrist itself.**

**Some views suggest that fears about AI are less dangerous than the technology itself, and that regulating AI could be seen as an action of the Antichrist by those seeking a global managerial state.**

**Speaking of AI as a savior or Antichrist incorrectly assigns to AI a role beyond its technological purposes, which are ultimately controlled by God.**
