

# **Warning!**

**You CANNOT understand the Bible unless you have an understanding of how the Creator's Calendar works. Basic events, Torah, chronology, prophetic shadow pictures, the Gospels, and Bible context all fail unless the Creator's Calendar is followed.**

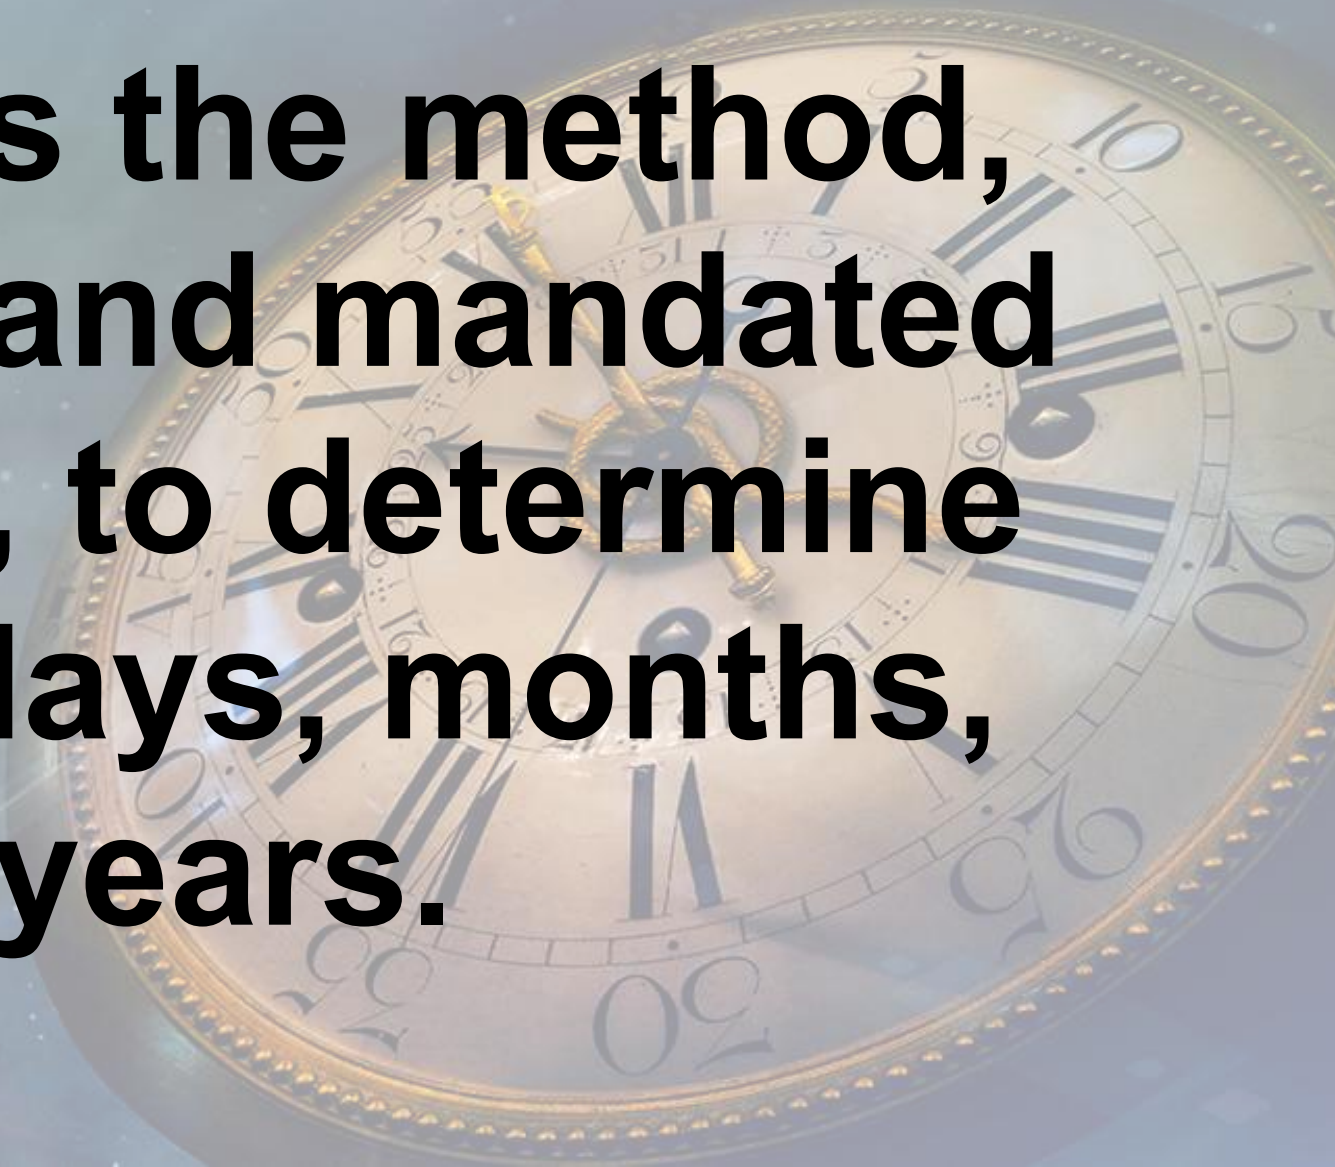

**It's About Time**

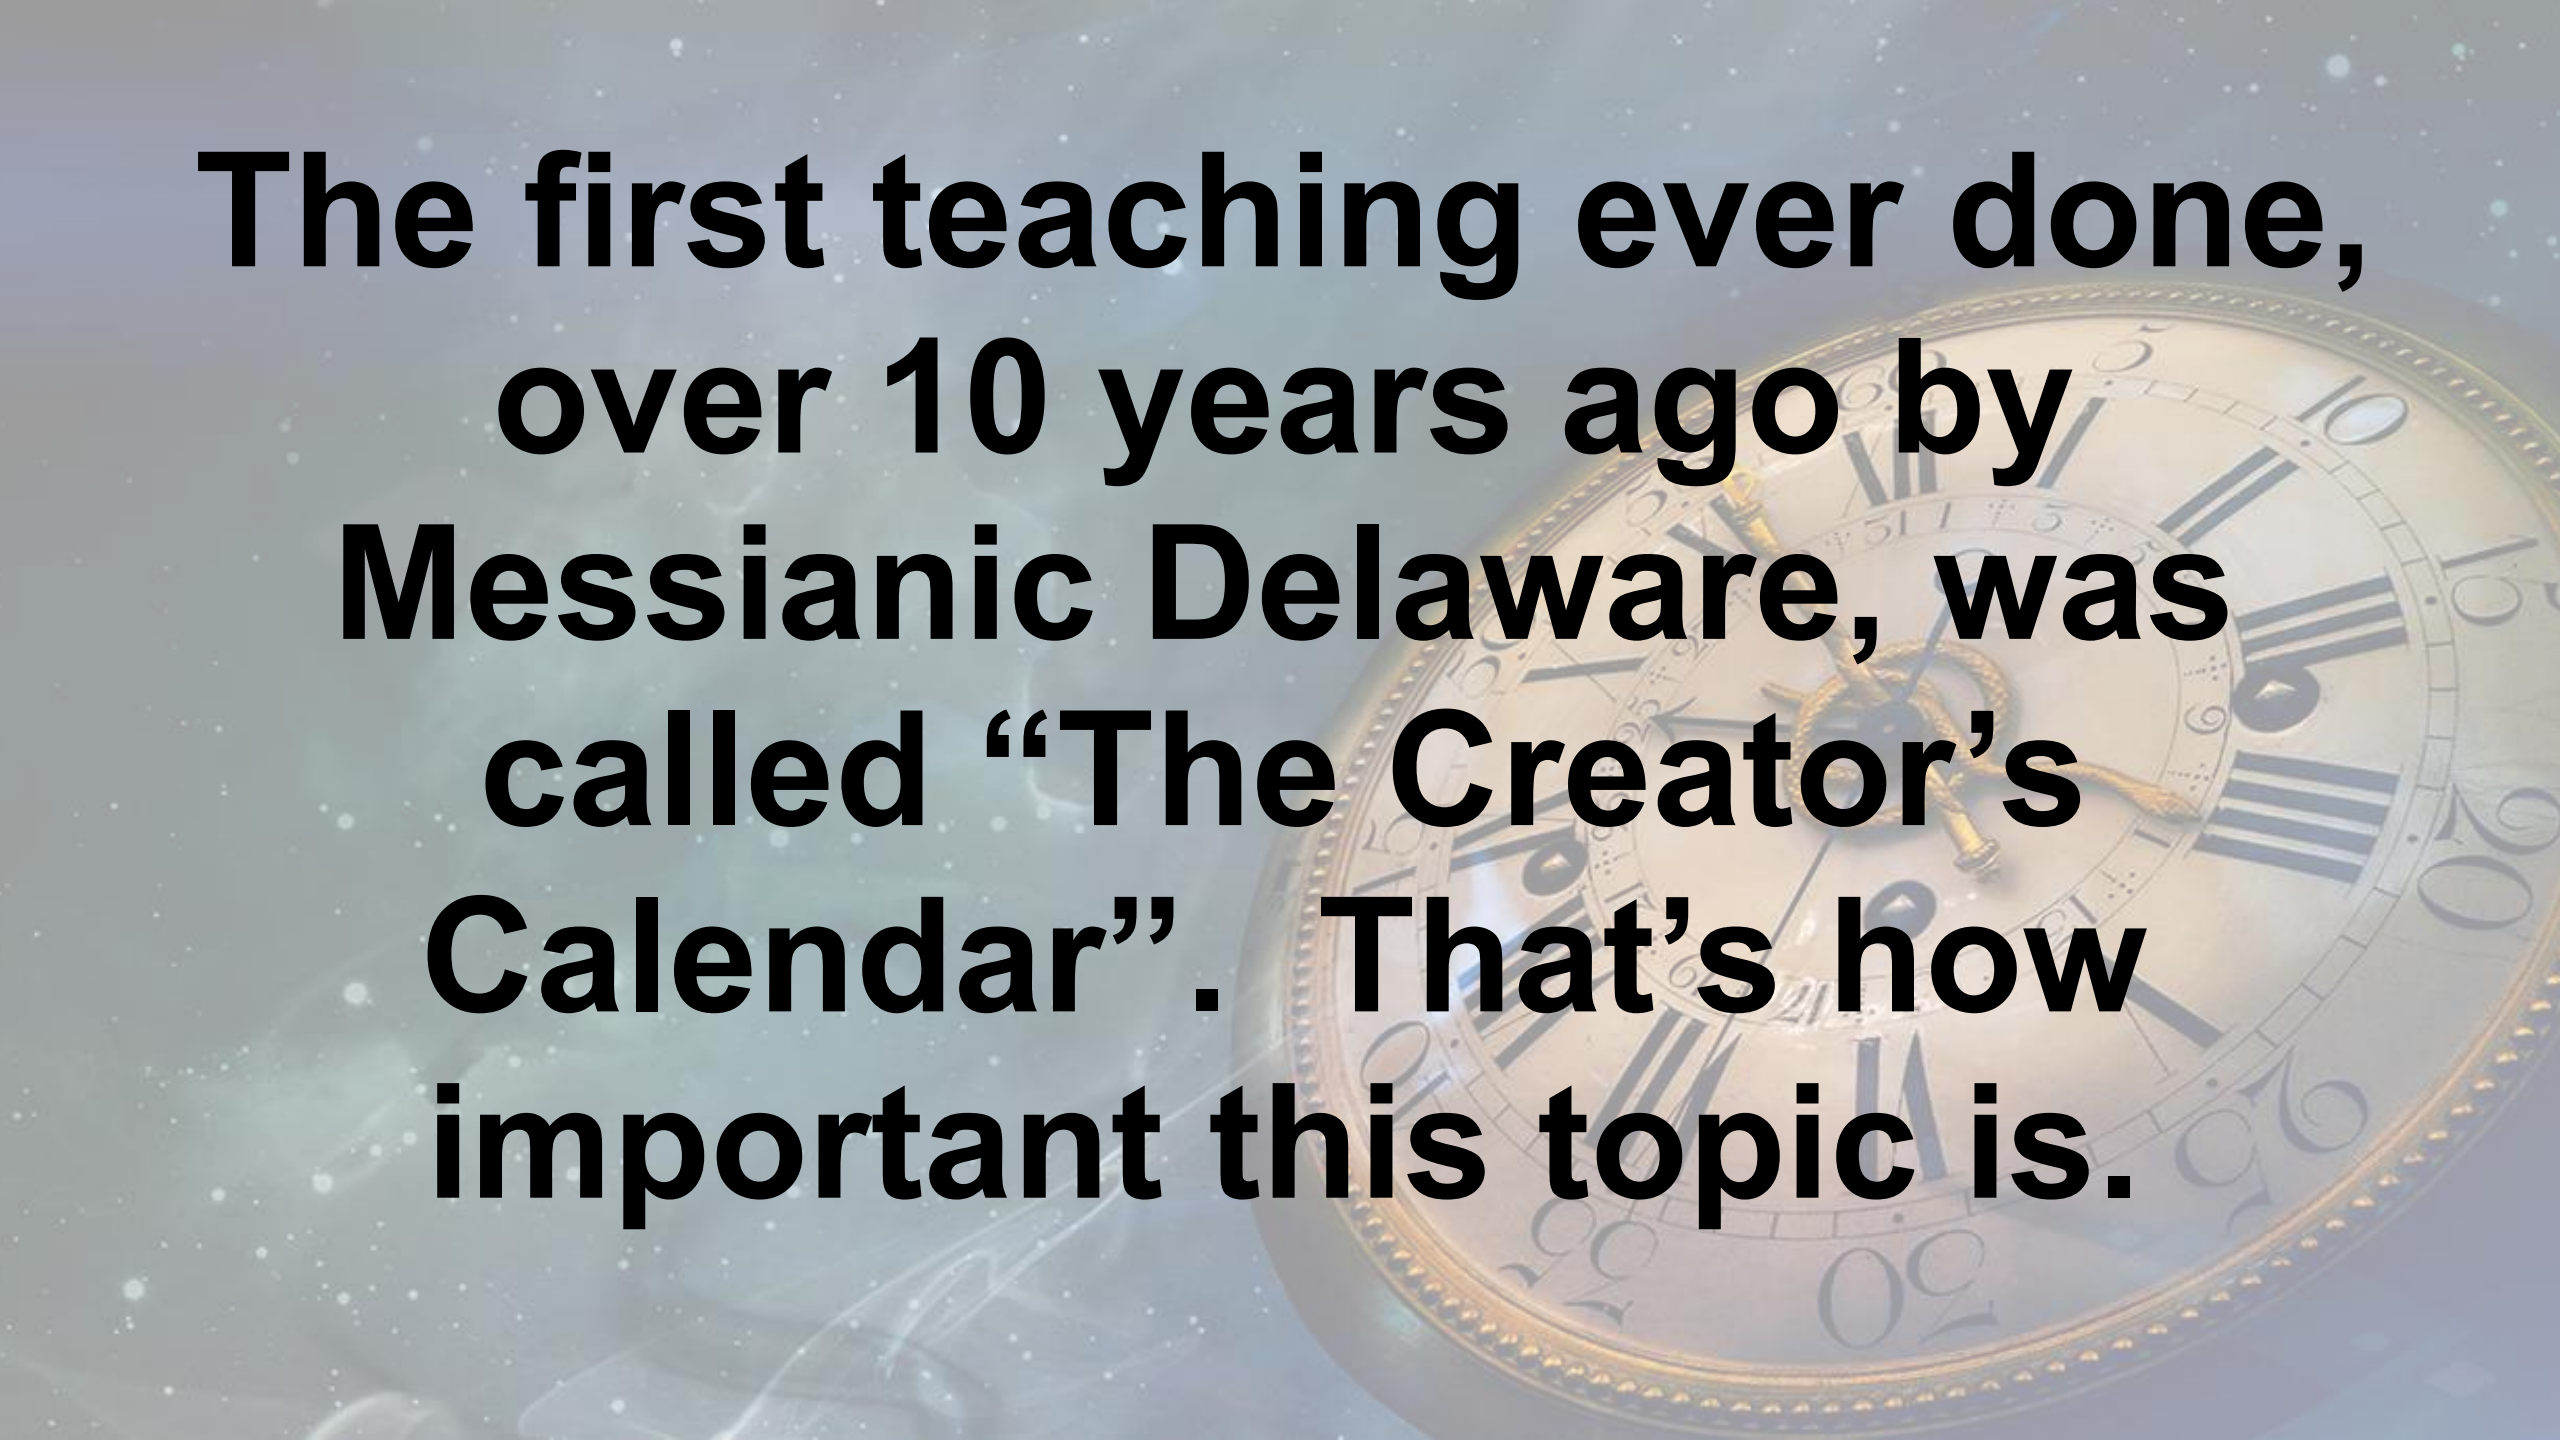

**Yahovah created time  
for us.**

**This is not Jewish time  
keeping, it is the method,  
established and mandated  
by Yahovah, to determine  
and count days, months,  
and years.**

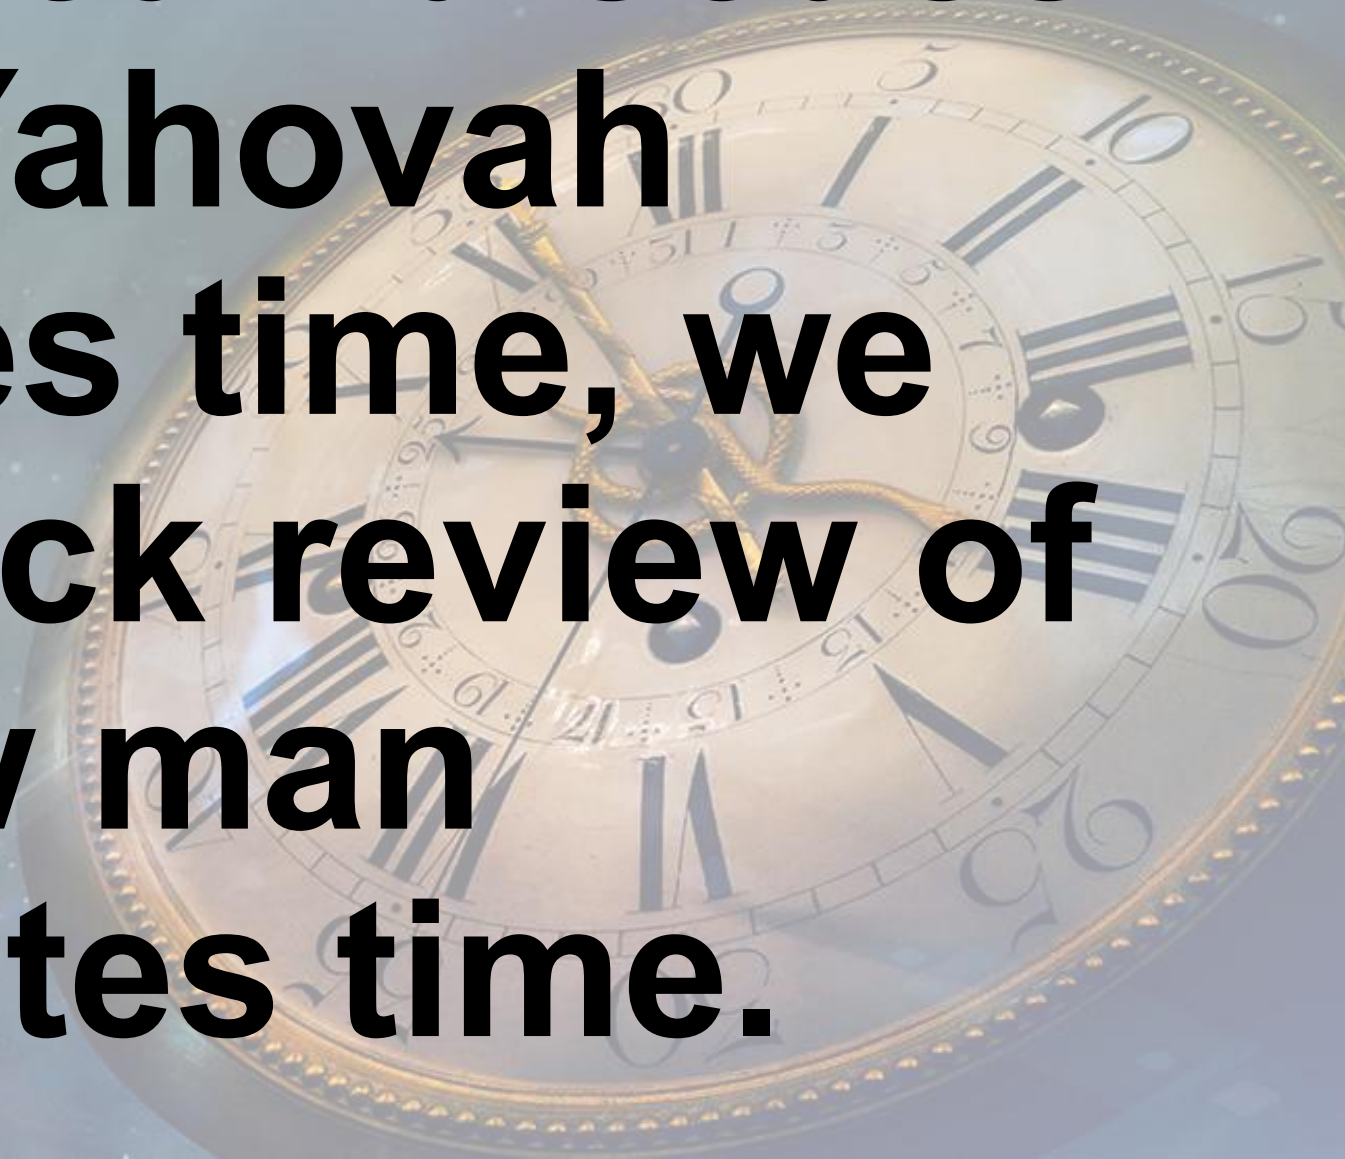

**The first teaching ever done,  
over 10 years ago by  
Messianic Delaware, was  
called “The Creator’s  
Calendar”. That’s how  
important this topic is.**

**So, How Do We  
Determine Time  
In The Bible?**

**Before we can discuss  
how Yahovah  
calculates time, we  
need a quick review of  
how man  
calculates time.**

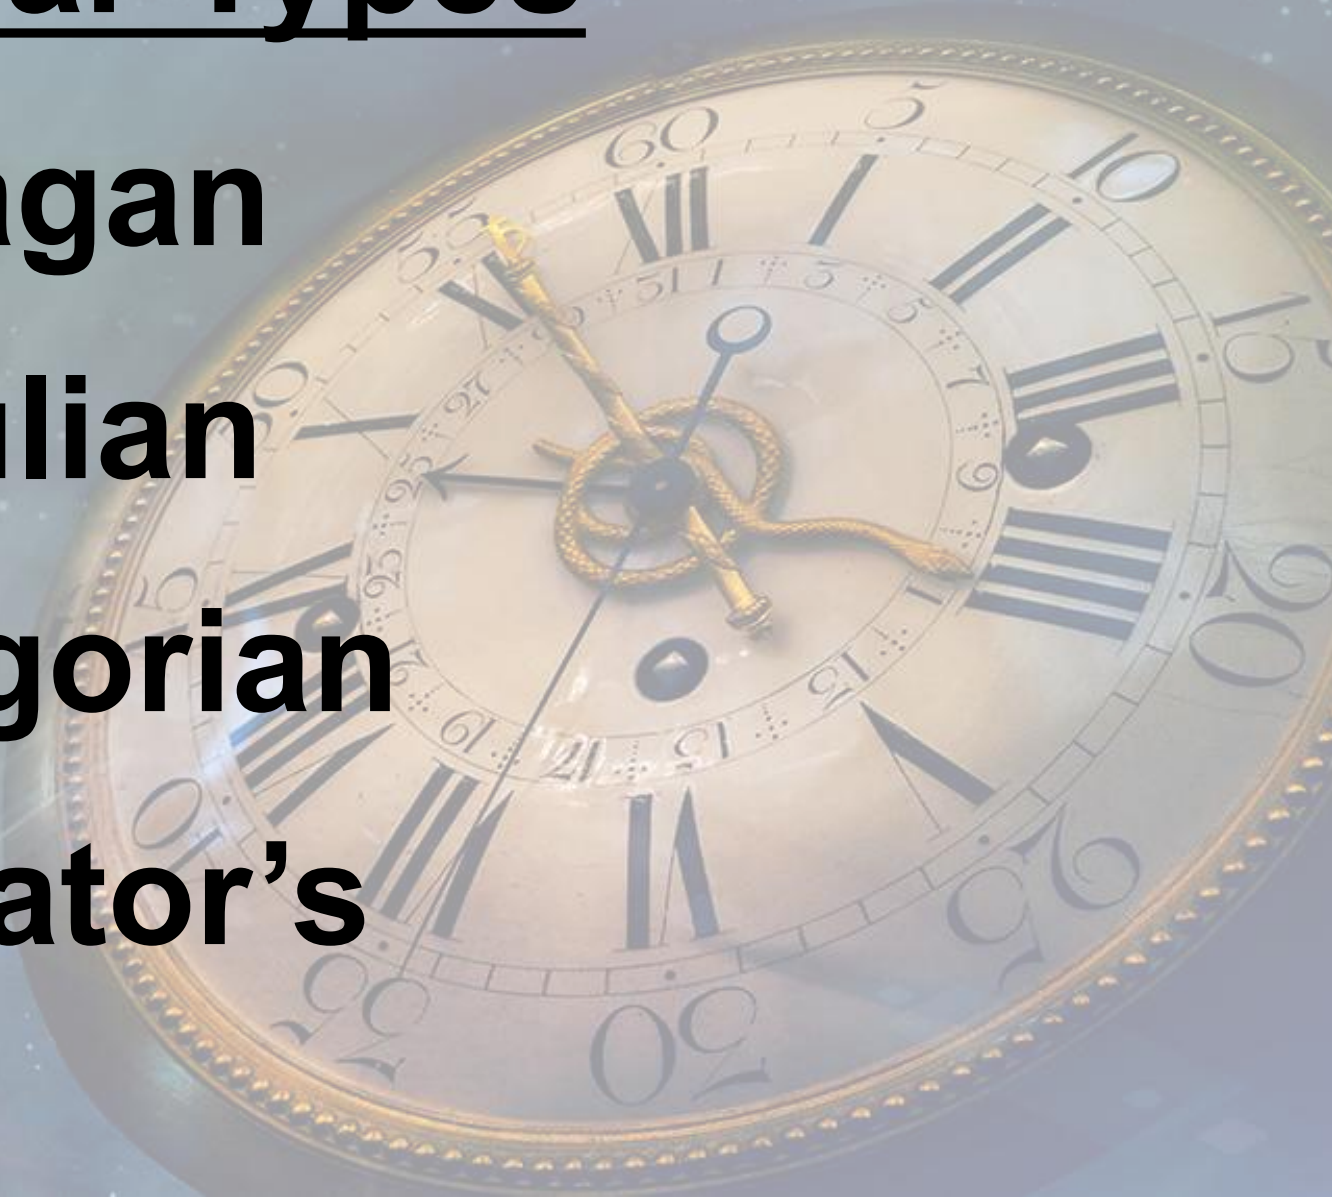

# **Calendar Types**

**Pagan**

**Julian**

**Gregorian**

**Creator's**

## **Pagan:**

**Sun God worship –  
Moon God worship –  
or combination of both.**

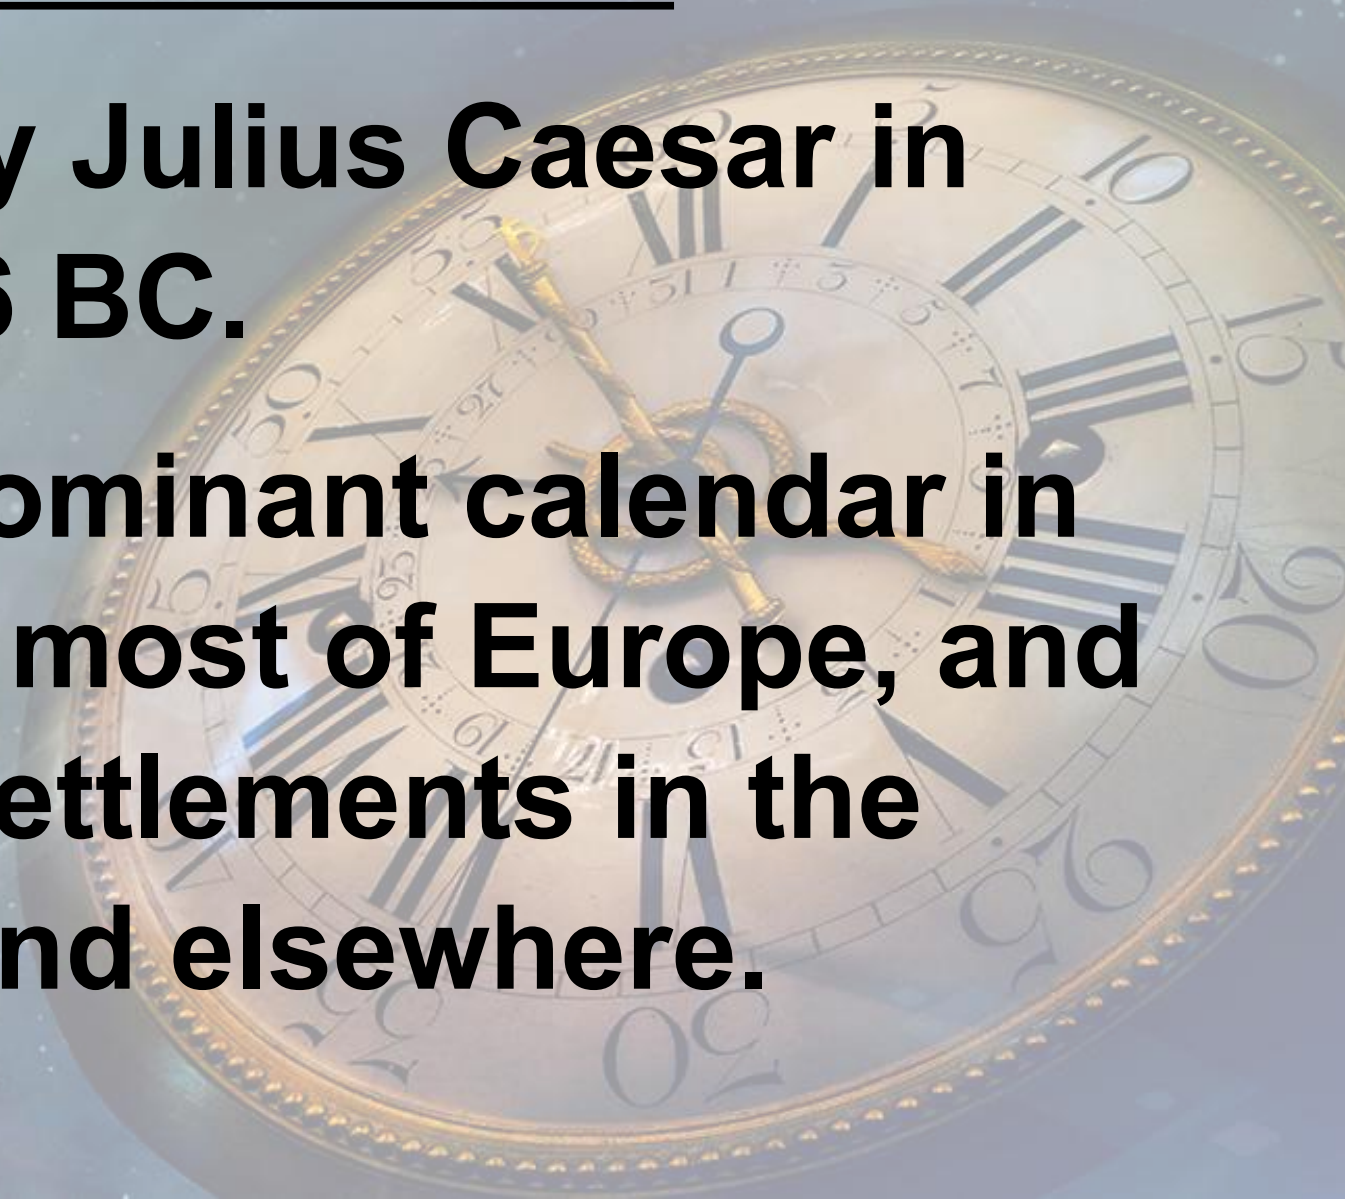

**They worship a variety of God's. Multiple time  
systems based on where you were in the world  
and the customs and tradition of the people.**

**Mayan, Chinese, Hindu, Japanese,  
Egyptian, Germanic**

# **The Julian Calendar**

**Introduced by Julius Caesar in  
46 BC.**

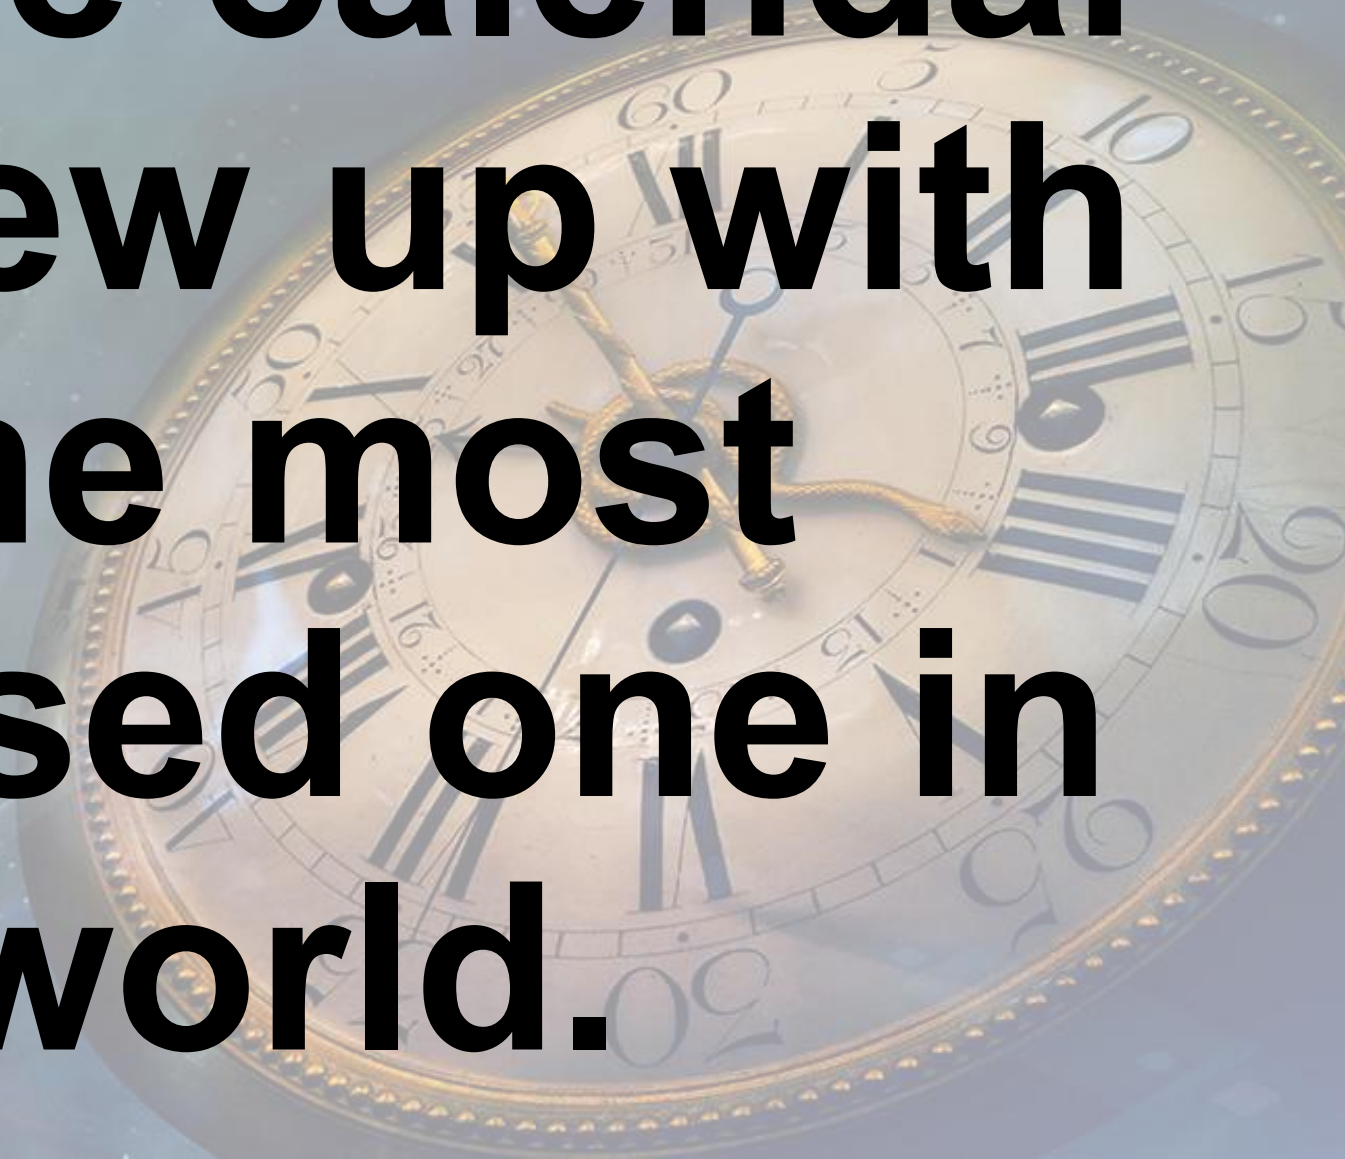

**It was the predominant calendar in  
the Roman world, most of Europe, and  
in European settlements in the  
Americas and elsewhere.**

**The Julian calendar has a regular year of 365 days divided into 12 months. A leap day is added to February every four years.**

**The Julian year is, therefore, on average, 365.25 days long.**

**This is the calendar  
we all grew up with  
and the most  
widely used one in  
the world.**

**It was intended to approximate the tropical (solar) year. The calendar did not compensate for this difference between the two. As a result, the calendar year gained about three days every four centuries compared to observed equinox times and the seasons. This created what is known as the Precession of the Equinoxes.**

## Gregorian:

**This discrepancy of the Precession of the Equinoxes was corrected by the Gregorian reform of 1582. The Gregorian calendar has the same months and month lengths as the Julian calendar, but inserts leap days according to a different rule.**

**Consequently, the Julian calendar is currently 13 days behind the Gregorian calendar. The Julian calendar has been replaced as the civil calendar by the Gregorian calendar in all countries which formerly used it, although it continued to be the civil calendar of some countries into the 20th century.**

**It is named for Pope Gregory XIII, who introduced it in 1582. Because the celebration of Easter was tied to the spring equinox, the Roman Catholic Church considered this steady drift in the date of Easter undesirable. The reform was adopted initially by the Catholic countries of Europe.**

# **What has man said about time?**

**Time is what prevents everything from  
happening at once. -**

**John Archibald Wheeler**

**Men talk of killing time, while time quietly  
kills them. - Dion Boucicault**

**Tomorrow, and tomorrow, and tomorrow,  
Creeps in this petty pace from day to day  
- Shakespeare**

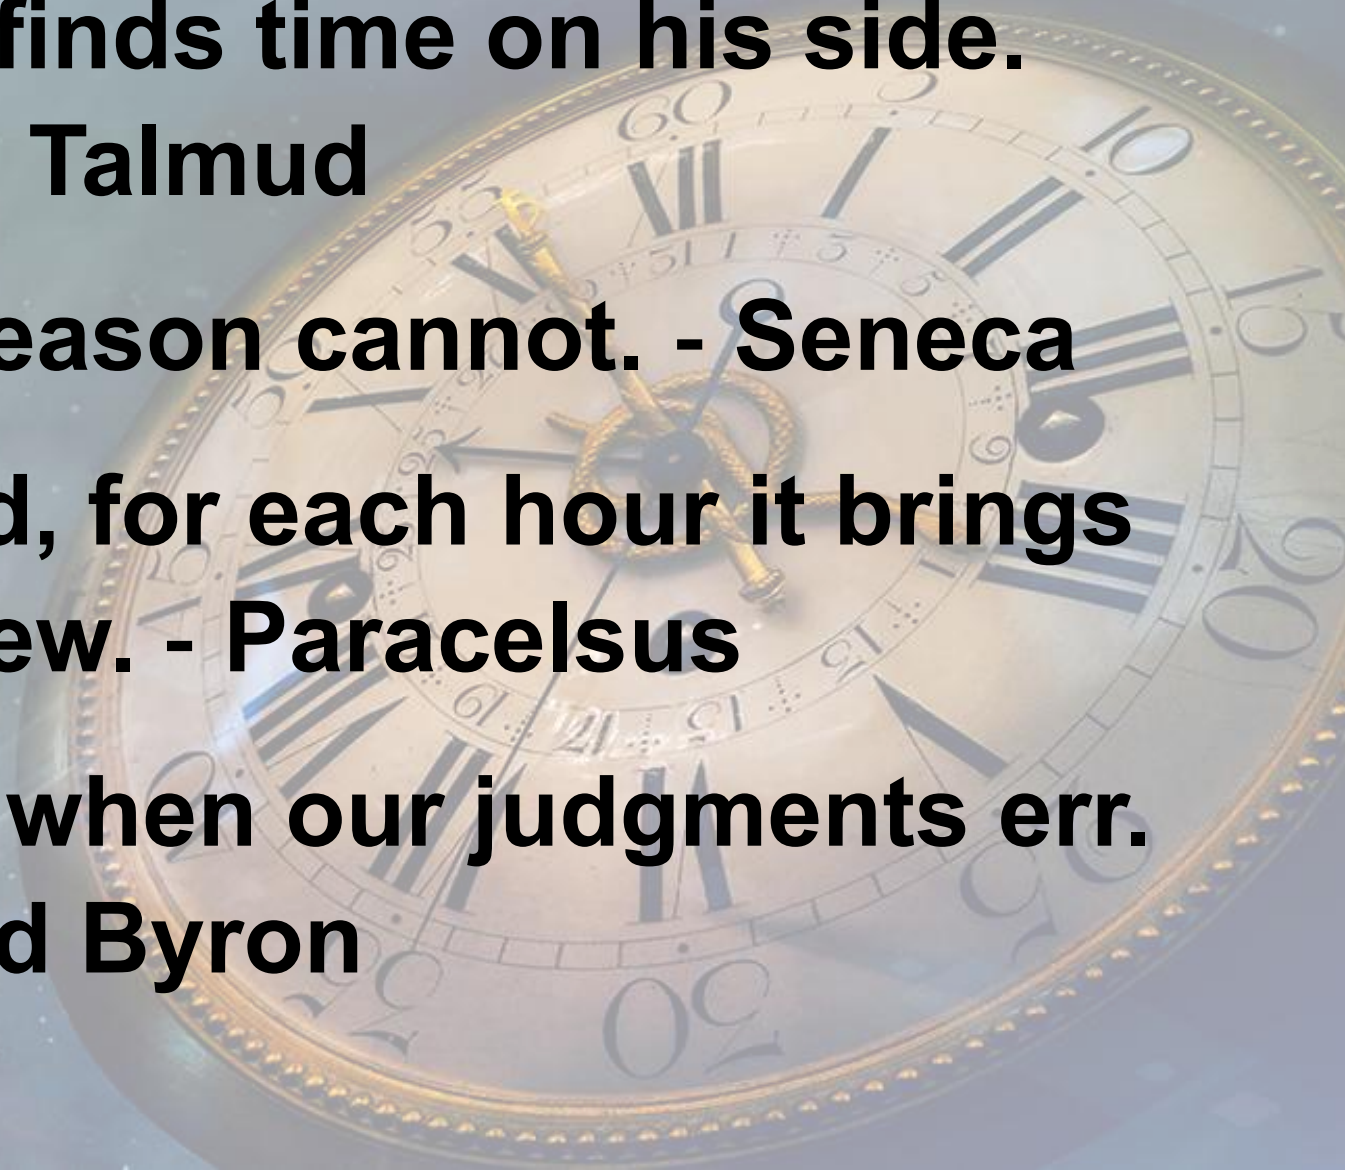

**Who forces time is pushed back by time;  
who yields to time finds time on his side.**

**- The Talmud**

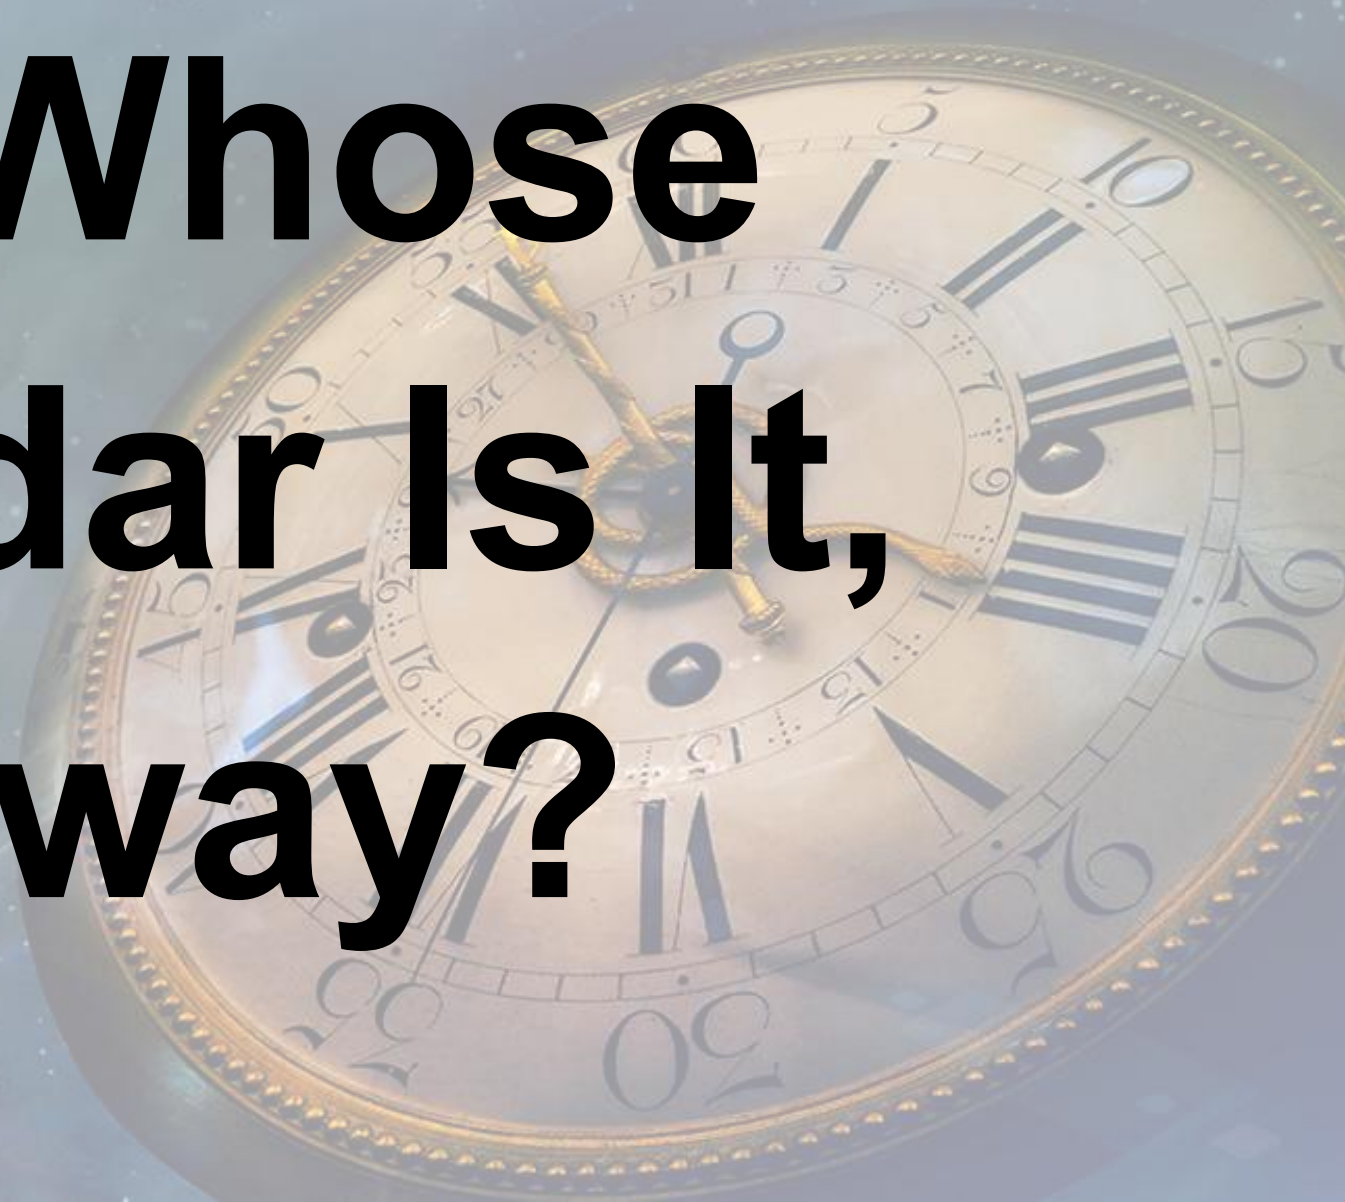

**Time heals what reason cannot. - Seneca**

**Time is a brisk wind, for each hour it brings  
something new. - Paracelsus**

**Time! the corrector when our judgments err.  
- Lord Byron**

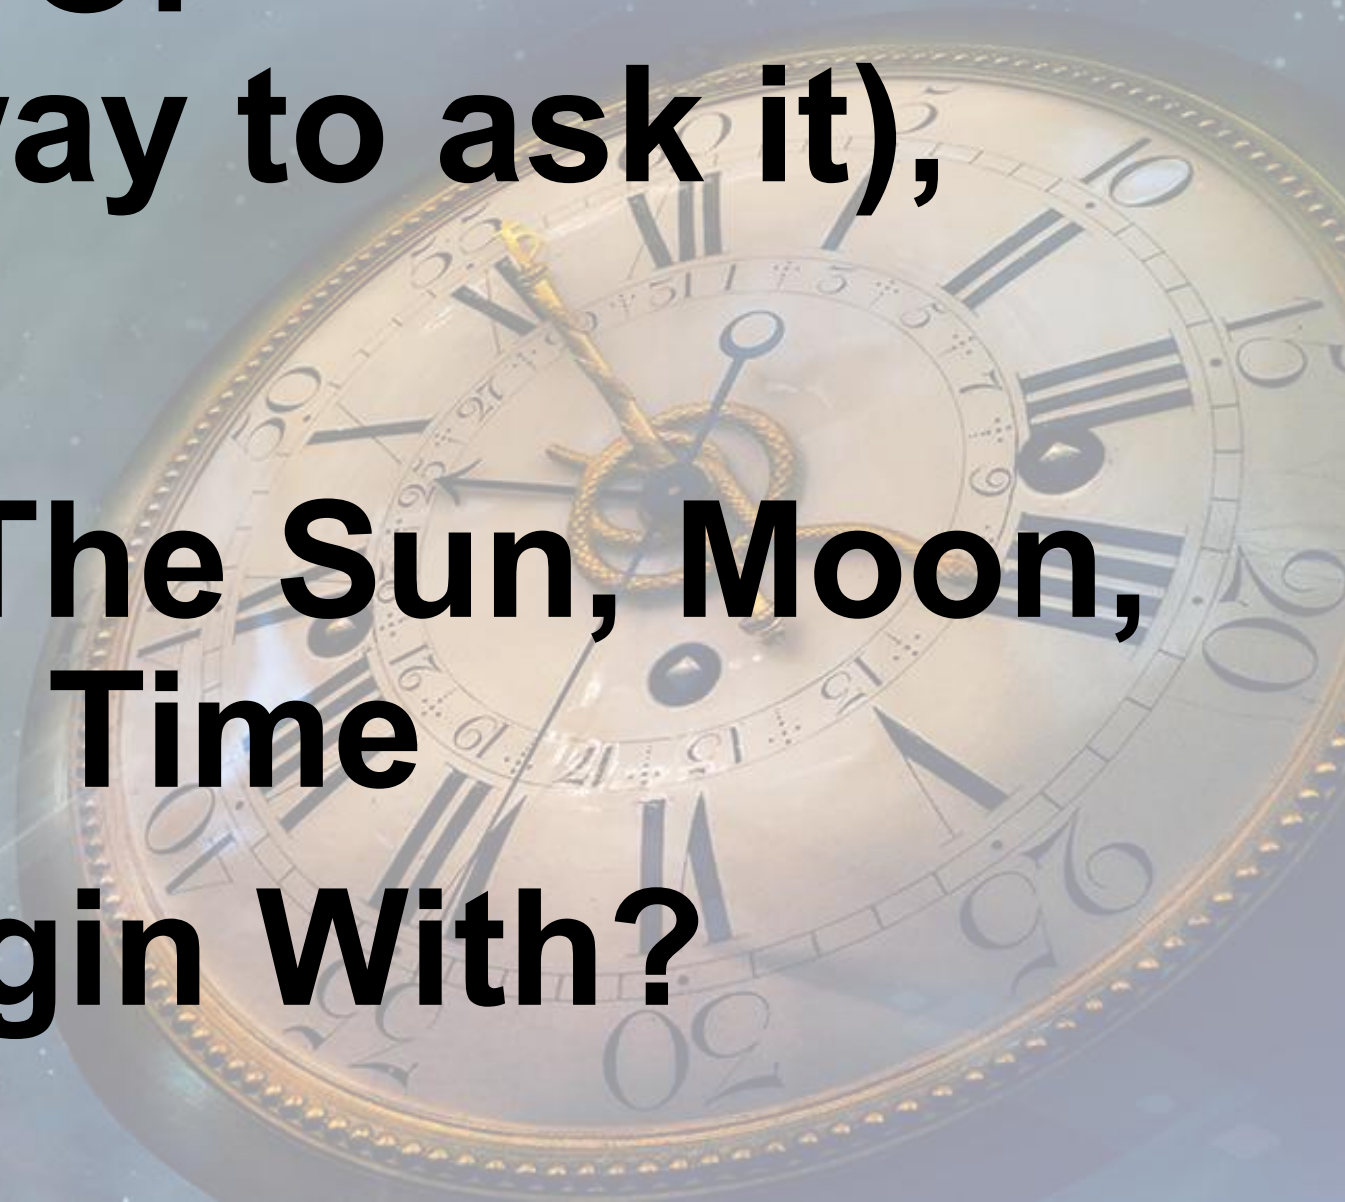

**So, Whose  
Calendar Is It,  
Anyway?**

**Or  
(another way to ask it),**

**Who Made The Sun, Moon,  
and Time  
To Begin With?**

**When you are needing answers,  
or in doubt, or just want to  
know about something, what is  
the best source to turn to?**

**Grok?**

**Chat GPT?**

**The Farmer's Almanac?**

**I'd hope you would turn to the Bible:**

## **Genesis 1**

**<sup>1</sup> In the beginning Elohim created the heavens and the earth;**

**<sup>5</sup> And Elohim called the light, Day. And He called the darkness, Night. And there was evening, and there was morning, day one.**

**Time is so important to the  
Creator that he begins  
identifying it in the very first  
verse of the Bible.**

**And, if it is that important to  
Him, it should be that important  
to us.**

**His instructions don't end there:**

**Genesis 1:14**

**And Elohim said, Let light sources be in the expanse of the heavens, to divide between the day and the night. And let them be for signs and for (Holy day) seasons, and for days and years.**

**Exodus 12: 2: This month shall be the head of months for you. It shall be the first of the months of the year for you.**

**So that takes us to how  
Yahovah reckons time.**

**It's commonly called:**

# The Creator's Calendar

**And NO!**  
**It is Not The Jewish**  
**Calendar!**

**The best example of the  
Creator's Calendar I've come  
across is called :**

**Astronomically & Agriculturally  
Corrected Biblical  
Hebrew Calendar  
By Michael Rood**

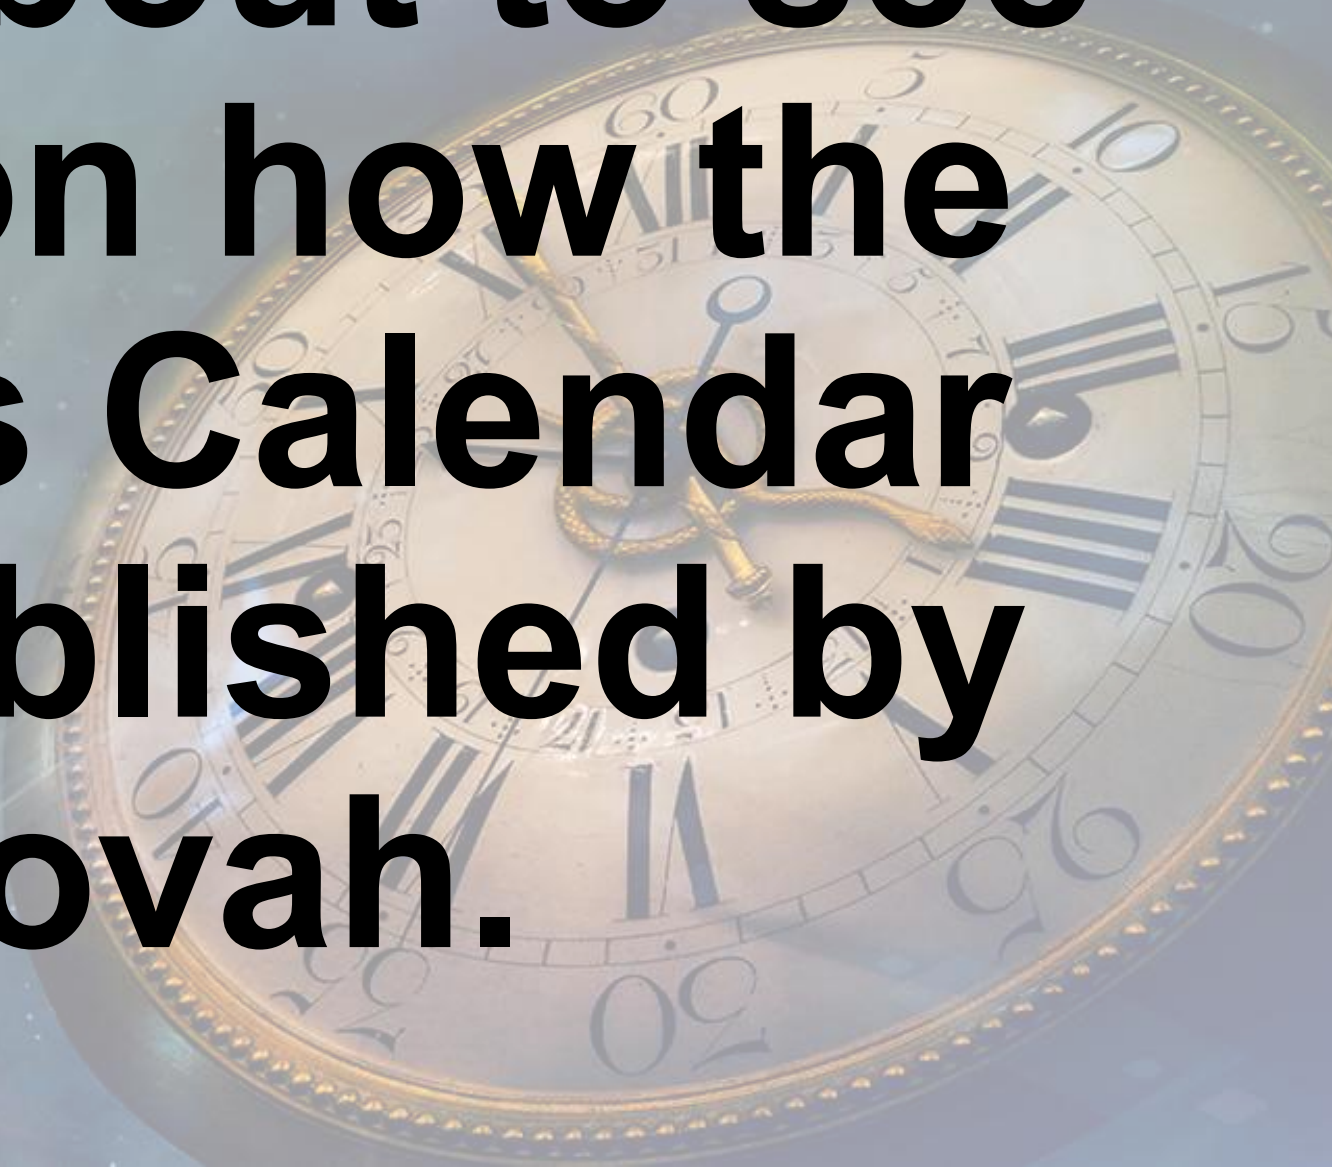

**As we'll see as this teaching progresses, the Creator's Calendar must encompass these items:**

**Astronomically Corrected  
Agriculturally Correct  
Biblically Correct  
Hebrew Centered  
Functional Calendar**

8<sup>TH</sup> BIBLICAL MONTH 6025  
OCTOBER/NOVEMBER 2025 • MARHESHWAN 5786

| 1 <sup>ST</sup> | 2 <sup>ND</sup> | 3 <sup>RD</sup> | 4 <sup>TH</sup> | 5 <sup>TH</sup> | 6 <sup>TH</sup> | Shabbat     |

**You are about to see  
a video on how the  
Creator's Calendar  
was established by  
Yahovah.**

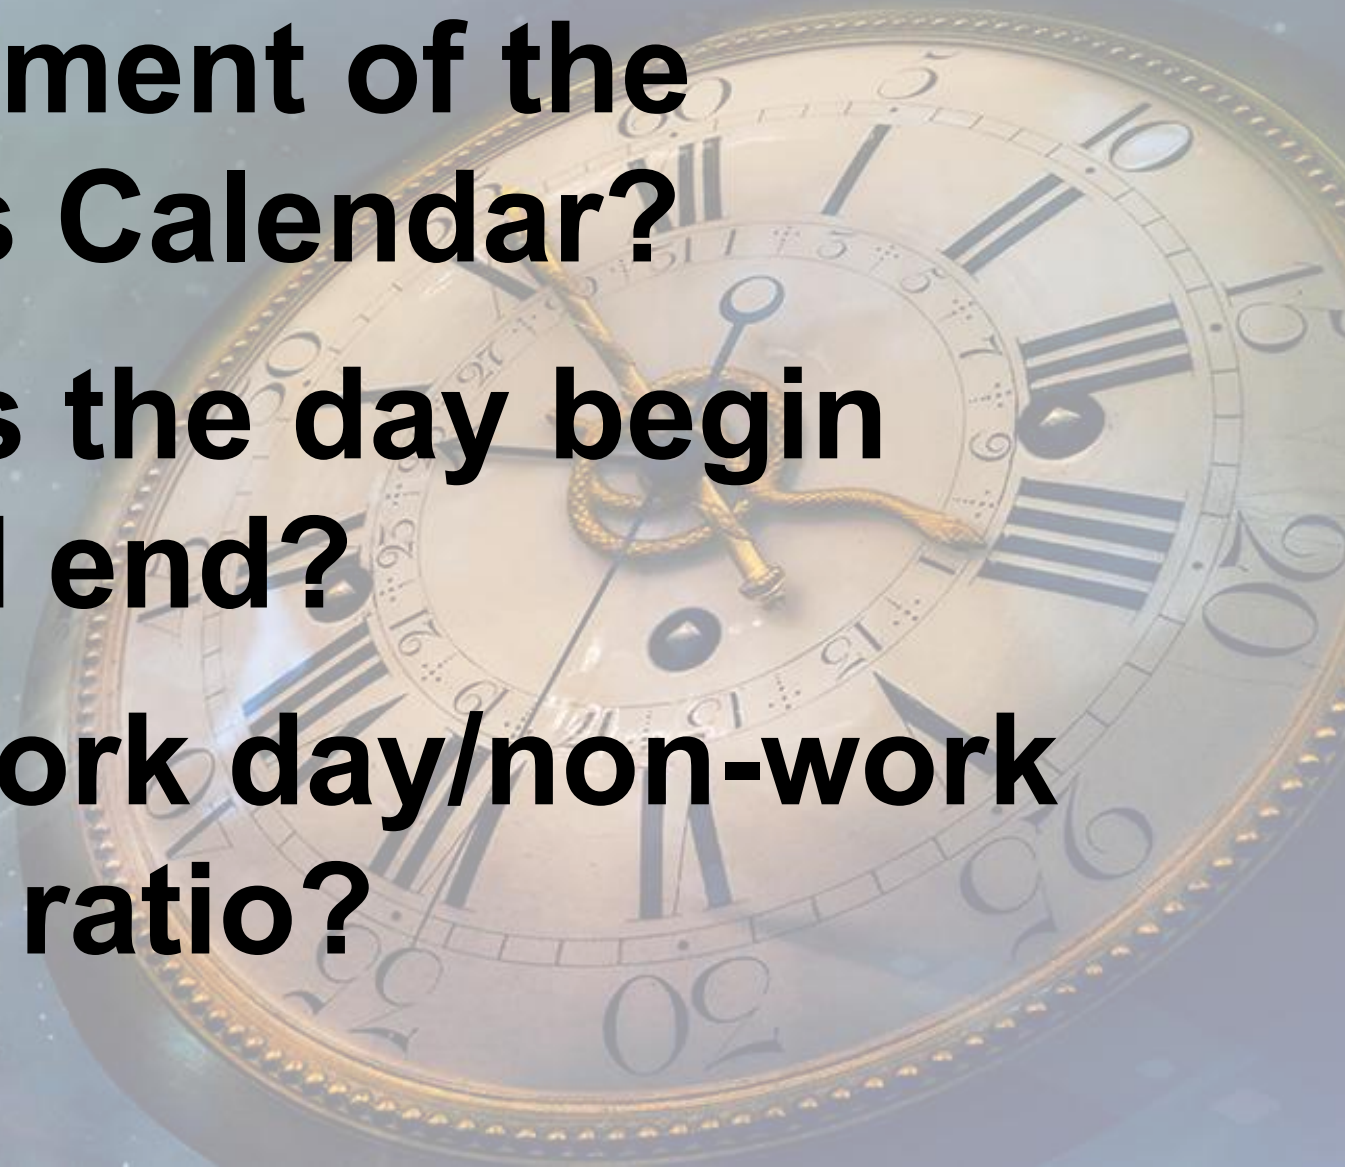

**In the video take  
note of the  
following:**

**What is the Biblical basis for the establishment of the Creator's Calendar?**

**When does the day begin and end?**

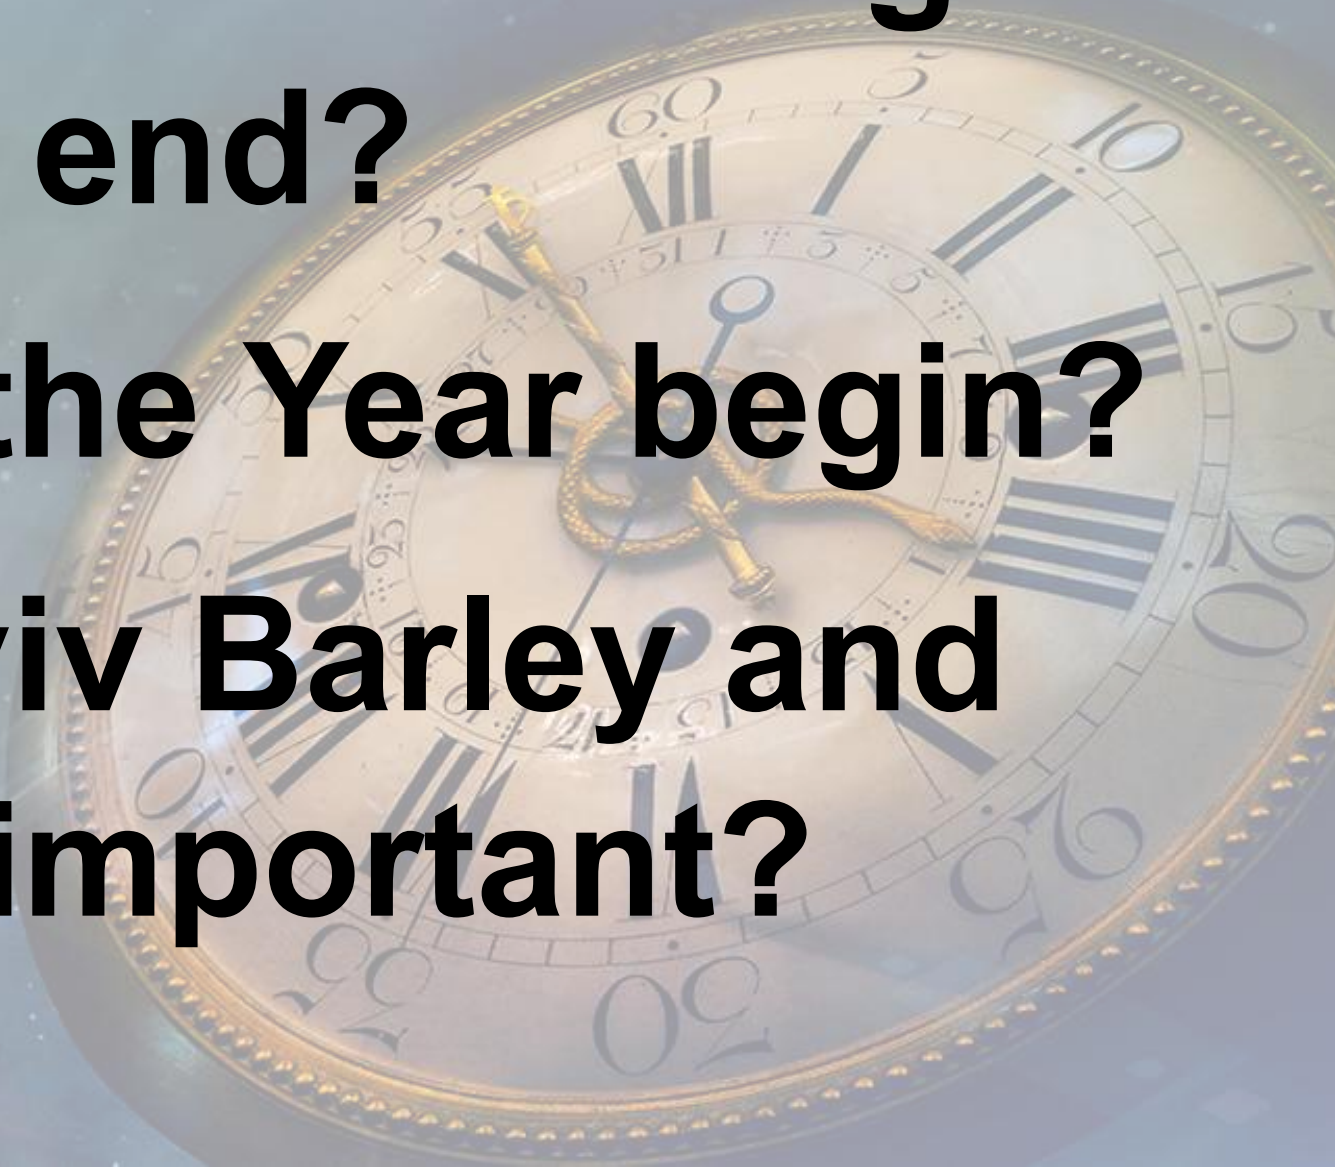

**What is the work day/non-work day ratio?**

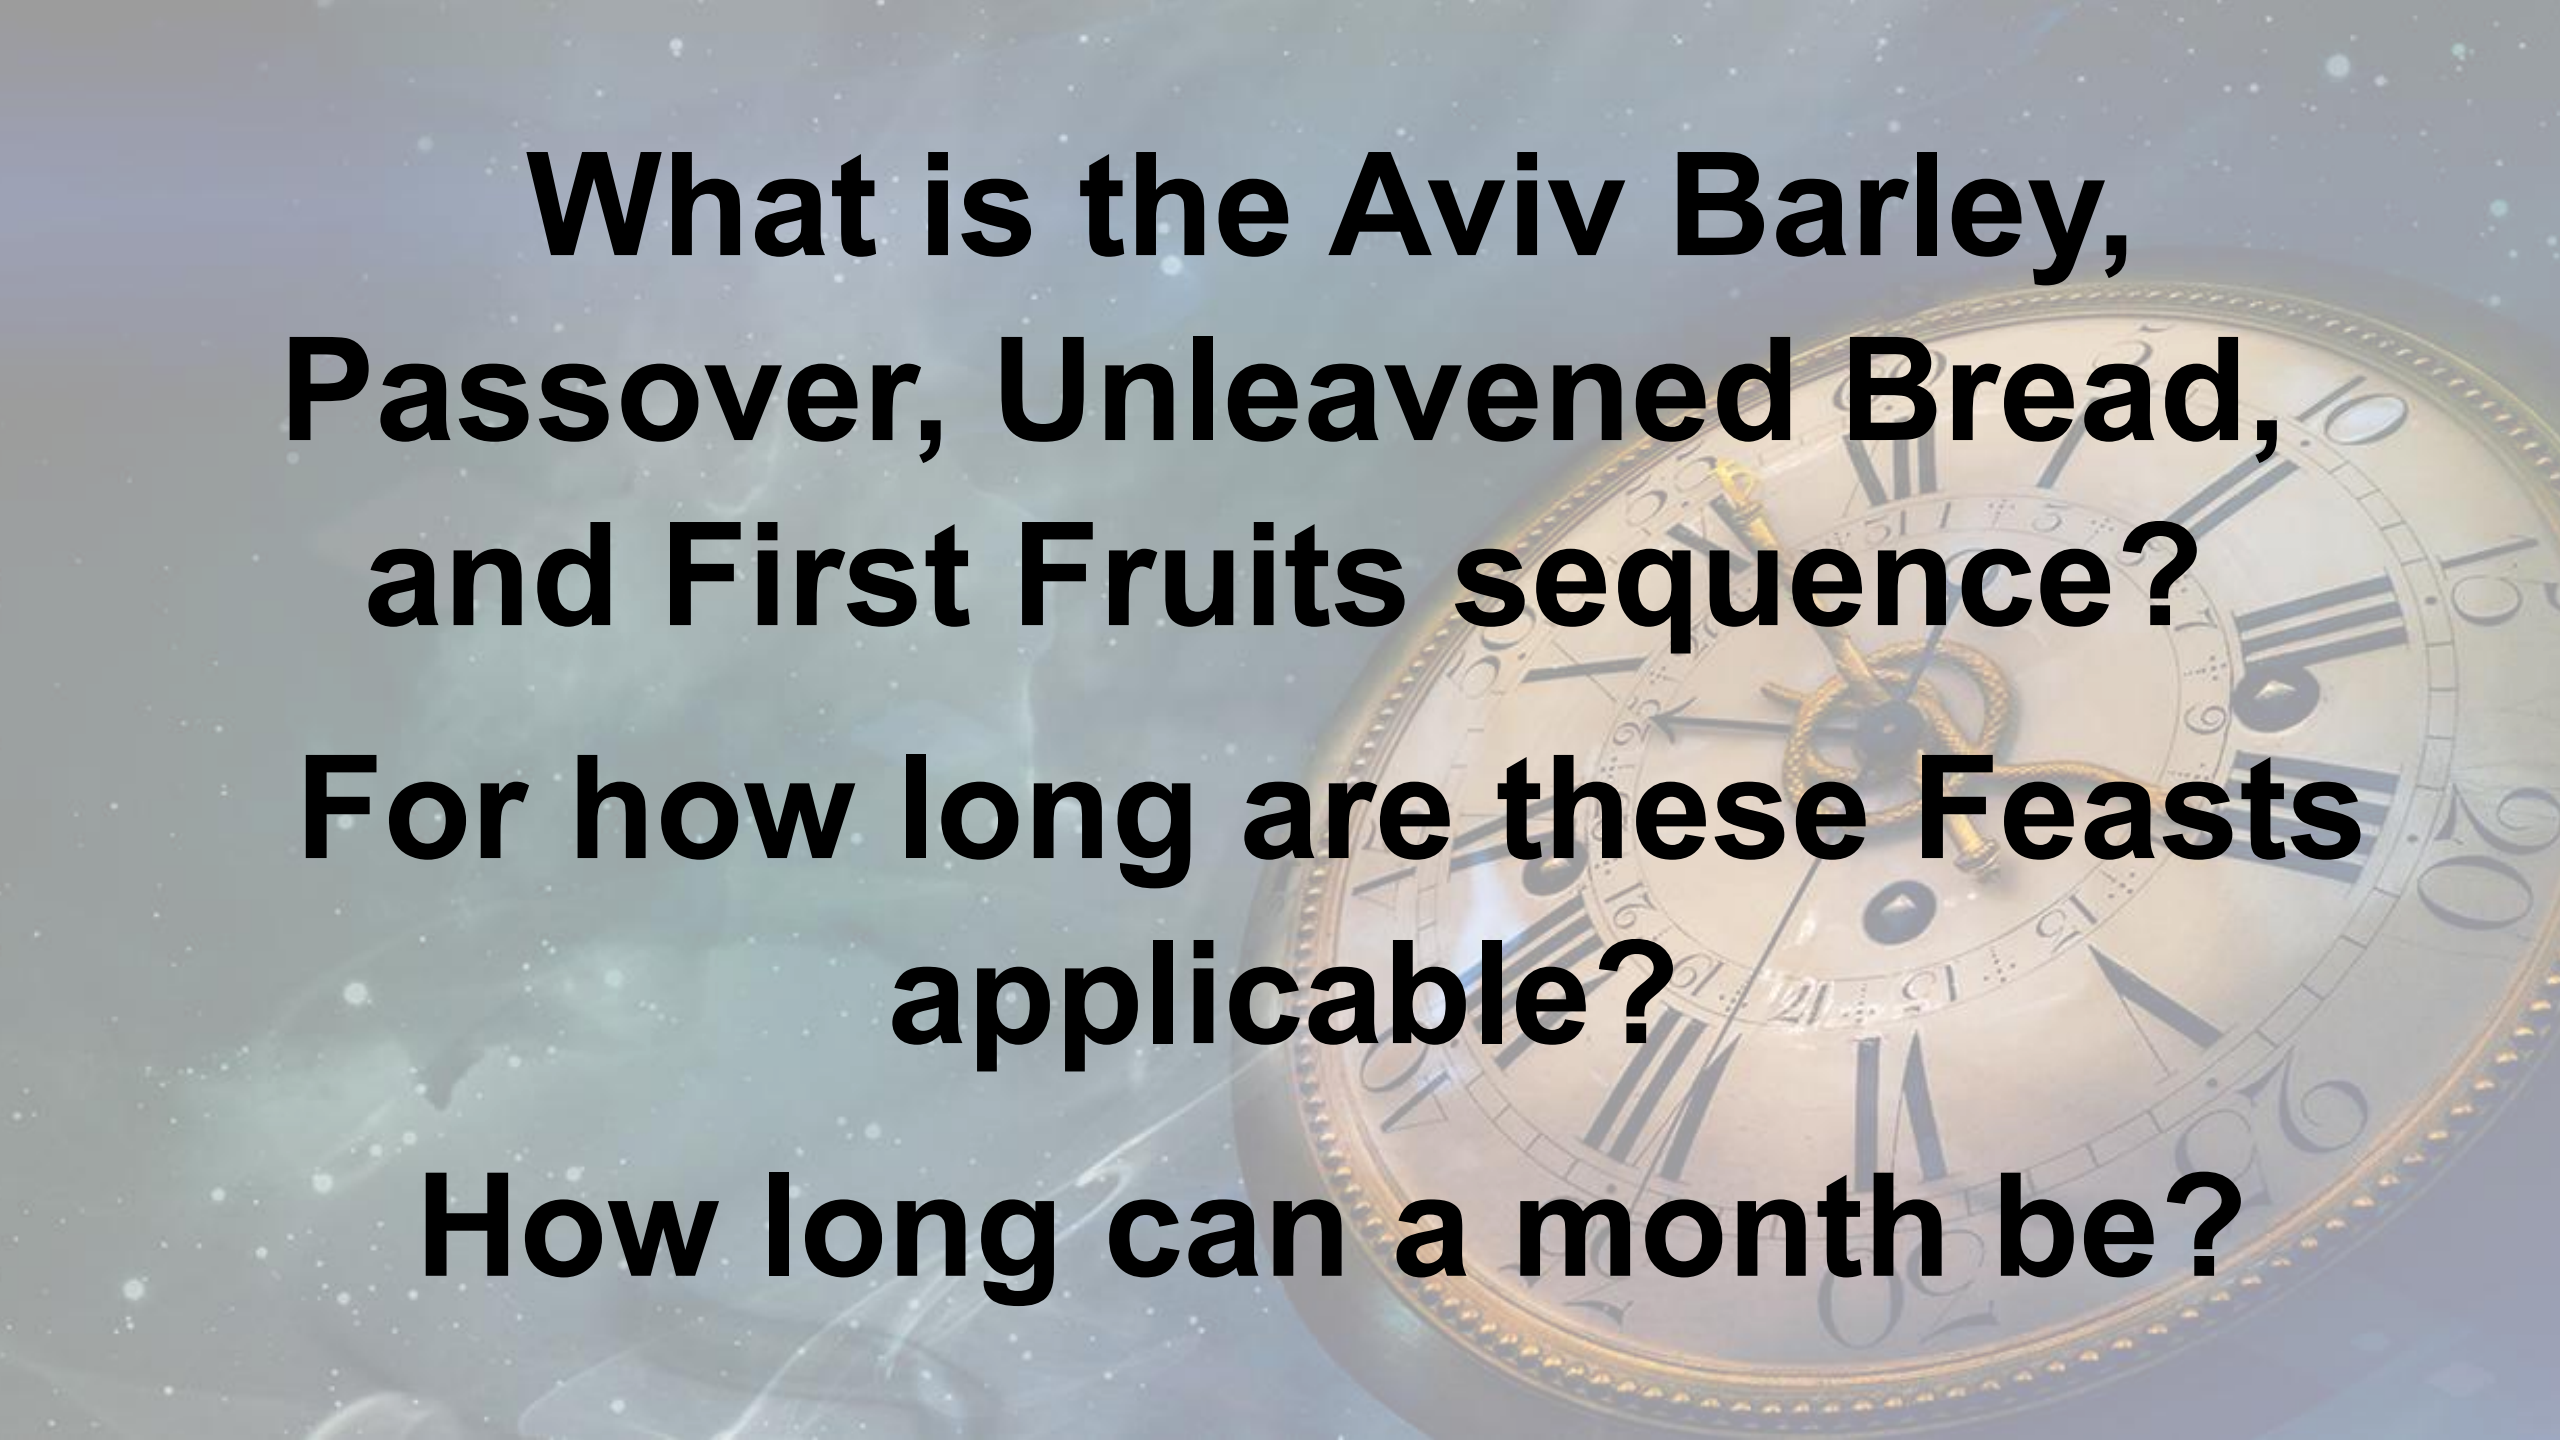

**When does a month begin  
and end?**

**When does the Year begin?**

**What is Aviv Barley and  
why is it important?**

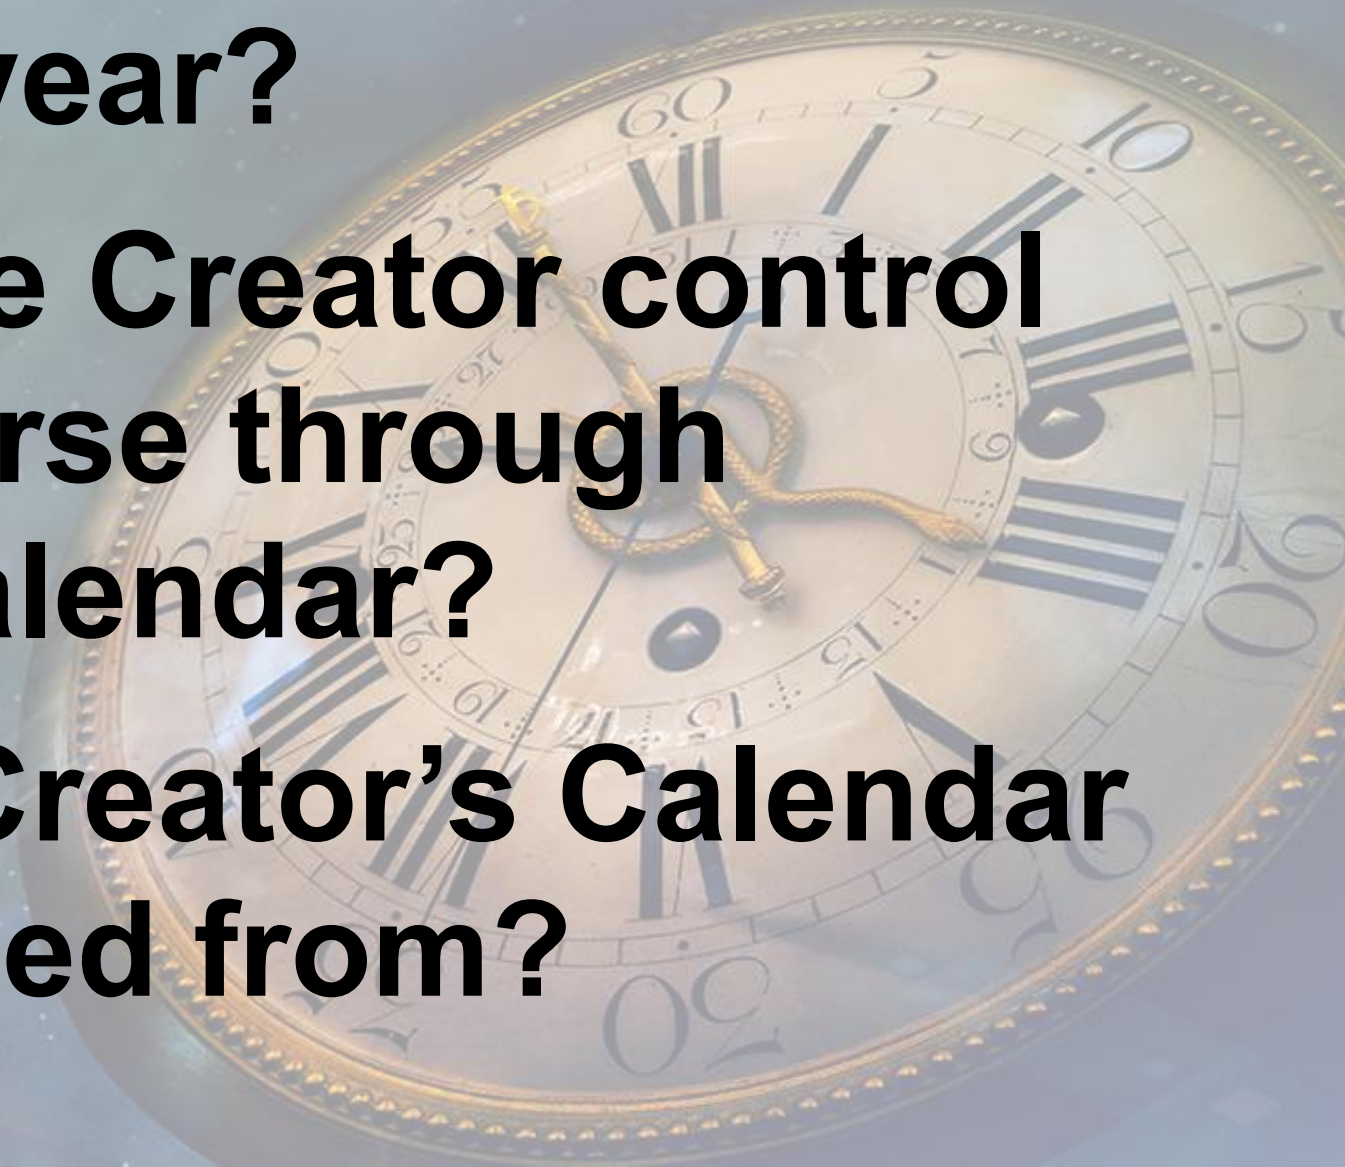

**What is the Aviv Barley,  
Passover, Unleavened Bread,  
and First Fruits sequence?  
For how long are these Feasts  
applicable?  
How long can a month be?**

**How many months make up  
a year?**

**How does the Creator control  
the universe through  
his calendar?**

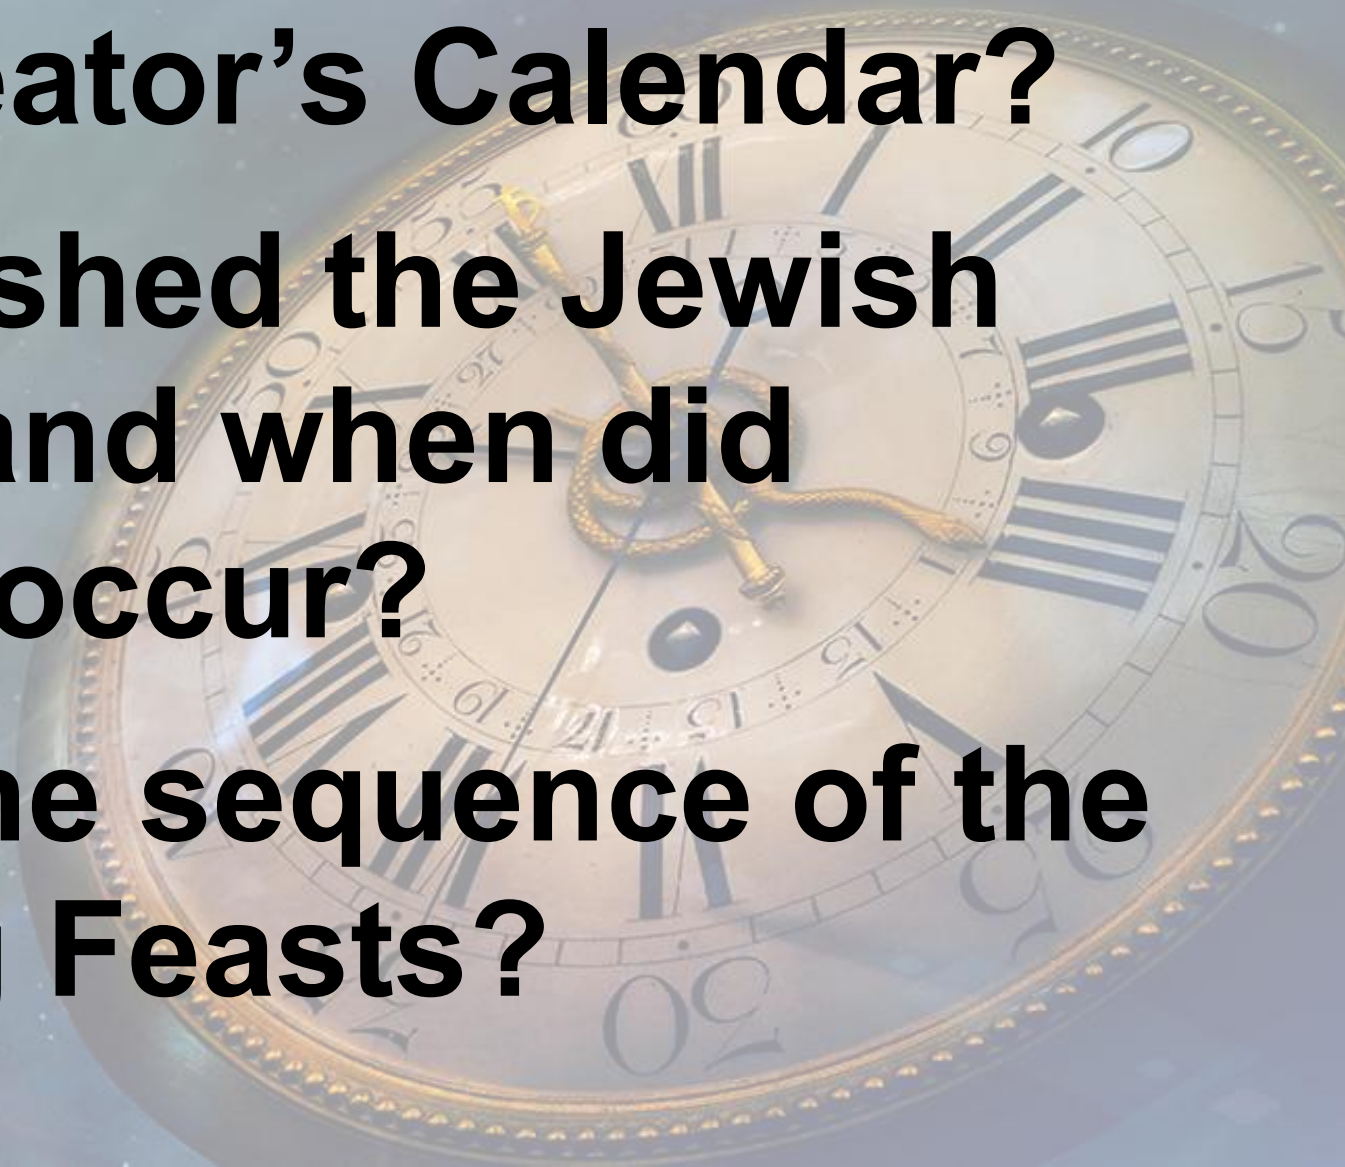

**Where is the Creator's Calendar  
reckoned from?**

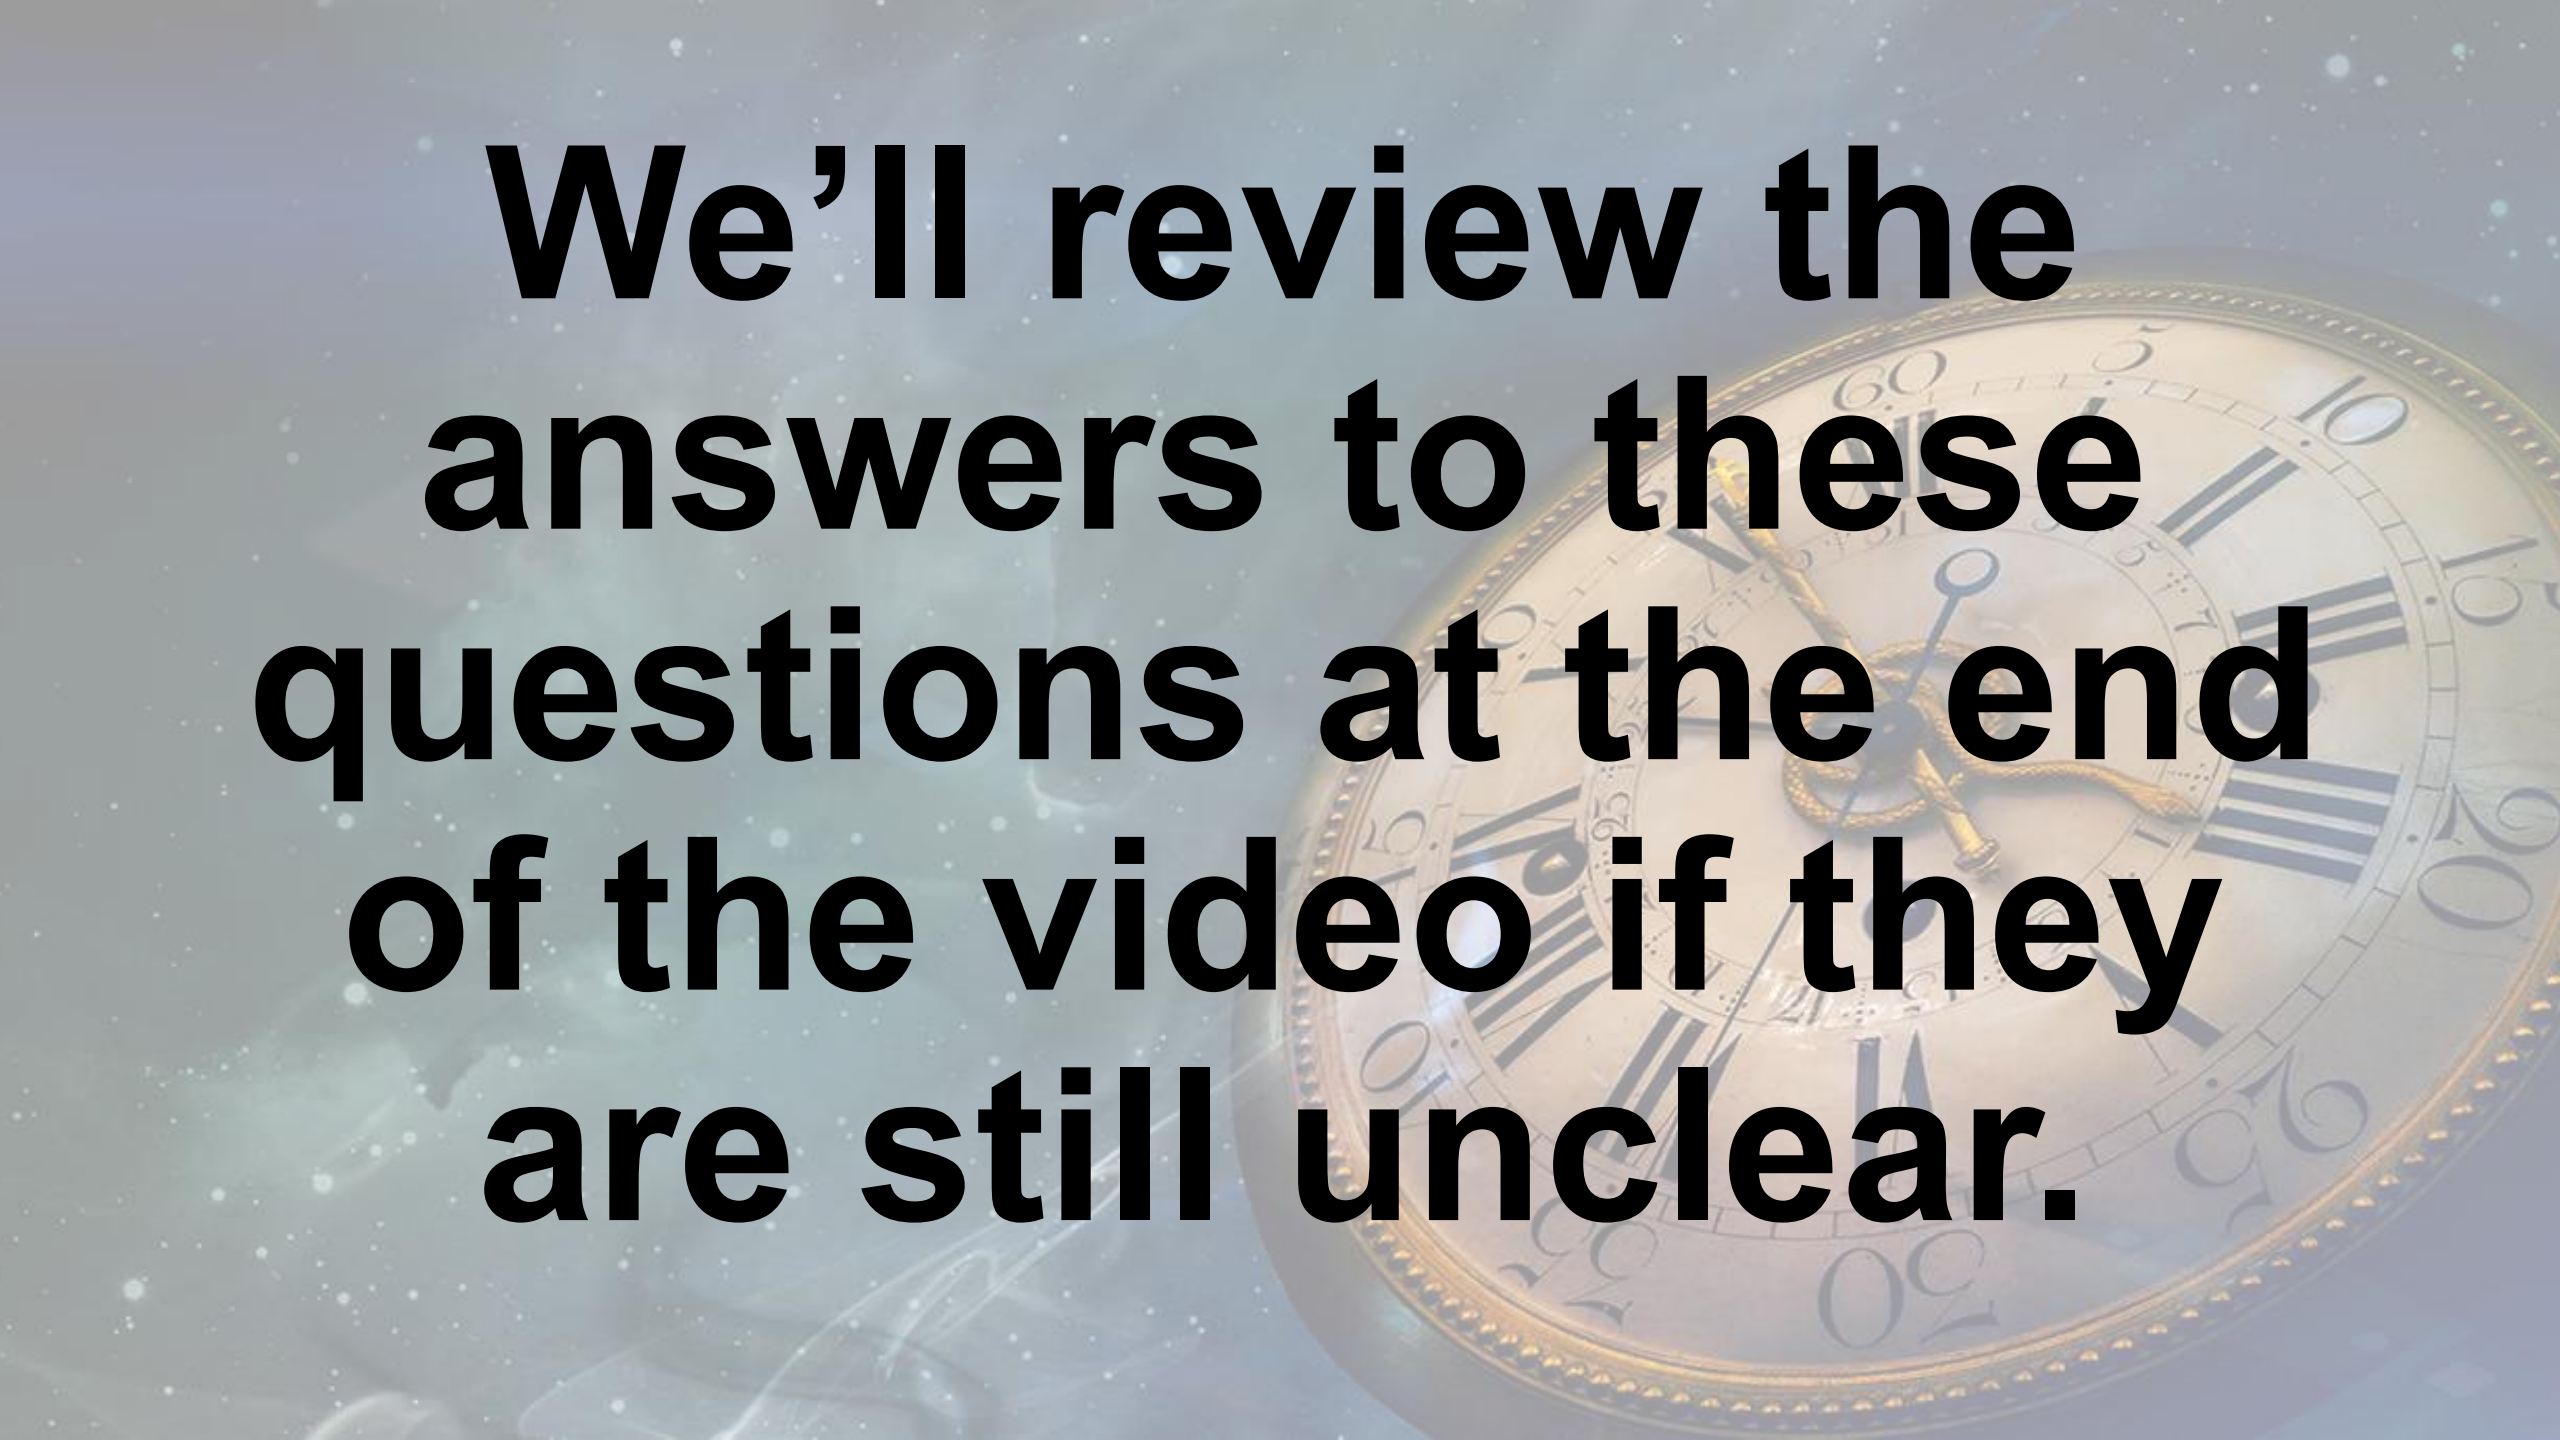

**Are men allowed to change or  
modify the Creator's Calendar?**

**Who established the Jewish  
Calendar and when did  
that occur?**

**What is the time sequence of the  
Spring Feasts?**

**We'll review the  
answers to these  
questions at the end  
of the video if they  
are still unclear.**

# **And now: The Creator's Calendar**

**Click On The Page To  
Start The Video**

# **Bonus 1**

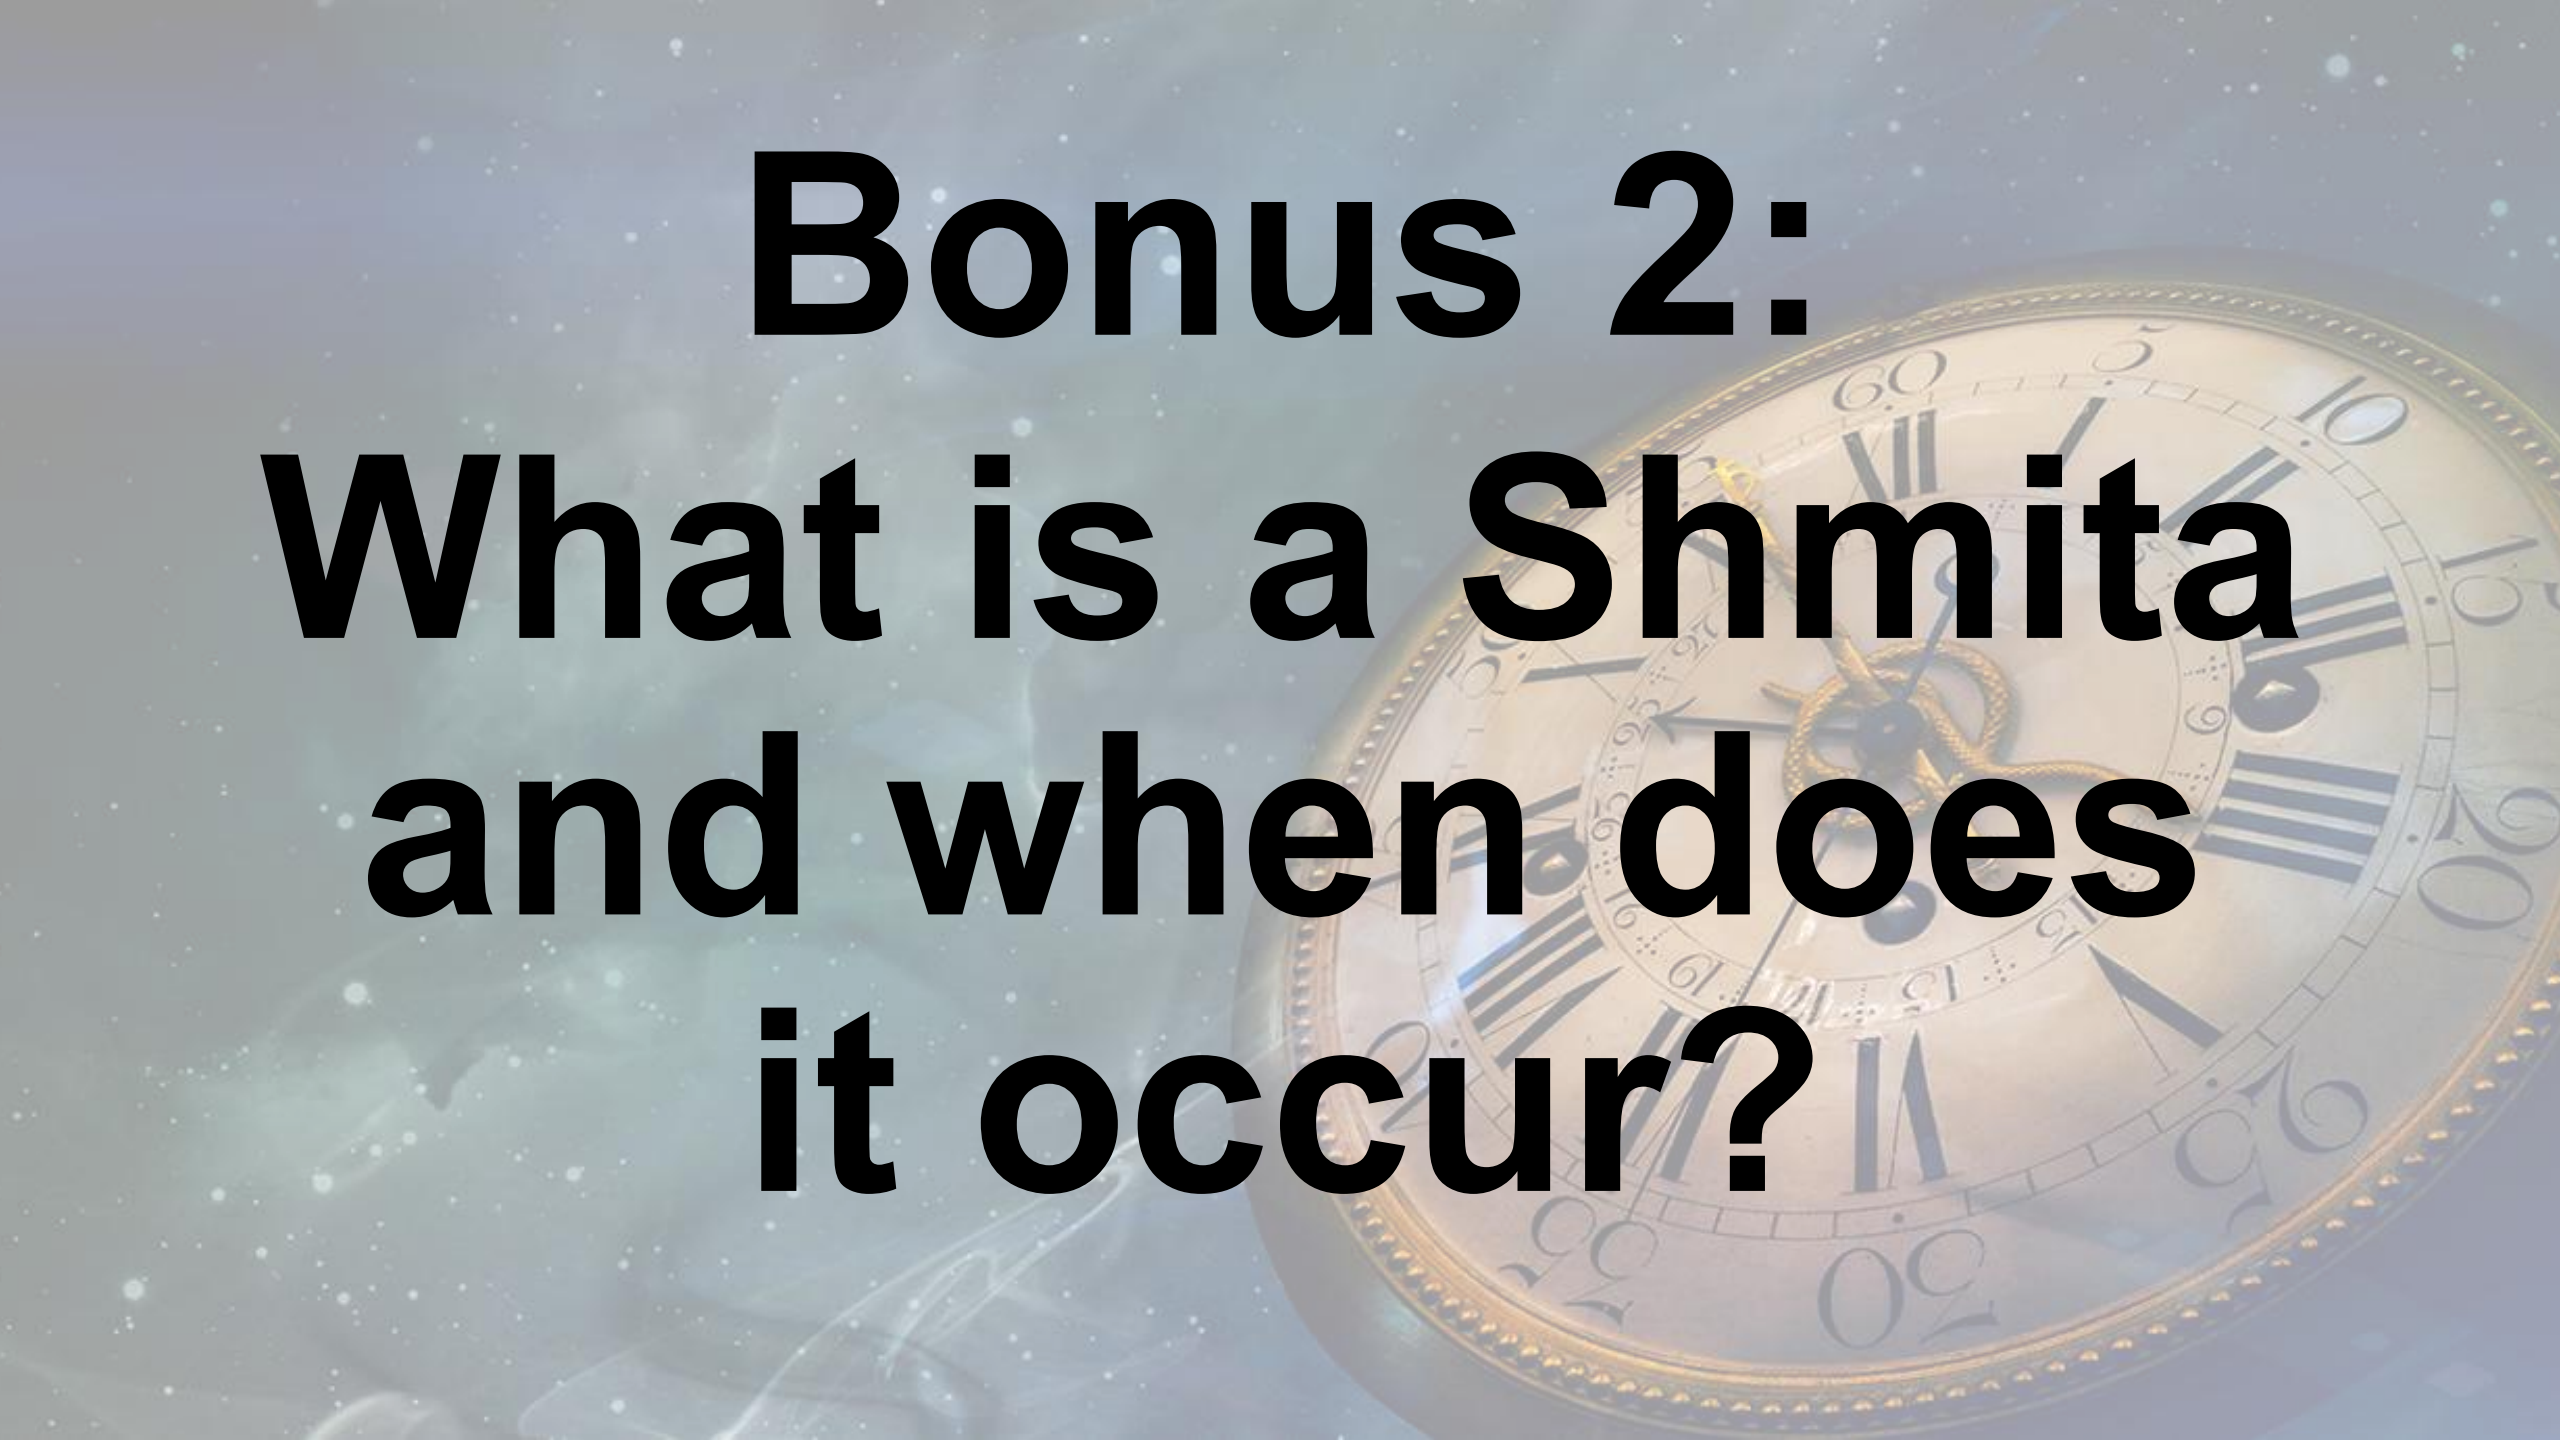

## **What is an Adar Bet?**

## Adar Bet

**A 13<sup>th</sup> or Leap month. If the barley is not Aviv after the 12<sup>th</sup> month, a 13<sup>th</sup> month of Adar Bet is added. In that way, the barley, by default, will be Aviv at the first sliver of the new moon.**

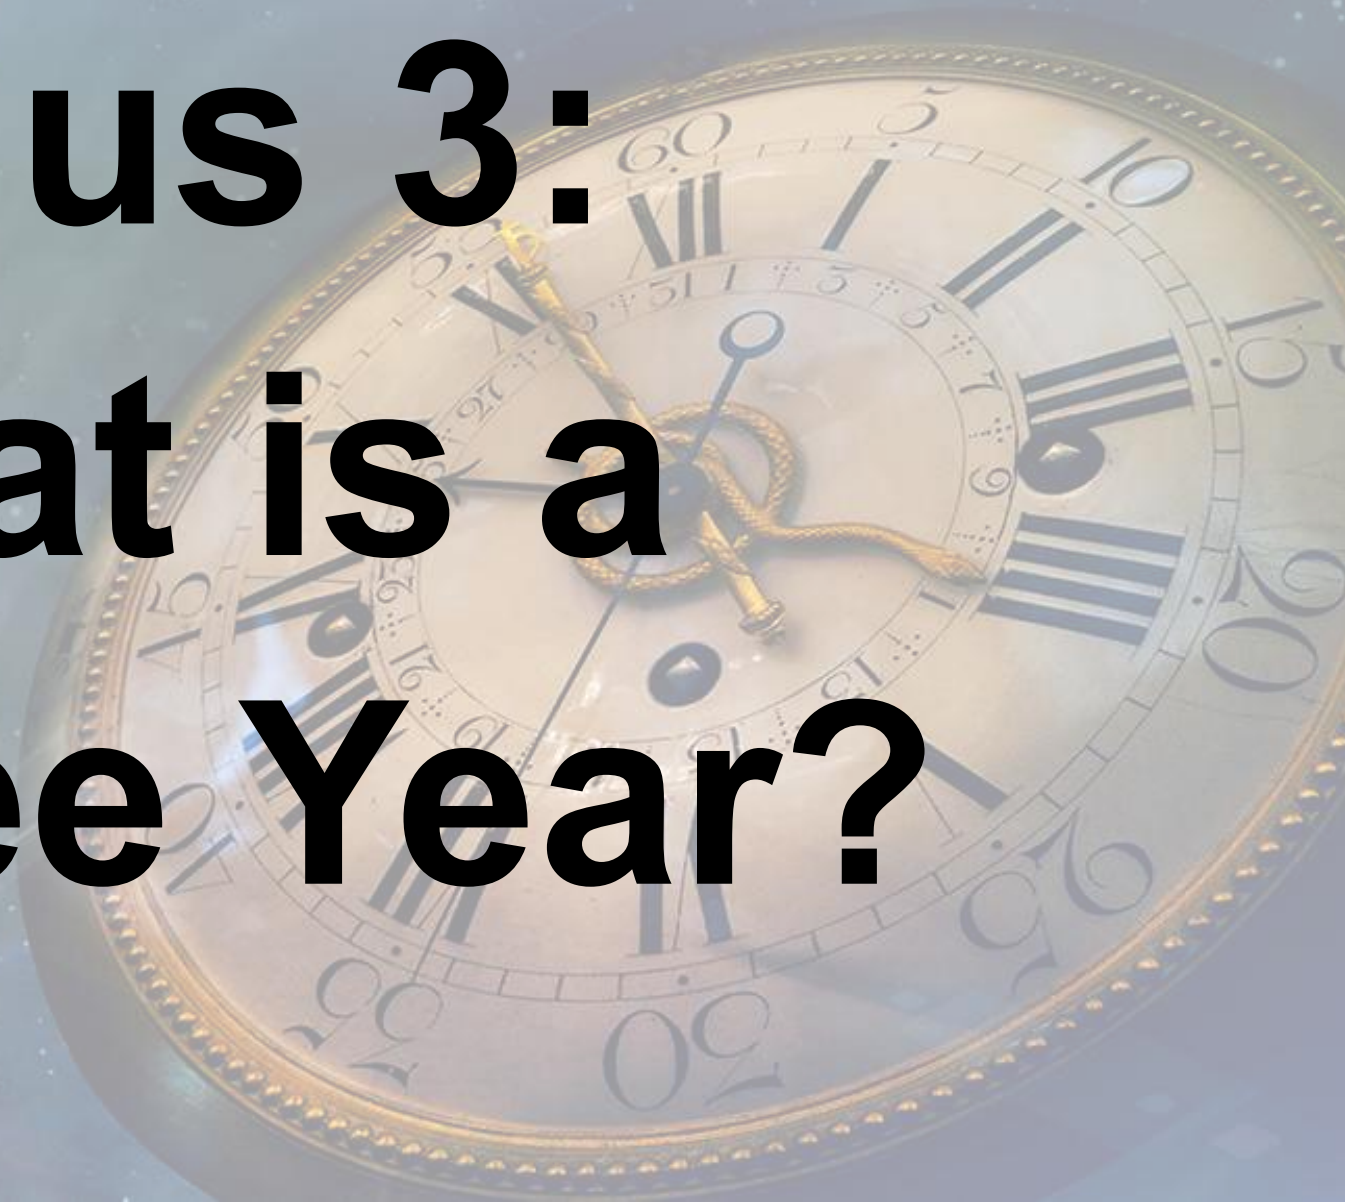

**Bonus 2:**  
**What is a Shmita**  
**and when does**  
**it occur?**

A large, ornate clock face with Roman numerals and a decorative border, set against a background of a starry night sky with nebulae. The clock face is partially obscured by the text, and the background features soft, glowing nebulae and numerous small stars.

## Sabbath Year or Shmita Year

**A Sabbath Year or Shmita Year. Every 7<sup>th</sup> year during *Shmita*, the land is left to lie fallow and all agricultural activity, including plowing, planting, pruning and harvesting, is forbidden by *halakha* (Jewish law). A variety of laws also apply to the sale, consumption and disposal of *shmita* produce. All debts, except those of foreigners, were to be remitted.**

# **Bonus 3: What is a Jubilee Year?**

# Jubilee Year

**Every 50<sup>th</sup> year. 7 weeks of 7 years - Slaves and prisoners would be freed, debts would be forgiven, land will return to its original owner.**

**You probably started to sense something from the video and this teaching:**

**When Man Tries To Manage What God Has Created, What Generally Happens ?**

**But this is a topic for another teaching!**

**The understanding of certain topics stands out as required knowledge for anyone claiming an understanding of the Bible, or a relationship with Yahovah.**

**The Creator's Calendar**

**The Feasts of the Lord**

**Hebrew Tribes**

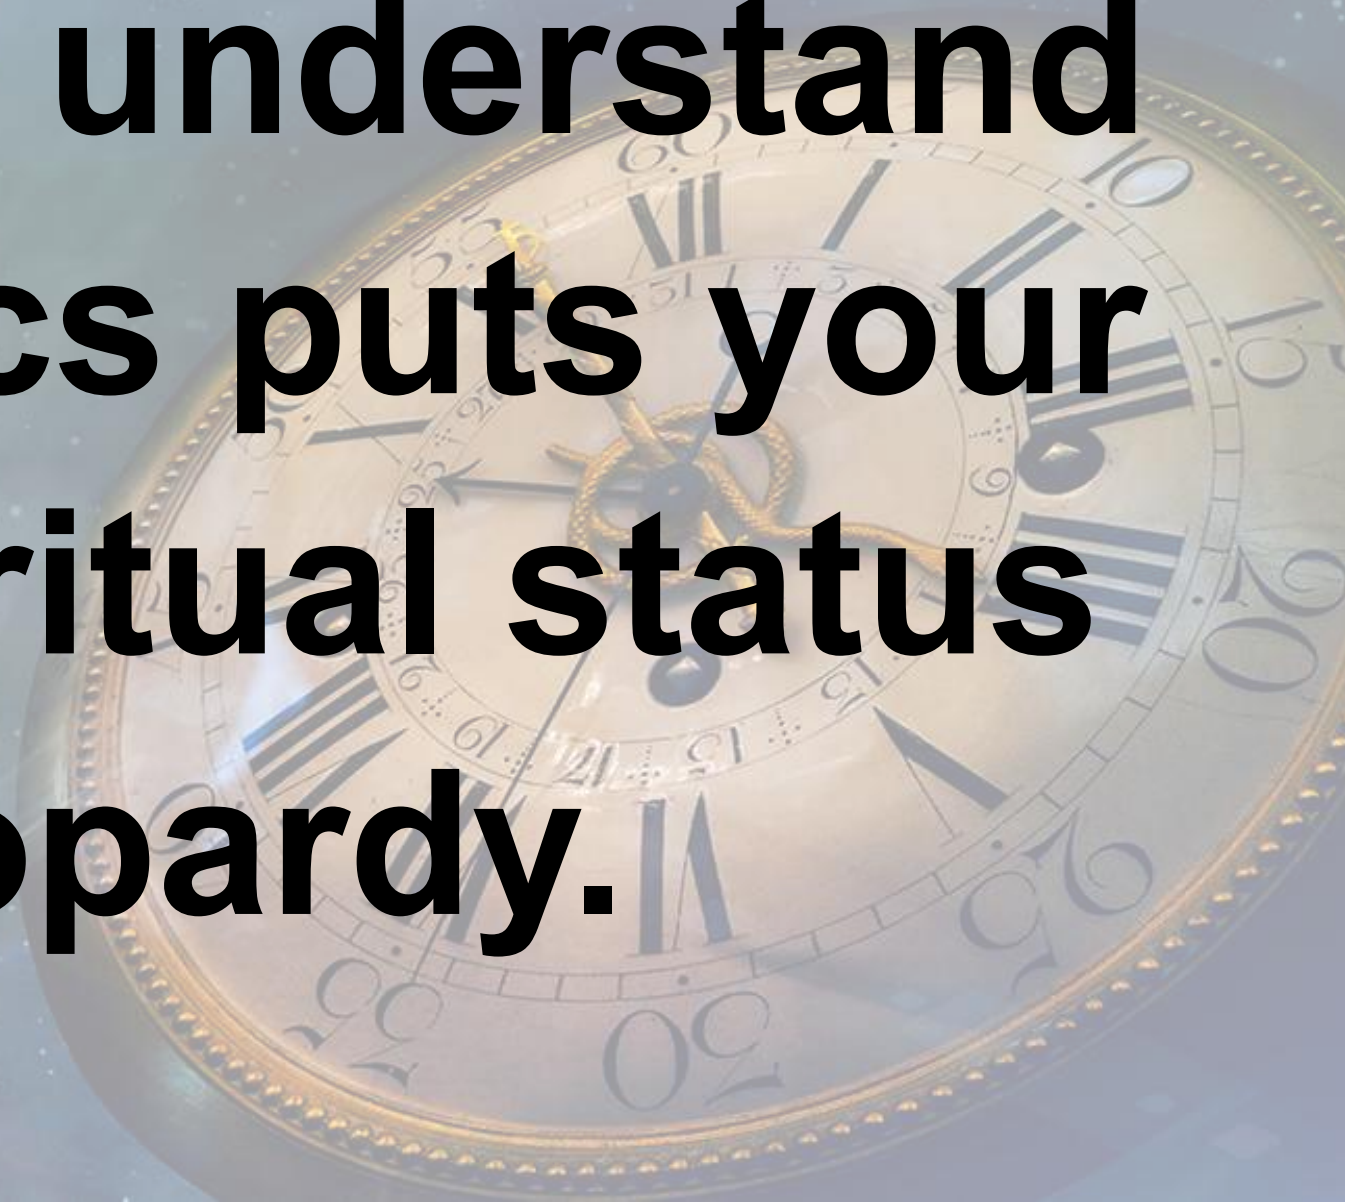

**Prophetic Shadow Pictures**

**The Yahovah-Yeshua Relationship**

**Yahovah's Plan for Our Salvation**

**Failure to understand  
these topics puts your  
future spiritual status  
in jeopardy.**

**What needs  
reviewing?**

**What is the Biblical basis for the establishment of the Creator's Calendar?**

***Genesis 1, Genesis 2, Genesis 7, Exodus 12, Exodus 34, Psalm 81, & Leviticus 23 (and others)***

**When does the day begin and end?**

***Sunset today until sunset tomorrow***

**What is the work day/non-work day ratio?**

***6:1***

**When does a month begin and end?**

***When the first sliver of a renewed moon is seen in Israel. It is the astronomical signal for a month to begin and end.***

**When does the Year begin?**

***When the first sliver of a renewed moon is seen in Israel and the barley is Aviv.***

**What is Aviv Barley and why is it important?**

***The barley is ripe enough to roast and make bread for the Firstfruits Offering. It is the agricultural starting signal for the beginning of a new year.***

# What is the Aviv Barley, Passover, Unleavened Bread, and First Fruits sequence?

*First sliver of the renewed moon & barley Aviv  
– day one of the 1<sup>st</sup> Month*

*Day 10 of the month – Passover lambs selected*

*Day 14 of the month – Passover lambs are sacrificed.*

*Passover occurs*

*Day 15 of the month – Feast of Unleavened Bread begins*

*The Sunday following the regular Sabbath that week*

*– Feast of the Firstfruits (Yom Bikkurim)*

*Counting of the Omer begins*

*50 days later Shavuot occurs*

**For how long are these  
Feasts applicable?**

***Forever***

**How long can a month be?**

***29 or 30 days***

**How many months make up a year?**

***12 or 13***

**How does the Creator control the universe  
through his calendar?**

***Context for the timeline of Yahovah's feasts.  
For signs, and seasons, making covenants,  
and appointed times.***

**Where is the Creator's Calendar  
reckoned from?**

***Israel (preferably Jerusalem)***

**Are men allowed to change or  
modify the Creator's calendar?**

***Never***

**Who established the Jewish  
Calendar and when did  
that occur?**

***Hillel II 359AD***

# What is the time sequence of the Spring Feasts?

*First sliver of the renewed moon & barley Aviv – day one of the 1<sup>st</sup> Month*

*Day 10 of the month – Passover lambs selected*

*Day 14 of the month – Passover lambs are sacrificed Passover occurs*

*Day 15 of the month – Feast of Unleavened Bread begins*

*The Sunday following the regular Sabbath that week  
– Feast of the Firstfruits (Yom Bikkurim)*

*Counting of the Omer begins*

*50 days later Shavuot occurs*
