

UNDER ROCKET ATTACK IN JERUSALEM!

Delmarva's local Messianic Fellowship, Messianic Delaware, is excited to announce a special Zoom presentation, Friday, July 25th, at 7:00 pm.

Dr. Tommy Colie will share the experiences he endured while under attack during the recent 12-Day War in Israel, and his journey to safety out of Israel with his team members. Dr Colie will emphasize the importance of supporting Israel, as well as the prophecies of this tiny nation which are essential to understanding future prophecies to come. He will be supported by Messianic Delaware's own expert on Mt. Sinai and its relationship to the Jewish People, Pam Laurion.

Dr./Rev. Tommy Colie is a former pastor and currently a Religion professor at Wayne College in Goldsboro N.C. He holds a Masters in Religion from Liberty University and a doctorate in Theology from Potters House Seminary. Dr. Colie served as youth pastor, missions pastor, associate pastor and senior pastor at several churches throughout his ministry. He has traveled to over 30 countries in a missionary capacity; especially to Muslims. His travels have been for archaeological expeditions in which he has found an abundance of artifacts in many different countries. He is a representative for Bridges for Peace, an organization that supports the Jewish people and Israel. His last two trip were to Israel, where he worked in the food distribution center as well visiting the NOVA site (the area that was attacked on October 7, 2023). His last trip to Israel was

during the 12-Day War where he came under direct attack from Iranian missiles.

Pam Laurian is a long-time member of Messianic Delaware. Pam was in the second contingent of westerners to visit the actual site of Mt. Sinai in Saudia Arabia. Since then, Pam has made a total of six visits to Mt. Sinai, discovering many of the unknown features of the “Mountain of God”, documenting the geography and Biblical significance of the site, and cataloging the findings of her research team. Pam has become a noted expert on Mt. Sinai and shares her findings with groups and churches throughout the USA. She has been recognized for her efforts in Newsweek magazine, A Rood Awakening International, and the Smithsonian.
